Dock the Young Lambs

Long-tailed lambs brand the sheepman as careless in his methods of handling his flocks. Our good shepherds dock the young generation of wool and mutton producers early in life so they will not have to carry around a useless and unnecessary piece of anatomy. They also castrate the ram lambs in the mutton flock.

Feed Cattle Regularly

Roll call at the stockyards will soon sound for many steers now on feed. As other farming operations begin to press for time, do not fail to be regular and thorough in feeding and caring for the fattening cattle. Comfortable quarters and ample bedding during the rainy season will mean many dollars in the stockman's pocketbook.

Prune the Peach Trees

As soon as severe cold weather is over the peach trees should be pruned. As a rule young peach trees receive too severe pruning while the old trees are not pruned severely enough. Use no wound dressing on peach tree cuts.

Free Forestry Bulletins

The Pennsylvania Department of Forests and Waters at Harrisburg has the following two interesting bulletins available for free distribution to farmers and other interested parties: Bulletin 37, The State Forests of Pennsylvania; and Bulletin 42, Making Farm Woodlands Pay.

Grow Variety of Vegetables

Have the home garden large enough to produce a 12-month supply of a great variety of vegetables. It should be conveniently located in relation to the farm home. A rectangular shape measuring at least 100 feet in length make it convenient for cultivating.

Keep Beef Matrons Fit

Beef cows which will have calves to raise this spring should go through the winter in a thrifty condition. They should maintain fair flesh and get ample exercise. If these conditions prevail there will be little cause for anxiety about loss.

Consistent advertising always pays.

Plan Changes Now

If any changes are contemplated in the garden or anywhere else about the grounds it is high time to plan for these now. If it is put off much longer the chances are that it will not be done this year.

Prune Hardy Vines

Go over the hardy vines now. All except the wistaria can be pruned at this time. Do not allow the vines to become too thick. Also be sure that they are properly fastened to supports.

Use the Sunshine

Milk utensils will be much sweeter and cleaner if they are placed in the sunlight after being washed.

Plant Quality Vegetables

Only varieties of quality and the best strains of these varieties should be planted in the home garden.

A bill pending in the New Hampshire legislature would require one of each twenty-five beds in hotels to be seven feet in length.

After a mounted policeman was run down by an automobile in England, a law was passed requiring night riders to equip their mounts with tail lights fixed to the harness.

More than one-third the nation's population spent their vacations touring in 1926, expending some $3,000,000,000 on camping, hotels, gasoline and other expenses.

When the Dutch settled on Manhatten they liked the crabs that were edible and were blue and white in color. The British like the crab because it turns red when boiled.

In Denver, Colorado, when a thief was brought before the judge, he was wearing the teeth and shoes of the victim.

Keep Fit!

Good Health Requires Good Elimination

TO be well, you must keep the blood stream free from impurities. If the kidneys lag, allowing body poisons to accumulate, a toxic condition is created. One is apt to feel dull, languid, tired and achy. A nagging backache is sometimes a symptom, with drowsy headaches and dizzy spells. That the kidneys are not functioning properly is often shown by burning or scanty passage of secretions. If you have reason to suspect improper kidney functioning, try *Doan's Pills*—a tested stimulant diuretic. Users praise them throughout the United States. *Ask your neighbor!*
