ADVERTISE.—Manufacturers, Merchants, Mechanics, Professionals, in Town and Country, Publishers—all who wish to make a profitable investment of a small portion of the Tuesday Chronicle which has a large circulation in a community remarkable for the large proportion of active, without the idle, consumers and readers, as any in the state.

See New Advertisements.

We have sent out a number of Prospectuses, and will name a few of those—in every section of the country—who we know are getting up clubs, so that they who desire to take with them, may know where to apply:

J. B. Hartman, West Milton.
Andrew Kerns, White Deer Mills.
J. Dreisbach, Jr., White Deer Mills.
Levi Hartman, Buffaloe X Roads.
Wm. Swineford, Farmersville.
John Bucher, Millmont.
J. J. Mosser, Hartleton.
John Gutshall, New Berlin.
J. M. Weiser, Winfield.
Geo. M. Fetrow, Union Furnace.

There may be others, whose names do not occur to us at this moment, or who we are not aware that they are engaged in the work. ANY ONE who chooses, and whose subscribers confide in him, can obtain copies, and the terms and the proper will be sent to any of the persons named above, if they may join in getting up a club. All made thus will be in time to accompany the beginning of the volume.

Nothing important from Congress.

The *Tribune Almanac* is for sale at Murray's Bookstore, Lewisburg.

The Auditors of Union county closed their labors last week, after a session of three days.

We learn that Prof James reported the thermometer at 10° below zero, Monday morning of this week.

Next week, we shall copy the Address of A. Swineford, Esq., before the Teachers' Institute at Harrisburg, by request of the Institute.

Important County Matters, &c., have crowded our inner form to day....We have a few hours in advance of our usual time, to accommodate us in getting off a pressing job.

We learn by the Argus that Jared Katherman, formerly of Hartley, in this county, has been accidentally killed, in Marathon county, Wisconsin, by the falling of a tree. He died instantly. His brother, from Harrisburg, has gone on to look after his remains and his property.

We are indebted to Enoch Strunk for a Lithographic view of the Novelty Car Manufacturing Company's works, in Lancaster Co Pa. The works were recently purchased by Marcus Bierman of Lewisburg, for about $15,000, and are now carried on by them.

The *Milleniun* commenced with 1859 its forty third volume on Friday, and made its appearance with its usual matter printed on new type. We wish the proprietors, Messrs. Fredd & Funk, abundant success.....The *Dynamic Independence*, and the *Boston Ploughman Journal*, also sport next new "heads."

TARIFF PROSPECTS.—A Washington correspondent writes his impression about tariff measures "that such a modification of the present tariff will be proposed, which the consent of the Administration, as will produce a sufficient revenue to provide for the expenditures of the Government. It is probable the duty on iron will be raised from 24 per cent (the present duty,) to 30 per cent. But this will not be easily effected unless the duty on all cotton and woollen fabrics be proportionally raised. In the desire to help Pennsylvania and New Jersey, New England must not be forgotten.

ATTEMPTED SUICIDE.—The wife of Morrissey, the prize fighter, has made two attempts to commit suicide by taking laudanum within the past few days. Both were happily frustrated by the timely arrival of a physician and a stomach pump, by which the poison was expelled before it had produced fatal consequence. The cause for the rash attempts at self destruction has not transpired.

The *Jersey Shore Republican* complains of the husbands of that place. It says: "We have scores of husbands in Jersey Shore, who are too lazy to cut enough wood to cook their own grub, and are ungallant enough and loggish enough to make wood choppers of their wives." *Dreadful!*

Sound Doctrine.

In a recent veto of a bill passed at the last session of the Legislature, to create an independent school district, Gov. Packer says, with great force and propriety:

"I do not believe that good can come from special school laws. The present general law has been carefully matured, and seems to be well adapted to advance the interests and promote the prosperity of the great cause of universal education; and should therefore be adhered to, until time and experience prove that no change would be to improve it. But whenever and wherever changes may be thought advisable, let the amendment be by general and not special laws."

Kansas War, Renewed.

We publish to day some very interesting letters from our correspondent at the seat of war in Kansas. These letters give the full particulars of the recent renewal of the civil war in that quarter, brought to a termination some months ago by a compromise to which Gov. Denver was a party. The basis of that compromise was that by-gones should be by-gones. The past was to be forgotten, and Free State men and Slave State men were henceforth to live together in peace. This compromise has recently been violated by the Pro-Slavery squad, whose headquarters are at Fort Scott. Relying upon support from the neighboring counties in Missouri, and having most of the local offices in their hands, they lately packed a Grand Jury and got up indictments for murder against Montgomery and others. Montgomery met this violation of the compromise by taking possession of the Court House and carrying off the indictments. This, however, did not present the Fort Scott mischief makers from arresting one Rice, whom they enticed to surrender himself to false pretenses, and hold him a prisoner on the charge of murder. At two public meetings, called by the Pro Slavery men of the county, it was agreed to uphold the Denver compromise, and, in accordance with it, the Fort Scott people were called upon to release Rice. This they refused to do, and when all other means had failed, Montgomery entered the town and released the prisoner by force. The towns people were taken entirely by surprise, and no resistance was made, except from two shots, whether shots were fired on Montgomery's men. In returning these shots, one Lytle, who had made himself not a little in the past difficulties, was killed. One of the stores whence the shots were fired, was sacked and emptied of its contents, in accordance with a threat of Montgomery so to treat every house whence any resistance came.

