Every honest man must earn his bread by the sweat of his brow. From the way J. B. M. Todd and his accommodating clerk, S. Y. Shelley, were put through last Saturday, we think they did.

On Friday a week, about 10 o'clock A. M. the residence of Mr. John Kenagy, of Turbett township, was entered while the family was out, and one hundred and fifty dollars in money and numerous useful and valuable articles used in the house stolen away.

There is a charter in existence for the construction of a railroad through Tuscarora Valley, that does not expire within two years, under the provisions of which a Company was organized. No work, however, as yet, has been undertaken. Dr. J. P. Sterrett is president of the organization.

Mr. Jacob Sulouff speared a number of peculiar fish last Monday night, in the river, in the vicinity of "Cotter's hole." The ones he secured were about 8 inches long and 5½ inches in depth from back to belly, at the deepest point, and about 2½ inches thick. The color of the scales was a silvery white, excepting along the back, where they were dark. The mouth is small—sucker mouth like and on the under side. Were they Carp?

Last Thursday morning about 2 o'clock, a fire broke out in the store room of Wm. Okeson, in Port Royal. Mr. Stewart Okeson slept above the store room, and was awakened by smoke. He escaped by leaping from a second story window. Other parties saw the fire about the same time and the alarm was given. Citizens came to the rescue. The building was saved, but the store goods are reported greatly damaged, burned and smoked.

ADJOURNED INSTITUTES will be held at the following times and places:

At Richfield, beginning on Friday evening, November 13th, and continuing on Saturday following.

At McCoysville, beginning on Friday evening, November 27th, and continuing next day.

A YOUNG Frenchman of Mt. Union, who for some time has been working with Alfred Simons, was in Newton Hamilton on last Sunday, full of bad beer. He stopped at the house of a woman known as "Irish Anna," who keeps a candy store, and demanded some cider, which was refused, when he drew a revolver, and pointing it at her head fired. The woman threw up her hand, and the ball passed through it. The wound is not a fatal one, but painful. On Monday morning a warrant was issued by Justice McIntyre of this place, but we have not heard what further has been done.—*Mount Union Times, 29th ult.*

A Song for the People.

Come from the South, North, East and West
And visit my Clothing Store;
You will pronounce my stock the best
E'er shown in the whole county before.

Now is the time to take a call,
When everything is cheap and new;
No suits on Jericho's proud wall
Looked half so pleasing to the view.

I am the man who sells to please,
Clothing as neat as you can see;
My suits are made to fit with ease
The most fastidious to a "T."

I have on hand a large supply,
For men and boys of every age,
And merely hint to passers-by
To give my Store their patronage.

Prices low to suit the times.

Neighboring News.

MIFFLIN COUNTY, AS PER LEWISTOWN PAPERS.

B. D., son of D. F. Milliken, shot a doe last week on the Butler mountain which weighed 120 pounds.

A raddish raised by John Shaw, of Reedsville, weighs 10 pounds and is two feet in circumference.

A Fair Association was organized last Thursday evening.

A son of John Fisher was playing about a windmill in the barn of Wm. Howe, on Thursday last, when he accidentally ran his little finger between the cog wheels, taking it off square at the first joint. Not much scared, the boy marched home to exhibit his injury.

The Glamorgan Furnace Company have stopped all their mining operations, and, report says, the furnace now in blast is to be blown out. At Logan Iron Works things are also dragging heavily, most of the works being in operation only half the time.

The Milroy Tannery has stopped operations for the present, the prices now ruling not warranting the manufacture of leather.

Two beets have been lifted from the ground on the farm of James Wharton, Esq., in Wayne township, cultivated by B. C. Wharton, the largest of which measured 15 inches in length and 24½ inches in circumference, weighing nine pounds. The other was 19 inches long and 18½ inches in circumference, weighing 7¾ pounds.

