JAN. 18, 1856.

To Business Men.—The LEWISBURG CHRONICLE has the largest and best circulation of any Newspaper in Union County.

☞ The American National Council, to nominate candidates for President and Vice President, meets at Philadelphia, Friday, Feb. 22, 1856.

☞ Pennsylvania Democratic State Convention, to nominate candidates for Canal Commissioner, Surveyor General, and Auditor General. Harrisburg, Tuesday, March 4, 1856.

FOREIGN NEWS.

The America reached Halifax, 16th.

Flour and Cotton, at Liverpool, declined.

Peace propositions were still exchanged between the belligerent Powers, without any marked result. Meanwhile, warlike preparations continue on all sides.

The Russians claim to have captured a troop of British horse, and to be making good use of their victory at Kars.

☞ The 112th ballot for Speaker stood: Banks 88, Richardson 65, Fuller 29, all others 13, necessary to a choice 98. The Democrats and Slavites still prevent the adoption of the plurality rule, which it is believed will elect Mr. Banks.

Pennsylvania Legislature.

The nomination of E. Beaty, of Carlisle, as Superintendent of Public Printing, was unanimously confirmed.

Mr. Sellers read in place bill to increase the capital and alter the name of Lewisburg Savings Institution; also, bill to incorporate the Lewisburg Gas Company.

Several bills were sent back by the Governor without his approval; all of which upon being again put to vote were voted down almost unanimously.

Mr. Beck contests Mr. M'Ghee's seat, and a Committee was drawn to try the case.

There have been a larger number of Officers appointed, this year, than in any previous session.

The bill to repeal the "Jug Law" is contested in the House by members who demand a better law before that is repealed.

☞ In the Pennsylvania Democratic caucus for U.S. Senator, the 1st vote stood: Bigler 18, Robins 15, Foster 13, Jones 8, Porter 7, Buckalew 6, M'Candless 6, and 9 scattering—82 in all. On the 16th vote Bigler had 43 (a majority,) Foster 18, &c.

On Monday, 14th, the Legislature convened to elect a U.S. Senator for six years from 4th March last, when Ex-Gov. WM. BIGLER was elected, he having 82 votes, and E. Joy Morris 43, and several of the Opposition absent.....It is stated that he will retain the Presidency of the S. & Railroad Company.

Obituary.

Died at his home in Hamilton, Madison Co. N.Y. Monday, 7th inst., STEPHEN W. TAYLOR, LL.D., President of Madison University, aged 65 years. He had suffered for months from a hidden but excruciating disease.

Dr. Taylor was a native of Otsego Co., N.Y. By borrowing the means, he entered the Congregational institution at Clinton, N.Y., known as Hamilton College, and in 1817 graduated with the honors of his class. Marrying soon after, he settled at Lowville, where he reared up an Academy of the first order. In 1835 he was called to take charge of the Preparatory Department of the Baptist Literary & Theological Institution, at Hamilton, now Madison University. In 1846, he entered upon the work of establishing the University at Lewisburg, Pa., and contributed an important part in laying broad and deep its foundations. After graduating its first class of pupils, he returned to enter upon the Presidency of Madison University, in the faithful performence of the duties of which he breathed his last.

Retiring in his character, Dr. T. was known truly only to those associated with him by family or educational contact, and by those he was esteemed second to none. We believe his father, as well as his widow and three children, still live to realize a loss which will be mourned by thousands to whom he has been a benefactor as an educator, as a rare example of manly and Christian virtues, and as a true and considerate friend.

HORRID AFFAIR.—At Maysville, Ky., on Thanksgiving day a couple of young men whose family connections are of the "highest resectability," while on a drunken frolic at the Parke House, *set fire* to a colored waiter whom they found asleep in order to awaken him. They first poured camphene upon his whiskers, and then applied fire to them. The poor fellow was terribly burned, and lived two weeks in the most excrutiating agony. The young men being rich, have settled the affair with the owners of the boy by paying him $1200, their "high position" sheltering them from any movement for legal investigation!

PITTSBURG, Jan. 12.—A terrific explosion occurred this morning about 5 o'clock, at the corner of Third and Grant streets. The escape of gas from a meter had filled the cellar of a colored man, named Brown, who went down to remedy the defect, and on lighting a match the explosion followed, completely gutting the lower part of the house, and injuring Brown severely. The windows of several houses in the neighborhood were broken, and the explosion heard several squares, resembling the shock of an earthquake.

At the election for Mayor in Allegheny City on Thursday last, the result was as follows: Adams (Independent) 646; McDowell (American) 619; Otterson (Democrat) 259; Tyler 115; John 20. Adams' majority of McDowell 27.

