Lewisburg, Pa.

FRIDAY MORNING, OCT. 24, 1856

ADVERTIZE!—Manufacturers, Merchants, Mechanics, Public Officers in City and Country, Publishers—all who wish to buy or sell—would do well to employ the columns of the *Lewisburg Chronicle*, which has a large and increasing circulation in a community containing a large proportion of active, solvent producers, consumers and dealers, as any in the State.

☞ See New Advertisements.

To Contractors.

The Trustees of the University at Lewisburg, having sold the building occupied by the Female Institute, (to some gentlemen from New Jersey, who contemplate keeping a public boarding house,) now purpose erecting a large building, adapted for a Seminary, in the Grove, near St. George street. Proposals are invited, (in our paper to-day,) until Friday of next week. The sale of University Lots, to-day, is intended to aid in securing funds with which to erect a commodious and more attractive edifice.

Vote Direct for President.

Every citizen would like to cast his vote direct for President, as he does for Governor and other officers; but Slavery interferes, and requires the Electoral Ticket system, that it may have an undue political influence. The Union Ticket presents an opportunity to vote *directly* for either FREMONT or FILLMORE, as they prefer. Those gentlemen would be competent to vote as Electors if elected, and would not vitiate the other names even if they were incompetent. ☞ Each ticket must have *no more than twenty-seven names*, but may have *less* if desired. ☞ See that all the names—and none other—on your Ticket, are like those under our editorial head, (first page, inside,) if you wish to vote for Fremont. If you wish to vote Fillmore, erase the name of John C. Fremont, and substitute "Millard Fillmore." Then if there be 100,000 tickets headed *Fremont*, and 100,000 tickets headed *Fillmore*, and the united ticket be elected, each of those candidates would receive 13 Electoral Votes—and so on in exact proportion as one or the other has most votes on the union ticket.

☞ Although our State Election has not given us all we wished, it affords the best grounds for hope.

We have gained the Senate, and have 3 majority there; we have reduced the majority against us in the House from 34 to 1 or 3.

The Democrats have barely elected their State officers by a few hundred votes instead of the 50,000 or 40,000 they claimed; and they have got back some of the Congressional Districts taken from them by the Americans by surprise in '54.

The Democrats have polled nearly all their votes; they colonized thousands on the Canals, Railroads and in the Cities; they had 10,000 or 12,000 naturalized for the occasion; they expended more money than they can raise again; and they got votes for their candidates that they can not get for the last old Federalist.

We shall have out thousands more of votes in Nov.; thousands who voted against us, then, will vote for Fremont; and our friends will work harder than they did last month.

"Our Turn next."

The Ups and Downs of Election, have this year been almost equal to those of 1840 and 1848. On Wednesday morning after election, the Democracy were exulting; but returns thro' the day seemed to render the success of the Union Ticket certain, and our Fremont boys had a bonfire on the occasion. Thursday and Friday the scale wavered, until on Saturday the Democrats were out of the woods, and had a torch-light celebration, as diminutive in proportion as their majority. "*Our turn next, boys!*"

☞ A Union county man, now resident in Mercer county, writes us an animated description of the Fremont meetings in Western Pennsylvania, and intimates that that section will roll up an unprecedented majority for Free Kansas.

Several other accounts of Union and Fremont meetings, in this and other counties, we are obliged to omit for want of room.

IN OCT., 1848, there was 2,646 Dem. maj. for Canal Commissioner.

NOV., 1848, there was over 14,000 for the Whigs, and 24,000 against the Democrats.

IN OCT., 1856, there is under 3,000 Dem. maj. for Canal Commissioner.

IN NOV., 1856——How much for Col. Fremont?

☞ The rates of discount in the Bank of England have advanced 1 per cent. There are serious financial troubles in France.

After a series of disasters in Nicaragua, Gen. Walker had been successful in two battles, and was more likely to retain his position.

"*Ain't she a State!*"—The official returns for Governor of VERMONT, foot up as follows:

Fletcher, Republican,	34,052	
Fillmore and scatt'g	270	34,322
Keyes, Dem.,		11,661
majority of		22,661

Three to one against Slave Democracy!

MORE SLAVERY.—Gen. Walker has RE-ESTABLISHED SLAVERY in Nicaragua. Nicaragua and Cuba are among the additions to our Nation, contemplated by the Fillibusters in the event of the election of Buchanan. Two more Slave and Catholic States!! who wants them?

☞ The Fremont meeting for the lower tavern at Mifflinburg, called for Friday last, was postponed, on account of the rain, until Saturday of ☞ next week, ☜ when a general attendance is desired.

