WORDEN & CORNELIUS.

Lewisburg, Pa.

FRIDAY MORNING, JAN. 8, 1858.

A DVENTISE!—Manufacturers, Merchants, Mechanics, Farmers, Professions in city and country, Publishers, all who wish to buy or sell anything, should advertise in the Chronicle. Large or small articles, to be found in a community containing more property of a kind, or more productive consumers and dealers, any in the State.

☞ See New Advertisements.

☞ FARMS, Woodlands, Lots, Dwellings, &c.—quite a variety—are to be found advertised under the REAL ESTATE head in to-day's *Chronicle*.

☞ See Adv't of LAWRENCE, No. 105 Commerce St. Philadelphia. Unsolicited advertisements of this nature, show not only a dealer anxious to establish himself in a safe business, but also a revival of confidence, and a desire to put capital into active service again. Remember the name and No., and make him a call.

An Exchange.

Messrs. HEINER and WAGNER have exchanged their business stands in this Borough—each only removing "just around the corner," and each ready to serve the public with anything in his line.

☞ Notwithstanding the "hard times," our hymenial records show numerous desperate enterprises of that nature entered into. One reason we have seen argued, is, that in these days there is nothing else for some young folks to do: and when business revives, they will have no time to attend to matrimony!

☞ OUR CARRIER made a good start—$10—on the 1st inst., considering the short time he has served, and the "stringency of the money market." He has a few copies of his address left at this Office, which he will dispose of with a "thank you" to any customers who were overlooked, or who desire another.

☞ John Alexander, of Kelly Tp. Union Co., recently killed three hogs, weighing as follows:

1 of 16 months old weighing		588
1 " "	"	428
1 sow	"	534—1500

an *average* of 550 lbs. Union ahead yet.

☞ Messrs. James Chamberlin and Alfred Hayes, of the Law School, Harvard University (Cambridge Mass.,) have sent us a Catalogue of that famous focus of learning, for the present year. It embraces 96 pages, and enumerates 52 persons in the Offices of Government and Instruction—325 in the Law, Medical, Scientific and Divinity Schools—and 409 Undergraduates.....about 800 in all connected with the oldest University on the Continent.

☞ Benj R. Hall, a practical printer and editor of some experience, has issued a Prospectus for a new Democratic and Local paper—the *Bellefonte Patriot*. If there be any *sub rosa* design this is intended to serve, and particular individuals will sustain it, well; but, Br. Typo, if you intend to make the mare go by the mere merits of a superfluous country paper, we fear you have chosen a wrong time and place. Four papers in Centre county is one too many to win fame or fortune—five will be two to many. Mr. Hall proposes to publish at $1 50—invariably in advance; to appear by the 4th of March next.

☞ The *Juniata Register* has been brought out in an entirely fresh and very handsome dress, by the new proprietors, Greer & Allison. From an ultra hatred of Irish and a holy love of Sam, A. J. Greer leaps at a bound into an orthodox brother of Pat, and a co-worker with Molly Maguire! (What a fall was there, my countrymen!" The worst we wish him is that he will keep his new party in as hot water as he did the old one!

☞ *The Millenium* commences its 43d year by discarding the superfluous word "weekly" and bringing out its plain familiar head. An old and reliable family paper: long may it flourish!

HEALTH.—There were fewer deaths according to the official reports, in Baltimore, in 1857, than 1856. The same good state of public health is generally noted, throughout the Union.

☞ Religious meetings have been held every evening for some time past, in the Methodist, Lutheran and Christian Chapels, Lewisburg.

☞ The members of Held's String Band presented their leader, Prof. P. HELD, a handsome and valuable shawl, on New Year's day.

☞ The question now is, which is the strongest party in Pa—the straight-out "Hickshakers" or the straight-out Buchanan Buchanan?

☞ Five persons were baptized in the Susquehanna, at Lewisburg, by Eld Lane, on Sunday last.