For the Lewisburg Chronicle.

Honors to the Greytown Warrior.

The *Richmond Enquirer* of the 3d inst. illustrates the above caption in the following style. It says:

"The following remarks of the *Petersburg Express* (independent) will be echoed by all true men everywhere:

'The President takes [in his Message] strong ground for the SOUTH, and this portion of the Message will receive the hearty approval of every true Patriot in the land—it matters not that he reside North or South of Mason and Dixon's line. We earnestly commend this portion to our readers, and hope none will fail to give it a careful perusal."

In order to understand what principles, rights and privileges of "THE SOUTH," the "President takes strong ground for," it is only necessary to turn to the *business* columns of the same paper, where we will find the following list of black advertisements:

Baker, Pleasants & Co. cor. Franklin & Un. Sts.
Geo. W. Taler, under Metrop'n Hall, Frank. St.
Dickinson, Hill & Co. Franklin & Wall Sts.
Hill & Rawlings, Richmond.
Lewis Hill do

—advertise their occupations as those of "hiring out negroes," "*buying and selling negroes*," "selling of slaves at public and private sale," each setting forth their adaptedness to the business, and their accommodations for carrying it on in the best style—such as dry houses for the keeping of the slaves during the hiring and auction season, attention to them when sick, &c.

These men (and others) in the same paper advertise for sale as follows:

January 3, 1856—15 negroes.
3, 27 do
3, 15 do
4, 30 do
4, 6 do
4, 21 do
16, 40 do
9, 2, man and woman.

At Private Sale—1 negro woman, 20 years old, good cook, &c.

Wanted—30 able bodied men (colored) to work in the Mills at Manchester—

—also several good Coopers, a good Chambermaid and Seamstress, &c. &c.—each of these advertisements setting forth the good qualities of the wares, such as good mechanics—healthy—good washers, ironers, cooks—field hands—women with a number of young, healthy children, &c.

This, then, it seems is the great *business interest* that our good "President takes strong ground for—not only to perpetuate it in the old States, but to extend it to and nourish it in the virgin soil of our new Territories—a system which 'fanatics' call *evil*, and which our President and those for whom he "takes strong ground" call *good*—a system for the abolition of which (a clergyman of a respectable church declared, in the presence of a learned teacher of *moral* philosophy, without rebuke) the Church of Christ could do nothing!!!

Surely that prophet was not mistaken, when he said, the days would come, when evil would be called good, and good, evil.

ALBANY, Jan. 16.—The Assembly organized to-day, by electing Orville Robinson, (Soft Dem.,) Speaker. The Annual Message of Gov. Clark was then sent in, and read in both Houses. The financial affairs of the State do not present a favorable exhibit, there being a deficiency during the financial year of upwards of $250,000. The surplus of the Canal revenue over the expenditures is $1,650,000.

After discussing various local topics, the Governor closes by an allusion to the Kansas question, denouncing in strong terms the overthrow of the Missouri compromise, and expressing a hope that the voice of New York will again, as heretofore, be unanimous in asserting the Jeffersonian policy of restricting Slavery and extending freedom.

IRISH AGRICULTURE.—A correspondent of the London *Times*, in commenting upon the progress of Irish agriculture, states that during the past fourteen years the value of farm stock in Ireland has increased from £22,000,000 to £35,000,000 sterling, and that the number of horned cattle has risen from 2,000,000 to 3,250,000 while the quality has correspondingly improved. Still, however, of 20,000,000 of acres which Ireland comprises, only about one-fourth is under direct tillage, and fully one-third in pasture.

HARRISBURG, Jan. 12.—The nomination of the Hon. Wm. Bigler by the Democratic caucus for U. S. Senator, is generally considered here a triumph of President Pierce over Mr. Buchanan. The friends of the latter more than intimate their dissatisfaction. They fear they have been sold as with Mr. Brodhead in 1851

Another Indian Battle in Oregon.

The last arrival from California brings news of continued contests between the natives of the Western coast of North America and the encroaching whites. The writer of the following, will be recognized as one of the grandsons of Col. JOHN KELLY, (one of the earliest settlers and most renowned Indian fighters of Buffaloe Valley,) whose remains rest under the monument in the Presbyterian grave yard, Market street, Lewisburg. James K. Kelly removed to Lewistown and practised law, but several years ago started with a number of others to Oregon or California. The blood of the grand father seems to show itself in him. In the battles described below, 8 whites were killed, and 12 wounded.

HEADQUARTERS, LEFT COLUMN, 1ST REGT. O.M.V.
Camp on Walla-Walla River, Dec. 8, 1855.