BACKING OUT.—We never doubted that as soon as the election of Mr. Fremont became a matter of probability, we should see the Fire-Eaters backing out from the position of insisting upon a dissolution of the Union in the event of Fremont's election. Senator Toombs of Georgia declared that in such a contingency, the Union *should* and *would* be dissolved. At the late secession meeting in South Carolina, he has receded from that position, and is reported to have said:

"He did not knew that any amount of effort could avert the issue between the North and the South, but instead of acting on *a speculative idea of failure, he would work according to the Constitution as long as he was in the Union, and he would hope on until there was hostile legislation*, and then he would obey the dictates of the great law of nature, and resort to the old arbiter of kings and men—the arbitrament of the sword."

Now Mr. Toombs well knows, that there will be no "hostile legislation" against the South in the event of Fremont's election; and therefore, his present position is a perfectly safe one.

The Editor of the Newburyport *Herald* in speaking of the large attendance of females at the Republican meetings, says that if the ladies could vote, Fremont would have two hundred thousand majority in Massachusetts.

The Triumph Complete.

Another perfect cure of Epilepsy by Dr. Hance's Epileptic Pills.

DURANT'S NECK, PERQUIMANS CO., N. C. Oct. 1, 1855.

DR. HANCE—Dear Sir:—Having been afflicted with falling fits for some years past, I determined to give your Pills a trial, advertisement of which I saw in some of the papers, and continued to use them for some months, until I was entirely cured. I believe them to be a first rate article; and since I have used them, I have not had one attack, and am now in the enjoyment of good health.

I am, very respectfully,
Yours, &c., JONATHAN J. JACOBS.

P. S. The Pills were recommended to me by Mr. Nathan Neehy, of this county, to whose address you sent them.

Those Pills, besides curing Epilepsy, are a specific for all modifications of nervous disease. Price $3 per box; two boxes for $5; twelve boxes for $24. Persons enclosing a Peasons enclosing a remittance will have the Pills sent them through the mail on its receipt. For sale by SETH S. HANCE, No. 108 Baltimore street, Baltimore, Md., to whom orders from all parts of the Union must be addressed.

Still Onward!

SUCCESS UNPARALLELED!!!

DRED,

A Tale of the Great Dismal Swamp.

By HARRIET BEECHER STOWE. 2 vols. 12mo. $1.75.

Certain politicians, interested in the support of the "peculiar institution," have endeavored to persuade the public that Mrs. Stowe's last work is artistically a failure, and that it has produced no profound impression on either side of the Atlantic. But the Publishers are happy to state, that of the many hundreds of American notices which they have received, the vast majority have been decidedly favorable—most of them enthusiastic. ☞ And the sale shows for itself, for it has exceeded that of any work of fiction ever published, the SEVENTEENTH THOUSAND of which, of two volumes each, being now in press.

In England, the success has been even more wonderful. The press there, with but a few exceptions, acknowledge the genius and power of the author, and in terms of high praise which any living author might be proud. And during the twelve days succeeding its publication, no fewer than

SIXTY THOUSAND COPIES

were sold. The universal voice of literary men, now places Mrs. Stowe among the

Foremost Authors of the Age,

and neither partizanship nor an austere religious bigotry can ever deprive her of the laurels she has so nobly earned.

White Deer, Oct. 15, 1856

Hickok's Patent Portable KEYSTONE CIDER & WINE MILL,

patented Nov. 20, 1855.

☞ This is not the Mill sold in 1852. It excels all mills in the market in the ease and speed with which it grinds, and in the great power of the press.

Manufactured at the Eagle Works, Harrisburg.

PLEASE TAKE PARTICULAR NOTICE!

THAT this is entirely new mill—no expense has been spared in its manufacture—all the materials are the very best, and are used unsparingly. The Cylinders are almost twice the length of the former ones, and all, including the top Cylinder, made of Iron. The screw is two inches in diameter, with a heavy ¾ V thread cut on it. The beam of the Press is CAST IRON instead of wood—is made VERY HEAVY, and the thread of the nut cut for two inches through it. The power of the Press is very much increased and cannot be broken by any fair means. The arrangement of the Tub and other parts of the Press, is very perfect. The Boxes and Hopper are all movable together; the Journals run in long bearings; and lastly the workmanship shall not be excelled by any machine of the kind whatever. Perfection being the aim, both in the arrangement and the mechanical department.

All persons who have been obliged to use the old-fashioned nut Mill, are aware how inconvenient it is, and especially those who have not large quantities of apples. By having this Mill on your plantation or farm, you can, at any time, in a few minutes make a few gallons of sweet cider for present use; or you can very expeditiously make up a few barrels. The Machine, well worked, is capable of making 6 to 12 barrels of cider a day, with ease.

The machine is made to run by horse, steam or hand power, and when the apples are ground, a small boy of fourteen years of age can press the pomace with all ease. The following may be adduced as the decided advantages of this mill.

First—It will make more Cider than any other Press, with a given quantity of apples in a given time, and with much less labor and expense.

Second—It will make cleaner and sweeter cider than any other Mill.

Third—You can make the cider as you want it, and when you want it; and in quantities from one gallon to barrels.

