The indication of stone coal on the property of J. M. Hubler in Spruce Hill township has induced a number of citizens under the lead of Wm. Groninger and Geo. Kepner to enter into an agreement with Mr. Hubler to sink a shaft to the vein that the well drillers pronounced stone coal. To reach the vein the well will have to be deepened about 16 feet. Of course everybody is on the tip toe of expectation and hope that a thick vein of first rate coal may be found.

At Yeagertown, Mifflin county on Sunday afternoon as a group of church people were approaching the church a boy came out of the alley next to the church with his shirt stuffed full of apples He was surprised and no little confused. He saw the people and the people saw him. The situation looked as if either the church people or the boy with his stolen fruit were out of place, but it must have been the boy as he attempted running two ways at once, looking back all the while to see if he was pursued. — Lewistown Sentinel.

In mentioning Millerstown events the Newport Ledger says: While the drillers were hard at work boring for water at Ward's new well on Monday, D. M. Rickabaugh, came along in company with Mrs. Jacob Wagner, of Selinsgrove, Mrs. Harry Smith, of Newport, and Mrs. Rickabaugh. After looking at the operation awhile a banter was given that the quartette take a hand, and to oblige them the drillers gave over the machine. After about a foot of a hole had been drilled, Dave cried "enough." having been completly fagged out. Not so with the ladies, they had all been accustomed to kneading bread, and this new experience did not have much effect on them.

From the Lewistown Sentinel: A number of persons were cutting briars and brush last week along fence rails while others gave young Canada thistles that had commenced to grow again, a dose of salt pickle. The patch that David K. Hooley treated to a strong dose of old rusty pickle the forepart of the summer has been killed so dead that not a young sprout is visible now. * * * Some of our citizens who raised their early potatoes and put them in their cellars are removing them, owing to their rotting so fast, * * * Some persons while out on Jack's mountain last week looking after berries report seeing two bears near the top of the mountains. * * * Sunday afternoon Laura, daughter of Theodore Smith, picked up a bottle at her home on Water street, containing chloroform and put it to her nose for the purpose of smelling it. The chloroform caused her to jerk her head and arm and spill a considerable of it over her face. It entering her eyes and mouth very nearly strangling her, and it was with very much difficulty that she was kept awake for several hours after.

A Lesson For Officers.

From the Hollidaysburg Register: A very cool game and yet a pretty sharp joke was played on three Bedford county constables who arrived early on Monday morning armed with warrants to arrest a certain young man of Butlersville, who has been playing sad havoc with the affections of one of Bedford's comely daughters The constables found the young man in the stable rubbing down his blooded pony, bare-headed and in his shirt sleeves. When he was told that he was wanted he coolly replied, "That's all right, I heard the other day that you fellows were coming after me, I know that I am guilty, and I have made up my mind to just give myself up and go along peaceably with you. As it is early gentlemen, why, come into the house with me and get some breakfast. As you see I have no hat or coat on, and then after breakfast I will get ready and go with you." The constables declined the invitation to take breakfast, but they permitted the young man to go in and eat his, and in the meantime two officers guarded the front door while the third officer kept his eagle eye on the kitchen door. No doubt these officers felt very confident of securing their game without any further trouble, "but a bird in the hand is worth two in the bush," as they found out. After eating a good square breakfast the young man quietly went down the stairs into the cellar, from which he made his escape on the opposite side of the house, but not without the officers seeing him run like a deer, bare-headed and in his shirt sleeves down through the timber, the constables after him, but they soon gave up the chase, as their fleetfooted prisoner disappeared from their view in the timber. "Their bird had flown," and they were chagrined and disgusted over the result of their own carelessness.

"Thrift is a good revenue"
Great Saving
results from cleanliness and SAPOLIO:
It is a solid cake of scouring soap.
Try it in your next house-cleaning and be happy.
Looking out over the many homes of this country, we see thousands of women wearing away their lives in household drudgery that might be materially lessened by the use of a few cakes of SAPOLIO. If an hour is saved each time a cake is used, if one less wrinkle gathers upon the face because the toil is lightened, she must be a foolish woman who would hesitate to make the experiment, and he a churlish husband who would grudge the few cents which it costs.

And, charge your memory with this fact: We not only say: "At Half Price," but we sell at Half Price. You know from past experience that we never make statements in the newspapers that we cannot back up with deeds and our present House cleaning sale will be no exception to this rule. Now, then, "put money in thy purse," be it ever so little and attend this sale. We have made the reductions, it remains for you to take advantage of them. This is the last chance of the season—the last and greatest cut of prices, and if you're wise, you will make a bee line immediately to Meyer's Grand Depot. As is usual in such cases, the earliest purchasers will catch the best bargains. Don't defer your coming, therefore, but let us see you as soon as you possibly can. You will be surprised at how far your dollars will go.