THE LATEST FASHION.—The lady promenaders in the Avenue were somewhat horrified at the appearance of a distinguished foreigner, who held up her dress so as to display an undoubted scarlet flannel under skirt. What an idea! Yet these same peasant petticoats are now all the rage across the water. Queen Victoria brought them to London from her Balmoral palace in the Highlands of Scotland, about two years ago, and this year they have been adopted by the Empress Eugenie. Of course, they are a *la mode*, those of alternate narrow strips of red and black flannel being more *distingue* than the plain scarlet. Silks and satins are to be no longer trailed in the mud, and the ladies who wish to be a *la mode* should not only provide themselves at once, but practice gathering up their dresses in graceful folds, so as to display about a foot of the bright colored under skirt.—*New York Express.*

Democracy in luck. Mr. Joshua R. Giddings is said to be well again, but unable to participate in debate. That's lucky.—*Post.*

It's lucky for the Democrats, for nothing puts them in greater distress than the merited castigations which they receive from the dauntless old champion of the Western Reserve, when he is able to administer them. The joy of the Post reminds us of the boy who said he was "durned glad his dad had got the rheumatism, 'cause now the old man could n't lick him."—*Ibe.*

We are indebted to D. B. Robb, Esq., member of Nebraska Territorial Legislature, formerly of this place, for a copy of the message of Governor Cuming. We are gratified to know that our young friend enjoys the confidence of his fellow citizens of Nebraska to such an extent, as to be honored with a seat in the Territorial Legislature, as well as to learn from the Message of Gov. Cuming, that peace, good order, and prosperity, reign in the Territory.—*Money Luminary.*

PACIFIC WAGON ROAD.—Lieut. Beale, in charge of the expedition to establish a wagon road from Fort Defiance to the Colorado river, has announced to the War Department his arrival in California, and the establishment of a fine road over the whole distance. WHAT ADVERTISING HAS DONE.—Since Charles Nash, jr., commenced advertising in the *Gazette*, on an extensive scale, on the 9th of September last, he has sold upwards of *twenty four tons* of sugar, and an almost incredible quantity of flour and every other article embraced in the stock of an extensive grocery and provision store. The quantity of sugar sold is more extraordinary when it is taken into consideration that during the month of November his supply of that article was so short as to fall far below the demand. We mention these facts to show what can be done in business when the proper plan is pursued. Within the past ten days his entire stock of goods has been renewed, on an extensive plan; his advertising contract has been renewed; and his business has been gaining even on what it was before.—*Williamsport Gazette.*

SHOCKING MURDER.—Josiah Freeman, residing in Sussex county, Va., had threatened to kill his wife, who, however, determined to anticipate him. HOLLOWAY'S PILLS AND OINTMENT.—Mortification may always be prevented, by the timely use of Holloway's ointment, and he hopes has never been known to operate in any case of external injury where it was used as a dressing. Its healing properties are proverbial in all parts of the world, and it is used in all the great surgical institutions of Continental Europe, as the only reliable and unfailing specific for wounds, ulcers, dropsical swellings, cancer, tumors, and eruptive diseases. The pills are prescribed by eminent medical practitioners as the most effectual remedy for indigestion, liver complaint and disorders of the bowels.

☞ We can not refrain from calling the attention of our readers to an advertisement in the day's paper of the "Hair Restorative" of Prof. O. J. Wood & Co. It will be seen that he has numerous certificates, from persons of the highest character, to the results of his Restorative. From positive knowledge, we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy locks; and when the latter has been prematurely thin, with gray, we have seen it the same to restore the colored youth and health. The distinguished property of this, we might truly say, miraculous Restorative, is that it gives to the person who uses it, the same head of Hair that they were in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—Covington (Ky.) People's Friend.

VALE'S GALVANIC OIL acts on the system by imparting to the diseased part a natural current of electricity, by which the restoration of all the natural functions are produced immediately and a cure at once obtained. These Pills possess a specific action on the nervous system, and, although they are prepared especially for the purpose of curing Fits, they are also of especial benefit for all persons afflicted with weak nerves, or whose nervous system has been prostrated or shattered from any cause whatever. In Chronic Complaints or diseases of long standing superinduced by nervousness, they are exceedingly beneficial.

☞ We wish to say to every person who reads this, that there is an article known as Dr. SANFORD'S INVIGORATOR, or Liver Remedy, which can be relied on as certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia, and numerous other complaints, described in another column, besides which it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system, caused by the improper action of the liver, reduces the powers of the lungs to resist or throw off diseases caused by cold and because the liver has incapacitated them from performing their proper function of throwing off diseased matter caused by cold, thus, to prevent consumption, cure the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy, or cure for debilitated system, than Dr. Sanford's Invigorator, for it has been fully tried in a large and extended practice till it results are fully known, and now it is offered as a tried remedy, and one that can be relied on.