Fourth—With it you can press your Currants, Cherries, Berries, Cheese, Butter, Lard and Tallow.

Fifth—With its use you can at all times have fresh and sweet cider.

With all the advantages resulting from the possession and use of such a Machine—at a price so low that it is within the reach of all—can it be that any intelligent Farmer would do without it?

RECOMMENDATIONS.

JACKSONVILLE, June 17th, 1854.

W. O. HICKOK: SIR—I have one of your Improved Cider Mills; I used the Mill last October, and in that I ground fifty bushels of apples per hour. I keep the ground apples twelve hours, and I can press out two barrels of cider per hour with two men. I can recommend your improved Cider Mill to all fruit growers, for speed and a saving of labor. I can make thirty-five gallons of cider from nine and one-half bushels common apples. The cider can be pressed from the pomace without using water now. Cider will keep one year when water is not used at the press.

JOHN SNYDER.

ST. LOUIS, July 29, 1853.

MR. W. O. HICKOK:—Your Mills did here, and we have sold them and telegraphed for twelve more. As they are a much better made and better looking Mill than the other kind, we know they will sell quickly alongside of them at $50—price of the other $35.

We have six of the other kind, but, as we said before, people won't look at them alongside of yours.

Yours, Very Respectfully, WM. M. PLANT & Co.

YORKTOWN, PENN., June 16, 1853.

MR. W. O. HICKOK: DEAR SIR—It gives me great pleasure to lend my feeble influence in recommendation of your invaluable Patent Cider Mill. Any person who has made cider by the old process will quickly perceive, should they procure one of your new Mills, the utility and economy of your invention. I regard it as one of the best inventions now in use. Although I have had it but one year, it has amply repaid me for what it cost. Cider expressed through one of your machines is less liable to fermentation, and can be preserved sweet longer than that produced through the old fashioned Mill, from the very fact that it is more free from pommel, which always has a tendency to acidity, and unfits it in many instances for domestic use. Yours, respectfully, W. GURNEY.

This is to certify, that I purchased of D. Landreth, in October, 1852, one of Hickok's Patent Cider Mills, and have had it in use ever since. Perfectly satisfied with it myself. I have no hesitation in pronouncing it a very useful and indispensable Machine to the farmer. With it, one man and two boys can make from five to six barrels of good cider per day, easy. Many of my neighbors have purchased similar Machines. The Mill has been greatly improved since I bough mine. W. G. WARD.

May 11, 1854. Ridley, Delaware County, Pa.

I hereby certify that I have used W. O. Hickok's Improved Portable Cider Mill, and consider it a valuable invention in the economy of time. The cider is cleaner and better than that made in the usual way. I am well pleased with it, and should be unwilling to part with it for quite a premium on the advanced cost. JOHN S. HALE.

July 1, 1854. Portland, Ct.

☞ More than one hundred Silver Medals and Diplomas have been given to my Mill within the last four years.

☞ This Mill occupies about 2½ feet by 3 feet, and is 4 feet high, weighing 350 lbs, is every way portable and convenient. ☜ [PRICE $50.

DENTAL CARD.

THE new method of inserting artificial Teeth, Gum, &c., known as

Allen's Continuous Gum Work,

is, without exception, the best improvement ever made in the art of Dentistry. This work, when properly constructed, is the most beautiful, the cleanest, combines the greatest strength with durability, and adds more to a clear and distinct articulation, than any other kind of work ever brought before the public. And not only this—by a beautiful discovery in combination with this style of work, we can give the face its natural expression, without, in the least, interfering with the mechanism of the teeth in mastication.

I would take this method of informing those interested that I have purchased the Patent right for the valuable improvement, of the inventor, John Allen, (now of New York,) for this and several adjoining counties, and that I am now manufacturing materials of Teeth and Gums that I can warrant favorably with anything in the kind that has ever been made in this or any other country. I ask all and especially those that need teeth (if they have examined them or not,) to call, and examine for themselves.

JOHN LOCKE, Lewisburg.

Office and Residence on Third street, near Market. Office in Mifflin, on Broadway, near Caldwallader's corner

New Goods at the New Store!

FIRST ARRIVAL!

N.B. Meyers' and Vogt's Pianos sold at less than City retail prices.—Lewisburg, Nov. 14

KNOW all Men by these presents, That WILLIAM JONES and JOS. M'FADDEN of the Borough of Lewisburg, State of Pennsylvania, have this 14th day of February, 1856, purchased the entire right and title to manufacture and sell the

GREEN MOUNTAIN FEED CUTTER

patented by JAMES H. BENNET, of the State of Vermont, in the following counties, viz. Union, Snyder, Northumberland, and Montour. All persons are therefore cautioned against manufacturing or purchasing said Machine from any person or persons unless duly authorized by the said Jones & M'Fadden.

The design of this machine is for cutting Hay, Straw, or Cornstalks any length desired, and will fully compete with any machine now in use, and will surpass any ever offered
