FARMERS, LOOK TO YOUR INTEREST!

WE the undersigned intend to put up a Cain Mill and Evaporator to manufacture Syrup at Ringgold, Md. We call the attention of farmers to the importance of raising the Cane, as it is believed by persons who have raised it to be the most valuable crop that can be raised. It yields from two hundred and twenty-five to two hundred and seventy-five gallons of Syrup to the acre. The Cane is best planted on hills. The seed should be sprouted before planting it. Persons wishing to get seed can get it at Charles Hiteshew's store, Ringgold; at Charles Hiteshew's store, Smithburg; at Ground & Logan's store, Leitersburg; at Geo. Stover's store, Waynesboro'; at Daniel Mentzer's Mill, at Samuel Frantz's Mill, at Geo. Besore's Mill, in the Black Corner, and at the Nunnery Mill.

A POIC FOR THE TIMES.

While war's fierce peals alarm us,
Or victory's shouts oft charm us,
The calmer notes of local news,
Of little brawls, or breaks, or stews,
Are equally engaging.

The former often shock or please,
But such emotions quickly cease,
But when jewels bright and gay,
In multitudinous array,
Our serious thoughts assuaging:—

Are placed to view at Grove's old stand,
To brighten eye, or ear, or hand,—
To decorate the lass or lad,
To beautify the calm or sad,
Oh, every heart's delighted!

With rings, and pins, and bracelets bright,
Glistening like the stars of night,
On wrist, and fingers, breast and ear,
Like seraphs fair the youth appear!
With beauty's splendors freighted.

With thimbles, lockets, mourning setts,
Box-pins, gold-chains, and setts of jet,

All of the latest styles and looks,

Improved Thrashing Machine!

Farmers will please look at the great advantage in Thrashing Grain with

GEISERS' PATENT

SELF-REGULATING GRAIN SEPARATOR,

CLEANER AND BAGGER.

At a time like the present, when labor is very scarce, it is important that farmers who are interested should give attention to the above improvement, which will considerably reduce the expense of threshing grain over the common way.

This machine has been before the public for a number of years, but not very widely circulated, although it has competed with all the best of the different patented Grain Separators, and proved a decided advantage, and now has the reputation of being the best Separator ever before the public. In order to prove this in new neighborhoods where it is not known, I am willing to forward a machine for a test to any person desiring a trial, and have its merits tested, and I wish to have it understood that I put the machine upon its own merits, and want farmers to judge for themselves. *If it does not fully meet their wants and they do not wish to purchase, I am perfectly willing to bear all expenses of shipping.*

The machine is particularly adapted to farmers for their own use, and will apply to lever or railway power, will thresh and clean; in good grain, from 100 to 150 bushels per day, using four to six horses and the same number hands, but under very favorable circumstances will thresh more per day.

It cleans the grain thoroughly clean by one opetation, which is not generally done by other Separators. Grain cleaned on this machine, with much light filthy matter, is worth one or two cents more per bushel than if cleaned in the common way. There is also a great saving of grain, in straw and chaff over the common way of thrashing and cleaning, and also over other Separators and Cleaners.

The machine is conveniently arranged for hauling and threshing, being permanently fixed on two wheels. One man can easily move or shift it about, so that it is not half the trouble in a barn floor as the common thresher and shaker. It is also easily put in operation, being simple, easily managed, reliable, durable, compact, and cleanly to work by while in operation, not making near the dust as the common machine or other Separators.

Farmers can rest assured that this machine is no humbug, and judging from the high recommendation from farmers that are using them, I must come to the conclusion that it is the very machine that farmers want and will have as soon as they have an opportunity to appreciate and attest its merits, which I hope they will give me an opportunity, as I am willing to be responsible, as already stated,

Price of Machine at Shop, (all complete, ready to attach to belt Lever or Railway Power,) $1,75 cash, $180 in three months, with interest from date.

As material for manufacturing advances, there may be a corresponding advance in the price of machines. The machine is fully represented in the above cut.

I warrant the machine to do as above represented. Orders solicited and promptly attended to.

The machine is manufactured in Pennsylvania and Maryland, at different shops.

GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR, CLEANER AND BAGGER, AND THE LATEST IMPROVED THRESHER AND TRIPPLE-GEARED HORSE POWERS, DRIVING EITHER BY GEAR OR BELT, ALL FURNISHED COMPLETE, READY TO PUT ON WAGONS.

I, the undersigned, desire to call the attention of Farmers and Threshermen of Franklin and adjoining counties to this machine. It has been before the public for a number of years, during which time it has given general satisfaction, and the patentee has made some very important improvements which render it still more complete, both for clean separating and cleaning, and also for the ease of draught and fast threshing. I take pleasure in recommending it to the public knowing that it will give the best satisfaction. I am manufacturing two sizes, viz:

The largest is eight-horse power and will thresh and clean from 200 to 500 bushels per day.

The small size. See the above which fully represents the machine, *also full description, price, &c.*, of machine. Persons wishing machines should send in their orders in reasonable time to insure their being filled.

IMPORTANT TO SUGARCANE GROWERS

AND MANUFACTURERS OF SYRUP!

I am manufacturing different sizes of Sugarcane Mills (to be driven either by water, steam or horse-power) and Evaporators and fixtures for making Syrup; also Portable and Stationary Steam Engines for driving Mills, Threshing Machines, Sawing Wood, &c.

I am fully prepared to make the above to order and on short notice; also GRIST AND SAW MILL GEARING, SHAFTING AND PULLEYS, IRON BRIDGES, CAST IRON WATER-WHEELS, IRON KETTLES, &c,

Stoves and Plow castings, also cast iron and wrought iron pipe for steam or water, and Brass castings of every description; in a word, I am prepared to do everything usually done in a foundry and machine shop. Having supplied myself with the latest improved machinery, such as Lathes, Boring, Planing and Drilling Machines, persons can rely on having their work done in the most satisfactory manner. I am also prepared to manufacture to order machinery for wood, such as *Tonging and Groving* machines for flooring, Surface, Tenout and Moulding machines, &c.

I also offer to the public a new and valuable improvement in my steam engines, made within the last year, viz: for the economizing of fuel, and the regulation of speed, which renders my new engines far superior to the old engines. All my machines are sold under warrantee. My hands are all experienced workmen in this line of business, and I use all good material, so that I am perfectly safe in warranting all my work.

I am also prepared to do repairing in workman like manner, on the shortest notice. Orders solicited and promptly attended to. All orders sent in for repairing must be accompanied with the cash.

Or DANIEL GEISER, Proprietor of Territory and solicitor of orders, Waynesboro,' Franklin Co. Pa.
