Whooping cough is the great cough in these parts. One family of many children have it, and when one begins to cough at night, the father hastily arouses all the children and in that way they all cough at one time. He says, if he allowed each one to cough off the spell as it comes on, the cough would be kept up all night as no two would cough at one time, but by getting the children all to cough at a time he gets some rest.

Court does not bring as many people to town as it did 20 years ago. Twenty years ago a large number of middle aged men, came to town a day or two every term of Court for the pleasure of being at the Capital of the county. They had acquired that habit from their fathers. The middle aged men of 20 years ago no longer come and those who succeed them do not come and that's why the crowds of former days no longer appear at every term of Court in town.

There was a thrilling time among the miners at Robertsdale, Huntingdon county coal mines last Saturday morning. A dam of water near by burst and rushed into the mines soon after the 150 men had gone to work in the morning. The miners retreated to the far ends of the mines and were there 10 hours in water reaching to their shoulders and chins. With great difficulty the flood was turned from the mines in time to save the excavation from being entirely filled which would have resulted in the drowning of the 150 imprisoned miners.

CHAS. B. CRAWFORD, P. M.

A couple of plausible men are traveling through the country on a new swindling expedition. They are "well up" on the sheep question and being homespun in their general talk and conversation are wont to disarm suspicion. They are after lambs. They are devoted exclusively to breeding and selling lambs, but can never get as many as they can dispose of. They sell a ram for $50 cash, on the understanding that they will purchase at good figures all the lambs of his get the next season at weaning time. The sale is effected, the ram delivered and paid for, and the two frauds never turn up again there a second time.—Oswego Palladium.

The system of cream gathering in which so many dairymen are interested, is gaining many friends in all parts of the north. The great object being to lessen the work at home as well as to obtain the greatest price in the sale of butter. The Cooley system seems to be leading far in advance of all others, and for factories as well as for private dairies it claims to have no equal. Notice the advertisement wherein is set forth to some extent the record of triumphs at the great fairs and expositions, to which should be added First Premium, Rhode Island State Fair, 1888. It is indeed wonderful what progress has been made in the dairy business.

We are indebted to Dr. Benjamin Lee, Secretary of the State Board of Health and Vital Statistics of the Commonwealth of Pennsylvania for the Second Annual Report of the Board, with a Compendium of the Laws Relating to Public Health and Safety of the State of Pennsylvania together with the decisions of the Supreme Court and County Courts relating thereto. In addition to the general scope of the report of this Commonwealth, it is particular in mentioning the late examination of soldiers' orphan schools in this state, and therein becomes quite interesting to Juniata county people, for it gives in full the report of Dr. Lee, to Governor Pattison, of an inspection of The Soldiers' Orphan School at McAlisterville.

From the Newport News: Last Friday night Mr. Horace M. Bair's cattle wandered away from their fodder, on their master's premises, in Buck's Valley, and one of the number a heifer, walked into Mr. Frank Arney's unfinished well. The well was about fifteen feet deep and was covered with slabs until it would be finished. The festive heifer walked over this covering, and when she dropped into the opening such an unusual racket was made that Mrs. Arney heard the noise and discovered the cause. Nearly everybody in the neighborhood was in attendance at the session of the literary society, at Centre school house, where the intellectual lights of the valley were discussing burning questions appropriate to debate. Upon adjournment the literary society people, having learned of the unfortunate predicament in which the young cow had been placed, proceeded to dig her out. A slope similar to an entrance to a mine, was dug, and steps were made, up which the heifer walked with ease and grace, landing on the surface in good condition and apparently uninjured.

Tuscarora township is blessed (?) with a colored desperado named John Bradford. He resides a short distance from Millerstown station. He is not so bad when sober, but when drunk he becomes quarrelsome. When in Newport at the ox-roast he took to much and got into a wrangle with some other parties and tried to cut one of them with a razor. His friends succeeded in getting him on Oyster express for home. When the train reached Millerstown station Bradford refused to get off, and was pulled off. He jumped aboard again, when James Smith, of Sugar Run Valley, who acted as a sort of peace-maker, assisted in getting him off the train, and as he left the train he grabbed a pair of boots belonging to Smith, and ran off up the Raccoon Valley road. Smith gave chase and overhauled his man, when Bradford used one of the boots with effect on the head of Smith, cutting some ugly gashes in his face and head. Bradford also struck Frank Smith, track watchman, on the head with a stone. There was another colored man named John Green, who fell out with Bradford and they had a fight. Jas. G. Kroamer acted as peace-maker and separated the combatants. Dr. G. A. Icoxs dressed the wounds on Smith's head. This is not the first trouble Jno. Bradford has been in, for a few weeks before he cut three men from Thompsontown with a razor, at Millerstown station.—Liverpool Sun.

From the Newport Ledger: Last Saturday a notable coon hunt occured in Buffalo township. It was participated in by J. W. Stephens and his son Warren, and A. R. Finton. On starting out they took a young dog along, and it was not long before he "struck a trail," following it quite a distance until it stopped short at the creek, where the dog seemed to be outruled. Just at this point Mr. Stephens called Warren to bring the other dog (Fan) which "took the trail" and succeeded in treeing the game in a hollow tree. By common consent the tree was cut down, and when it fell out jumped four large coons and run into the creek. Two of them were captur-alive, and the other two were killed by the dogs. There was considerable fun capturing the coons alive. They were bound for "up Salt River." A few days after Mr. Stephens succeeded in capturing another coon near the same place. * * * Wednesday evening about six o'clock the Duncannon nail factory caught fire, before the men quit work for the day, and in a very short time the entire building was a sheet of flame. The main building, which contained 65 nail machines, the annex which had 10 machines, the machine shop and cooper shop were all destroyed. The burning of these works will throw about 75 men out of employment. The fire spread so rapidly that many of the workmen were unable to get their coats out. Loss not learned before our reporter left. The county bridge over Sherman's creek was on fire once but was extinguished. It is stated that it is the intention now to rebuild the works on the north side of the creek.

Old Christmas Sayings.

A warm Christmas, a cold Easter.
A light Christmas, a heavy sheaf.
A green Christmas, a white Easter.
A green Christmas makes a fat graveyard.
A wind on Xmas Day, trees will bring much fruit.
If Christmas finds a bridge he'll break it; if he finds none, he'll make one.
If ice will bear a man before Christmas, it will not bear a man afterward.
The sheppard would rather see his wife enter the stable on Christmas Day than the Sun.
If the Sun shines through the apple tree on Christmas Day, there will be an abundant crop the following year.

A Torn Mail Bag.

From the Newport News of last week: In casting the pouch from the train it struck the crane stand and bounded back catching and lodging on a car wheel of the fast moving train. The pouch was hurled around with great velocity and force, throwing ballast in every direction, one of which hit watchman Carr in the back. A hundred yards below the market street crossing the pouch was dislodged, and mail matter was strewn along the track, some considerably mutilated, but it is not thought that any was lost. Among the packages picked up on the track was a registered letter from Saville to New Germantown. A boy found a property deed in a ditch that had been executed by Mr. and Mrs. J. Cal Toomey, of Chicago, to Mr. J. R. Kerr for a lot of ground, in Oliver twp. It was so badly torn as to require a new deed. When the pouch was opened in the post office, some of the contents were ground up so fine as if they had gone through a threshing machine." The Ledger says the only matter that escaped chewing up was a package of McVeytown Journals.