This occurrence produced a great excitement and threats of invasion from Missouri. But Capt. Brown, who had cooperated with Montgomery, and whose property had been destroyed and his son murdered, in the former wars, did not wait for invasion. He led a party into Bates county, Missouri, who retorted on the slaveholders of that vicinity the same system of plunder by which the Free State people of Kansas had suffered during the Missouri invasion. It would seem that Brown's men made good their retreat, carrying away, among other property, several negro slaves. One of the Missourians who resisted was killed.

So long as the robbing and killing were confined to Kansas, the Federal authorities looked on with the greatest composure. Now it has passed the border into Missouri, it is to be hoped they will bestir themselves. The invasion of Missouri, lamentable and criminal as it was, was however a much less brutal affair than the last invasion of Kansas, from Missouri, last May, resulting, as it did, in the murder of some eight unoffending citizens of Kansas—shot down in cold blood, and out of pure malice. Should this foray of Brown occasion a decided and prompt interference on the part of the Federal Government to put a stop to the outrages, on both sides, of which Southern Kansas has been the scene, so far, at least, the result will be good. We much fear, however, that it will be made the occasion for the arrest and prosecution of many innocent parties, and the pretext for a new attempt—in which the Federal Government will take the lead—to drive the Free State settlers out of Southern Kansas.—*N. Y. Tribune.*

Samuel Witman, of Douglas township, Berks county, sowed last spring *thirteen* bushels of oats, from which he has realized *five hundred and forty five bushels.*

By railway accidents in the United States in 1858, there were killed 103 persons, and injured 229.

CLOSE OF THE SHOOTING SEASON.—According to the law passed at the last session of the Legislature, for the preservation of game, the season for shooting, trapping, or destroying in any other way, pheasants, partridges, woodcock, or rabbits, closed on Saturday, 1st. Any person who is found violating any of its provisions, is liable to pay a fine of five dollars for each and every offence. Provision is also made for those offering game for sale out of season. Any person offering a pheasant, partridge, or rabbit for sale between the first day of January and first day of October, in each year, is liable to pay a fine of five dollars.

The East Baltimore Annual Conference of the M. E. Church will hold its next session in Williamsport, on the 2d of March, 1859. Bishop Scott, is expected to preside.

JOHN M. READ has taken his seat in the Supreme Court and that "good looking young man," Wm. A. Porter, is practising before him.

Donation Visit.—The members under the pastoral care of Rev. R A FINK, and his friends generally, are respectfully informed that Saturday the 15th Jan. 1859 is appointed for making him a friendly visit, and leaving him such tokens of esteem as each one may deem suitable and desirable. All friendly to the object, are cordially invited to participate. Those coming from a distance will be waited upon by a committee.

Sick Headache can be cured by the use of DR VALL'S GALVANIC OIL in from five to twenty minutes. Sore breasts and sore nipples are cured speedily by the use of this article, and it will remove all sore and pain in a few minutes.

THE OXYGENATED BITTERS, aside from being the best remedy which medical science and research could have discovered for the cure of Dyspepsia, is an *invaluable* cure for scurvy. No vessel should go to sea, without a supply of this boon to the sea-faring man.

HOLLOWAY'S OINTMENT AND PILLS.—We learn that on the southern plantations, as well as in the new settlements of the West, Holloway's balsamic ointment is relied upon as a sovereign remedy for the bruises, cuts, sprains, and other casualties, of which the majority are sustained in farming operations. It is also indorsed by our agricultural population as an immediate cure for rheumatic swellings, chills, ulcers, sore leg, and all the diseases of the skin, pimples, and tetters to which exposure to the elements, accident, and an undue proportion of salt food, render the farmer/slave especially liable. The Pills have been approved by many as an adjunct of the Ointment, and as a remedy for all internal ailments.

MODERN INVENTIONS.

We know of no invention of modern times that deserves or is destined to occupy a higher niche in the temple of fame, than the discovery or invention of the Vegetable Epileptic Pills for curing Epilepsy, or Falling Fits, Spasms, Cramps, and all the various modifications of Nervous Disease. DR. SETH S. HANKS, of 108 Baltimore street, Baltimore, Md., the inventor, is certainly entitled to the best wishes of all the friends of humanity, who derive pleasure from the alleviation of human suffering. When Dr. Hanks first prepared these Pills, he intended them solely for Fits, Cramps and Spasms; but subsequent experience satisfactorily proved to him, that in addition to their remarkable sedative properties in this class of diseases, they exerted a perfect control over the entire nervous system. He was then induced to try them in cases of Neuralgia, Tic-Douloureux, Nervous Headache, Palpitation of the Heart, Incipient Paralysis, Hysteria, Muscular Debility, and a host of minor diseases, springing from a lack of nervous energy, in all of which his anticipations were crowned with the most sanguine success. Persons at a distance, by writing and sending a remittance to Dr. Hanks, can have the medicine forwarded by mail to their post office address, he paying the postage. The price is $1, for two boxes, $5, for twelve boxes, $10 dollars per dozen. We have given his address above.