Rev Mr Tucker is the queerest sort of a minister, to refuse $10,000 a year and a New York church, just to remain in a New Hampshire town to preach to the "operatives" and common sort of people at a salary of $2500. One is inclined to believe that all he cares for is to preach the Gospel and help men in their battle against sin.—*Exchange.*

"Rev. Mr. Tucker" has his counterpart just now in Lewistown. We have a clergyman here who left a $2500 salary in a city for a $1000 salary, just because he wanted to go where he could "do the most good." And he is doing it.

BLAIR COUNTY ITEMS, AS PER ALTOONA TRIBUNE.

We are requested by Water Superintendent Baer to say that a water famine in this city is threatened. The streams from which our supply of the fluid is obtained are not known to have been so low for fifty years, some of them having absolutely run dry.

One of those unfortunate occurrences that happen so often during the hunting season, took place near the camp of a party composed of Dolph Laporte, of Spruce Creek, Good Merrill, and Dick Swartz, of Kylertown, John Douglas, of Morrisdale, and Hobart Allport, of Clearfield, a few miles from Kylertown, on Thursday. The information about the affair is vague and uncertain, but it appears that Laporte, seeing Douglas' head above a clump of bushes, mistook him for a wild cat and fired his rifle at him, the ball taking effect in his right temple and passing out at his left. At last accounts the young man was yet alive.

In quarrying for stone in Altoona, the entrance to a natural cave was discovered. It was explored, and found to be five feet high, five feet wide, and twenty feet in length. The cave is fifteen feet below ground. All this distance has been excavated through solid rock, and is the result of years of arduous toil. The opening up of the cave is alone an event worthy of special mention. Something that resembles a brass sword, corroded with the rusts of untold centuries, was found occupying a niche in one of its chambers. The cave must necessarily at some former period have been inhabited. By whom, and when? and where is the opening that leads from the outer world to the interior of this subterranean edifice? These are questions which now engross the attention of our thinking men. The ground has been thoroughly surveyed in every direction, but no possible mode of ingress can be found.

Yesterday morning, the 6th inst., the body of an unknown man, supposed to be a Swede, was found near the canal bridge east of Rockville. It was taken to Harrisburg, and given in charge of the coroner. It is supposed the deceased had fallen off the Cincinnati express east. His head was badly crushed. He had on his person a considerable quantity of money, a through ticket from Chicago to New York and a check for baggage.

A party of three burglars made an attempt to rob the house of Mr. T. B. Heims, Tyrone, a few nights ago. They succeeded in gaining an entrance into the house, and when first discovered one of them was at the bed room door of Mr. Heims, another in one of the lower rooms, and the third outside the house. The rattling of the lock, caused by the scoundrel trying to open the door, wakened Mr. H., who frightened them away. When in the street, making away from the house, Mr. H. shot after them, but without effort to hit them. They did not carry away any booty. The same night they prowled about the premises of Mr. S. M. Autts, and enticed his big dog away, but Mr. A. recovered the animal in this city shortly afterward. If this sort of work continues much longer, a vigilance committee ought to be formed to rid the county of suspicious characters.

HUNTINGDON COUNTY, AS PER HUNTINGDON PAPERS.

An Orbisonia youth has a novel way of obtaining kisses from his girl. He asserts, on the authority of science, that the concussion produced by a kiss will cause the light to flicker, and easily induces the damsel to experiment in the interest of science. He asserts that the first kiss or two they watch the flame to see it flicker, but soon become so interested in the experiment as to let it flicker if it wants to.

A villain made an unsuccessful attempt to outrage a respectable married lady in this place, on Thursday last. The police are looking for him.

Mr. Frank Hefright, of this borough, lost a valuable horse on Wednesday night last. This is the third horse that has died for him this year.

Green corn killed a valuable horse for Mr. Rogers, of Mt. Union.

Our printers think a campaign an everlasting nuisance. We are not surprised at it. If the average lawyer had half the worry and bother he would make a fortune or "bust" somebody's exchequer.

On Monday afternoon of last week a tramp named Peter Hugh, an Italian, was struck by the mail train going east, at the narrows, a short distance from Mt. Union. He died of his injuries two days after.

Ayer's Hair Vigor

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will present the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.