To W. H. FARRAR, Adjutant—Sir: Yesterday morning, as my command was on the line of march from the mouth of the Do Shute River to Whitman's Valley, we were attacked by about 400 Indians, with whom we kept up a running fight all day, and for a distance of about ten miles along the Walla-Walla River. At dark on yesterday the battle was suspended by the Indians withdrawing. We drove them from every position which they took, both in the brushwood, along the river bank, and on the adjacent hills. This morning the battle was renewed and raged all day. At dark this evening the Indians again withdrew. The number of Indians who fought us has been considerably greater than yesterday, and is supposed to exceed 600. To-morrow morning we expect a renewal of the battle, which in all probability will last for some time to come.

I regret to say that yesterday and to-day we have lost many brave and gallant men, who fell nobly fighting for their country. The loss of the Indians must be very great, as their killed alone, during the two days, cannot be less than fifty men.

Among their killed on yesterday was the noted chief of the Walla Walla Valley, the celebrated Pen-peu Mox-Mox. He was taken prisoner by my command on the 5th inst., near his camp on the Touchet, and during the battle made an effort to escape. On doing so he was killed, together with four others who were made prisoners at the same time, and who attempted to get away. To-morrow, as I said, we expect a renewal of the battle, and I regret to say that we are not in a situation to repel the attack of the Indians with the vigor that is desired. This arises from our scarcity of ammunition and the broken down condition of our horses.

The animals have become so poor and jaded that it is impossible to make a successful charge against the Indians, who are mounted on fleet horses and can easily escape. We are, therefore, in a measure compelled to act on the defense of our present position, which we are fortifying by making a stockade fort. Our ammunition will be exhausted, I fear, with another hard days fighting, and unless we can procure a supply from Fort Henrietta, our position will be critical indeed.

Of provisions we had only enough for three days, but we expect to get a supply in two or three days. I must insist upon a supply of all kinds being sent forward at once, as I do not intend to abandon the position until the last extremity. By doing so the enemy will be greatly emboldened.

This despatch is written in great haste, and is disconnected and exceedingly brief, and I know will be unsatisfactory, but I wish to send the messenger forward immediately, so that he can reach Fort Henrietta by daylight. Respectfully, &c.,

JAS. K. KELLY, Lieut. Col. Reg. O.M.V.

Maryland is beginning to discover that her system of lottery gambling is not only a disgrace to, but a fraud upon the people. The Baltimore *American* is very bold in the exposure of these frauds.

Theory of Disease,

AND ITS SIMPLE METHOD OF CURE.

It is not our object, at this time, to go into a detailed explanation of Professor Holloway's theory of disease, but simply to inform the American people that one of the most remarkable men of this or any former age is among them, and that his medicines have a celebrity unprecedented in the annals of the world. There is no charlatanry in his pretensions. Unless all the civilized world are deceived, the Holloway's Pills and Ointment will drive disease from the human system, under the most unfavorable circumstances, and in all climes. Other men have sprang into an ephemeral notoriety by advertising their remedies. Like butterflies of the day they have buzzed for a while and then expired; both their names and their medicines have sunk into an obscurity from which they never emerged. Others have met with a limited success, perhaps as much as they deserved. No man, though he may have the wealth of Cœsus, can long deceive an intelligent people with a worthless remedy for disease. If health follows the administration of a remedy for disease, almost without an exception, though it is prescribed in a million of instances, and in all forms of disease, all the doctors on the globe could not make the people believe that it was not a good remedy, or that the inventor was not a public benefactor, and no empiric or charlatan. Professor Holloway's remedies occupy this position before the citizens of the world. The inventor is a man of enlarged powers of mind, who has seen disease in all its forms, and in all climates of the world. His medical office in London was daily thronged with patients to such an extent that a police force was necessary to be stationed at his door. But an office practice afforded too narrow a field for the exercise of his expansive intellect, and he determined to be the world's physician. All countries have had their celebrated physicians; England has had an Abernethy, France a Magendie, and America a Rush; but these men's ambition only extended to a practice confined to a narrow circle of friends and admirers, or the superintendency of a medical hospital. Professor Holloway has chosen the globe as a theatre for his practice, and though now a resident of Republican America, he is prescribing daily for hundreds of thousands on the four quarters of the globe.

His medicines are expressly designed to act on the organs whose functions are so essential to health. They operate on the stomach, liver, kidneys, lungs, and skin, restore their deranged functions or uses, and thus purify and cleanse the blood, the very fountains of life.—*New York Sunday Times.*
