Letter from Iowa.

DES MOINES, IOWA, May 17, 1877.

Editor Sentinel and Republican:—Dear Sir—Thinking that a letter from this vicinity would be of interest to some of your readers, I take the liberty of addressing you. I have been in this place four days, and have gained a little information of the city.

DES MOINES

is about the size of Lancaster—not any larger—but, I think, better built in its business portions, and therefore presents quite a city-like appearance. All kinds of business is represented, and overdone to a great extent. Business is very dull, and people are doing their full share of growling and fault finding. This is no place for the laboring man; there are hundreds out of employment now, and it is expected there will be many more. But still they come from the east and are now going to the Black Hills in great numbers. At one town there were at least five hundred waiting for transportation, and others coming on every train. I have heard it estimated that as high as one hundred thousand people would be there before August, 1877. If such is the case, seventy-five per cent. will not have money enough to get home with. Denver has sent about fifteen hundred of her inhabitants to the Hills.

The soil here is a black loam, being in places seven or eight feet deep, and very productive. Corn is the staple crop. I have seen but one field of wheat since I came into the State, and that was not looking well. The best wheat I saw was in Mifflin and Juniata counties, Penna.

GRASSHOPPERS.

There is some fear of the grasshoppers being bad here. I was told by a gentleman that when he plowed a piece of ground it looked as though it had been sown with rice—it was so full of eggs. A gentleman from Colorado says: "The grasshoppers are worse now than ever before. Millions are hatched out on the plains, and are about the size of a common house fly. The farmers here think they will, however, be able to raise a crop this year, by killing the grass-hoppers. They propose to do it in this manner: Heretofore they have floated them off by driving them into the irrigating ditches, but this did not kill them. They now propose to put coal oil or tar into the ditches, and then drive them in and fire it. This method has proved successful in two or three instances." If the 'hoppers destroy the grazing and crops this year, the State will suffer terribly.

SCHOOLS.

The school houses of Iowa have exerted a potent influence in determining the character and reputation of her people. They are a prominent, visible indication of their love of intelligence and culture. Their rapid multiplication and rapid improvement have not only marked the accumulation of wealth which has made the necessarily large outlay for the purpose possible, but have also marked the liberality of her people, in contributing so largely of their early earnings for public good and for the benefit of those who are to follow them.

THE NEW CAPITOL,

now being built here, will be an improvement to the city beyond estimate, though it bears no direct relation to it. It will be an attractive feature, being one of the largest and most magnificent buildings of the west. During the last year the expenditure for work on it has been $275,000. There are now about two hundred hands employed on it.

THE DES MOINES MARKET.

The prices of all kinds of breadstuff are still going up, and, high as they are this week above last quotations, they are still very strong. Wheat, steady at $1.68½ cash; June corn, but little offered and prices a little higher, at 40c, white 45c; oats steady at 25to30c; rye dull at 40to45c, none offered; eggs firm demand at wholesale 7a8c; butter rather scarce at 15a17c; potatoes continue firm at 80cto$1.00; apples steady at 80cto$1.25; hay steady, prairie $4.50to6.00, timothy $4.50to6.50.

There are quite a number of settlers here from Pennsylvania, Mr. Witmer occupying a very prominent position in the ranks.

Now, Mr. Editor, I will close, lest I intrude on your time and space.

Respectfully yours,

S. E. S.

THE Lancaster *Examiner* says: The Freshman class of Franklin and Marshall College has been suspended indefinitely for absence from recitation on Whit-Monday. The class is holding under consideration the advisability of presenting to the Faculty of the College a petition in order to bring about a reconciliation. For the present, several of the members of the class have gone to Gettysburg, others have gone home, and the remainder are still in town, wondering what the next development will be.

FINE TEMPERANCE SONG.

MARY'S PROMISE,

Or, Pledge Me Love in Sparkling Water.

The above new, beautiful and effective song has just been issued by F. W. HEMMICK, Music Dealer, 50 West Fourth St., Cincinnati, Ohio. All who are interested in the "Murphy Movement" should not fail to buy a copy; in fact, it ought to be found on every Piano or Organ in the land. Price 50 cents per copy. Sent by mail upon receipt of price.

PUBLIC SALE.—Christian Kurtz will sell, at his residence, in Delaware township, 2¼ miles southeast of East Salem, at 1 o'clock P. M., on Saturday, June 9, 1877, the following property, for Mrs. Barbara Gingrich, now in the west: One cow, cupboard, stoves, and many other articles of household and kitchen furniture.

PORT ROYAL, May 24, 1877.

Mr. Editor: Sir, We had quite an interesting game of base ball here today, with the Eagle base ball club of your town. We had understood that they had been practicing all forenoon before the arrival of the train. We were all waiting at the depot for their arrival, and about the time the train was due we became very uneasy; it would not come; but after a while the mighty iron horse came thundering along and brought the Eagles along. Taken all in all, it was enough to scare such innocent lambs like us. We feared we would all be captured and carried off to some high cliff, where we would be torn to pieces, or at least have our eyes plucked out. But we proceeded to the park and made all the arrangements for the game, with Prof. H. C. McClellan as catcher and expert, and Deen as pitcher. As the game progressed, Prof. McC. caught one in the eye, and he made two or three somersaults and then stood on his head a short time, when Prof. Pannebaker No. 2 came to his relief, and then it went to the close of the game, which ended in our defeat.

The Eagles are a whole-souled set of fellows. McClellan, Dean and Pannebaker are fine players; they understand all the technical points. I forgot to mention a young man—I think they call him Bonsall—who bats a ball well. It always lights again when he strikes it. The rest are such common players that I hardly think them worthy of notice. They must take more time to practice if they want a prominent notice in our next communication.

Yours, truly,

BASE BALLIST.

ATTENTION, FARMERS.

Look to your interests, and buy the Improved Valley Chief Reaper and Mower combined—two complete machines in one. Two cutter bars, two drag bars, and four sets of knives, with either automatic or controllable rake, all for $160—being $20 cheaper than other machines, and worth $20 more. You will therefore save $40 by buying machines of us, and then you have a machine built at home, where repairs will not cost three times their price to get them, by having your employees idle in harvest time. All machines warranted perfect.

We can sell machines with automatic rake alone for $140.

Inquire of J. F. G. LONG, General Agent, Port Royal, Juniata Co., Pa.

LAST NOTICE.

All persons who are indebted to the undersigned, on Book Account, or by Promissory Notes, which have matured, are hereby notified that after the first day of June, 1877, all such accounts and notes will be placed in the hands of an officer of the law for collection.

Medical.

Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use, and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the *Pills* with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by *Ayer's Pills*, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned upon by the vast multitudes who enjoy it, can hardly be computed. Their sugar-coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution or diet or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia or Indigestion, Listlessness, Languor,** and **Loss of Appetite,** they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action, or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back,
