S. district court, at Philadelphia, on last Thursday, to the charge of unlawfully retaining one half of the $3 662 pension belodging to John Scyoc, of Newburg, Cumberland county. Martin was the agent who obtained the pension for Scyoc, and by agreement with him he retained one-half of the pension, or $1.846 although the statute makes $25 the limit of an agent's fees. He, however, returned to Scyoc $1,729. Judge Butler sentenced him to pay a fine of $60 and costs.

Rooster Suit.

"Mr. H. R. Haweis, the London preacher and art writer, has been sued by one of his neighbors, as the maintainer of a public nuisance, in the shape of a loud-voiced cock, that crowed vociferously (according to the testimony in court) twenty-eight times, between six and six-thirty in the morning! Mr. Haweis brought evidence to prove that the cock had a beautiful voice, and that the rest of his vicinity enjoyed his exuberantly cheerful use of it. The conclusion of the suit we have not learned."

A Great Help to Women.

"Man's work is from sun to sun,
Woman's work is never done."

How true and yet inventive genius and science has made wonderful progress in relieving woman of much of her former drudgery and slavery. The Model Steam Cooker, an illustration of which we give to our readers, is a happy combination of scientific principles and while improving the food we eat and saving its cost in fuel in short time, its use does away with the red hot stove, and cooking with it is a positive pleasure. Steam cooked food is healthier and more palatable than when prepared in the ordinary way. It never burns or dries, and with the Model Cooker there is no steam or odor in the house when cooking food. It is self regulating—blows a whistle when the water gets low, and needs no care to keep the meal from spoiling. The Franklin Institute of Philadelphia has made a practical test with Boston Brown Bread and vegetables, and report that they can be cooked more successfully by steam than in any other way. A further test was made with onions and showed no trace of odor in the room. This is the highest scientific authority in this country. The Model Cooker Co., 34 Park Row, New York, want agents to help them place these wonderful Steam Cookers in every family. Those who apply early will get the best territory. Any lady or gentleman wishing to engage in permanent remunerative employment, cannot do better than by writing to the Model Cooker Co.

Women's Missionary Meeting.

The 12th annual meeting of the Women's Foreign Missionary Society of the Presbytery of Huntingdon met in this place on Thursday, March 1st, at 9 o'clock A. M. On Wednesday evening very interesting addresses on the importance of Foreign Mission Work were delivered by the Rev. Mr. Woodburn, of Academia, and Rev. R M. Cambell of Port Royal. On Thursday morning after devotional exercises, Miss Emma Hays gave the address of welcome, which was responded to by the President. Mrs. N. D. Orbison. The recording Secretary, Mrs. M. H. Wilson read a report of all the auxiliaries and bands, showing a growing interest in the work The corresponding Secretary, Miss Kate Stewart read a good report; Mrs. Dorris the Treasurer, reported $3.800, a gain of $762 over last year, leaving $88 yet to be raised before April, in order to make up one quarter of the million funds. An interesting paper prepared by Miss Annie Irvine of Hollidaysburg was read by Mrs. Russell of Altoona. In the evening the Rev. G. W. Knox a Prof in the Presbyterian Theological Seminary of Tokio, Japan, delivered an able lecture on the rapid advancement of civilization in that empire, in the last quarter of a century. The singing of Miss Freeman of Huntingdon added very much to the pleasure of the meeting. The following resolutions were adopted by the society.

We desire to extend our sympathy to Mrs. Hughawcut and Mrs. Russell in their recent bereavement.

We thank the officers of the Presbyterial society for their efficient services during the past year.

We desire to express our appreciation to those who have so kindly entertained us during our stay in Miffin.

We would also thank the speakers for their able addresses which have added greatly to the interest of our meeting.