It is a most undoubted fact that Dr. Stevens's Invigorator, or Liver Remedy, is one of the greatest discoveries made in medicine the past century. It has been a study of the Dr. during twenty years' practice, to find what particular organ, when diseased, caused the great majority of ills our race suffer and has concluded that the liver is the greatest regulator of the system, and the most liable to disease; which if kept free from disease, is a preventative of Dyspepsia, Jaundice, general debility, &c., while, last but far from least, we mention consumption; for our experience is that more cases of consumption occur from diseased liver than from all other causes put together.

Taking this to be a correct hypothesis, we have but to find a remedy with which to correct the liver, and we have a cure of nearly all the diseases we are subject to by simply using a preventative. That the Invigorator is such a remedy, is beyond doubt to all who try it, for its virtues are such that for all complaints arising from liver derangements, it is an unfailing remedy, while as a family medicine, for all diseases of the stomach or bowels, which are caused in a greater or less degree by liver derangement, it is the safest, surest and most efficacious remedy known.

ABBEVILLE, S. C., Aug. 21, 1858.

Messrs FARREL, HERRING & CO., Philadelphia.

Gentlemen—The close attention which our own affairs have required since the fire, has hitherto prevented me from writing you about the safe.

On account of the fire little fully, by which we suffered a large loss, our store, with a number of other buildings, was consumed. The safe, of your manufacture, which we had in the store, was exposed to a most intense heat, as is well attested by the effects on its strong iron frame which, from its dulled and scaly appearance, looks as though it had been heated for a long time in a furnace. The safe, with heaps of molten glass and heps of nails, screws, &c., fell into the cellar, surrounded by burning materials, and there was suffered to remain (as the contents had been removed before the fire reach ed us) until the 21st of August, 14 days afterwards.

The difficulty in cutting it open with the best tools that could be procured, convinced us of its power to resist the attempts of burglars, and when it was opened we found the interior, to the astonishment of all, entirely uninjured by fire.

This test has so fully convinced us of the capabilities of your safes, that we would not part with the one we have in use for a large sum, were we debarred the privilege of getting another. Respectfully yours,

Jan 18 S. H. WARELAW & SON.

THE OXYGENATED BITTERS.

For the cure of Dyspepsia or Indigestion, *Liver Complaint, Dizziness, Costiveness, Loss of Appetite, Fever and Ague, Heart Burn, Water Brash, Acidity, Sick Stomach, Scurvy, Scurvy, Headache, Bowels, and General Debility,* or any disease arising from a disordered stomach, or a languid sluggish system.

These Bitters are used by a great many of our fellow citizens, including Members of Congress, Lawyers, Physicians, Clergymen, Planters, Farmers, and others, testify, are the only safe, certain and sovereign remedy for the complaints which is now in use, and is a most great and valuable remedy.

These Bitters were discovered by George B. Green, and in their formula differ entirely from that of any other preparation of medicine. Containing no alcohol—no mineral—no poison—no noxious drug—in their nature tonic, but stimulating—restoring their virtues in any climate, they are a valuable and a free indorser of Medicine which known to cure in exterminating disease and restoring the system to its pristine vigor and health. No matter of how long standing, or however inveterate or obstinate the character the disease may be—no matter that it has baffled the skill of the physician, and resisted the efforts of Medicine, a single trial of these Bitters will satisfy the sufferer that his disease is curable in the proper remedy.

In testimony of the many cures effected by this Remedy, we refer to the written certificates from the highest respectable quarters known all over the land.

[An Obdurate and Intractable Case of Dyspepsia Cured by the Bitters.]

The following from a gentleman well known in the region in which he lives ought to satisfy all those of like the ills:

WORMSLEYS, N. Y., July 26, 1858.

S. W. Fowle & Co., Boston—Dear Sirs—Some years since I was attacked by that curse of all Diseases, *Dyspepsia*, which so afflicted me as to make great inroads in my flesh, and leaving of the tissue immediately after eating, accompanied with heartburn, sick at the stomach, blind eyes, sing noises, vomiting, acidity, and headache, to gether with general debility and suffering altogether making life a burthen.

After having tried every known remedy without effect, and despairing of ever recovering my lost health, I was induced to try your Oxygenated Bitters, the good effects of which were immediately felt on my health and vigor. By persuasion of a friend I tried a bottle, and before I was entirely cured, and I feel a pleasure in informing all like sufferers as myself to make use of this remarkable remedy.
