Who met at Lancaster, 3d inst., nominated for Governor, Isaac Hazelhurst, of Philad., by acclamation; for Canal Commissioner, John F. Linderman, of Berks; for Judges, Jasper E. ☞The Nominating Convention of Union county was the first held in the State, by any party, this year. It was fully attended, and the most harmonious of any we have witnessed in the county. ### Kansas Affairs.

ST. LOUIS, May 30.—The Lecompton correspondent of the St Louis *Democrat*, states that the recent apportionments disfranchise one-half of Kansas, only twenty out of the forty counties being represented, and that in some counties where no census was taken, the representation is allowed on the list of voters by the old election books for other counties.

A letter had been written to acting Gov. Stanton asking for an election by precints. He replied that he could do nothing in the matter, there being no law to supply the omission.

A card has been published, signed by sixty-two prominent persons, urging the State Legislature to re-assemble on the 9th of June, to complete the State organization.

ST. LOUIS, June 1.—Gov. Walker, Senators Wilson, Robison, and others, spoke at Lawrence on Tuesday. He reached Lecompton on Wednesday, and read his Inaugural Address. That document reviews the action of the Free State men, and declares that the Territorial laws shall be enforced, and that the position taken shall be maintained by the whole force of the Government. The Governor pledges to use every endeavor to have the Constitution submitted to the people for their ratification.

☞A correspondent of the last *Jersey Shore Vedette*, writing from the West, says:

"The Free State party have decided not to vote at the coming election. Whether this is right or wrong I do not know, but one thing I *do* know that if they have voted, or if they do yet, there will be more blood spilled in Kansas. Just please to mark my word, Mr. Editor, *the trouble in Kansas is not half over.*"

CABBAGE.—Those who have tried, say that no crop can be more advantageously raised, for feeding to stock, than *cabbage*. 18,000 heads have been raised from two-and-a-half acres in Massachusetts. The ground should be rich and well worked. The seed should be sown in rows sufficiently wide apart to admit a cultivator between. The plants are thinned out when of proper size, and afterward kept free from weeds and worms.

The National *Era* says, with truth, that "one good Republican newspaper read for a year in a neighborhood, will produce far more fruit than a hundred dollars' worth of documents spasmodically circulated during an election contest." Here is a strong motive for Republicans to extend the circulation of their papers.

NEW ORLEANS, June 1.—General Walker left on board the steamer Woodford, this morning, for Washington, via Louisville, by the advice of Pierre Soule.

The municipal election was held here to-day. There was no opposition to the American ticket

Eight hundred and thirty-seven acts and twenty-two resolutions have been signed by the Governor, during a session of one hundred and thirty-seven days, an unpreecedented large number.

By a recent law, juries to hold inquests on the bodies of deceased persons, shall be only *six* in number.

DR. BRUNNACK in his travels on the cape of Good Hope says: I found very frequently among the Dutch Boers of the back country, *Ayer's Cherry Pectoral*, which they keep hung up by a thong around the neck of the bottle to a peg over their hammocks. Indeed this seems to be their sole protection against the throat and lung disorders which are quite prevaleht among them. I thought it a speaking comment on the practical genius of the American people, that they should furnish the staple, I believe the only remedy this people buy to use. Asking if they used the same manufacturers Pills, they told me that better purgatives grew all around them than any body could prepare.—*Homer, N. Y. Whig.*

### Hussey's American Reaper & Mower, for cutting both Grain and Grass!

*Great Improvements for 1857!*

THIS Machine was put in successful operation in 1833, and continued to be the only Reaper and Mowing Machine in the World of any pratical value up to 1845—twelve years after its introduction. Other Reapers are now offered with glowing Advertisements and Certificates of Gold and Silver Medals. But the Farmer, in search of the best Reaper, and not posted in the matter, had better see a little further. One of the other Reapers took the great medal in England, at the premature trial in 1851; before the close of the harvest of the same year, however it was totally beaten by a HUSSEY REAPER, which received the *unanimous* award of an impartial Jury of twelve English farmers. The fact is that Hussey's machine is achieving a series of triumphs in England, and rapidly obtaining that pre-eminent position there, which it has already secured in the land of its origin.

[*This cut represents the Reaper.*]

If there is any value in 23 years' experience in building Reapers, and using them in the harvest field, OBED HUSSEY, the Father of Reapers, can claim it. All who are satisfied with the BEST REAPER AND MOWER, can be supplied by sending their orders early in the season, as the crops indicate a large demand, and we can not have over 200 Reapers ready for the vast harvest of 1857.

[*This cut represents the Mower.*]

During the last four years, the subscribers have sold between **500 and 600** of these Machines, to the best and most successful Farmers in Union and the neighboring Counties, (whose names are too numerous to insert) to whom we respectfully refer.

The subscribers have the exclusive right in the following counties: Union, Snyder, Northumberland, Montour, Columbia, Luzerne, Perry, Mifflin, Centre, Clinton, and Lycoming. All orders thankfully received and promptly attended to.
