# SENTINEL & REPUBLICAN

MIFFLINTOWN.

WEDNESDAY, MARCH 30, 1898.

B. F. SCHWEIER,
EDITOR AND PROPRIETOR.

THE Spanish government has sent to Washington, the report of the Spanish Naval Commission on the explosion of American battle ship Maine. They declare that the explosion was not from without but from within the Maine.

A WAR with Spain may last one year to eight or ten years, when nations go to cracking each other's heads, there is no telling when they can quit. A five years war would be a boom for silver, All the gold and silver the country can produce will in such an unfortunate state of affairs be required to float the paper issue.

CUBA is no good to Spain, only as a place for a lot of office seekers Spain would be a great deal better without the island and if it were not for Spanish pride the island would soon be disposed of. If it were not for Spanish pride it would be given over to the Cubans. The island would be no good to the United States, as it stands to day it is some good, to tariff the stuff they send to the United States, but when annexed it would'nt pay expenses.

THE naval officers, from Key West, bearing the report of the Naval Board of Inquiry into the matter of the explosion of the battle ship Maine, in the harbor of Havana, Cuba, on the night of February 15, arrived in Washington at 9.35 on the night of the 24th of March. The crowd at the station was so dense that the Board of Inquiry got off the train before reaching the station. The crowd was disappointed in not getting a sight of them.

IN case of a war with Spain, Cuba would become United States property by the right of conquest, but Cuba is not worth a war. The misery to the American people, and the loss in every way, and the general back set that would follow as a consequence could not be compensated by the acquisition of Cuba. The United States, at this time, have too many of the bad foreign element to controle without adding that of Cuba A few merchants and importers, and the sugar trust people, with a sprinkling of worthless adventurers would be the only beneficiaries of a war, that would be wide spread in its evil influence.

IT is reported that the State Authority has appointed fish wardens to travel up and down the Juniata river to prevent unlawful fishing. Why does not the State Authority bring suit against the corporations in this commonwealth who empty "stuffs" into the streams on which their works are located, and in that way depopulate whole streams of every living fish. People are interested in respecting the laws even if the laws are not what they should be, but it is so clearly a farcical game to hunt down the poor fellows that catch fish when they please in the little streams, and never once punish the rich corporations that openly violate the law by killing the fish whole sale, not for the purpose of eating the fish but for other business purposes.

GUILTY but not caught in the act, is about the verdict of the court of the Court of Inquiry into the case of the explosion of the American battle ship Maine, on the 15th of February, 1898, in the harbor of Havana, Cuba. The Naval Court of inquiry reported last week to President McKinley and at 2 o'clock on the 26th of March the President authorized the statement to be made that the report had been reviewed by the President and his cabinet and that the finding of the court is that the battle ship Maine was blown up by a powerful floating under water mine. The under water floating mine or torpedo or whatever it was, made the first report and that set off two of the magazines in the Maine, and the fine ship was a wreck The report says it cannot fix responsibility upon any one for the explosion. On Monday, President McKinley sent a message to Congress with the report of the court of Inquiry. The message recites the fact of the Maine going to Havana, its explosion, and the statement of the court of Inquiry, but does not fix the responsibility of the explosion. The jingoes in Congress are angry because the President did not go beyond the report and fix the responsibility on the Spaniards. The President immediately had the report of the Court of Inquiry sent to the Spanish government.

## OKESON ITEMS.

Mr. John Resinger is quite sick.

A large party was held at the home of Mr. George, May, Friday March 25th, the elegant refreshments and fine music, the number of cultured people and the signs of festivity tended to make this meeting a most enjoyable event.

Saturday, March 26th, 1898 the literary entertainment given by the Tuscarora Literary society was a perfect success. The house was crowded. The Spy of Gettysburg was the star of the evening. The scene was laid at Gettysburg. The blue and grey, the northern and southern ladies, darkies, Pennsylvania dutchmen, and all the characters of the place were acted to the pink of perfection. The salutes of officers called back war scenes from many veterans experience. Every act was applauded. The able recitations and fine music were well enough for any occasion. Everyone wanted Professor Culp to have the entertainment over again. He announced that it would be held again on Saturday, Aril 2. At the late entertainment nearly half the people were standing. Every one will be accomodated with seats at the coming entertainment.

## AFTER EIGHTEEN YEARS COURTING.

Reading, March 25.— This afternoon Miss Sophia Gehringer employed counsel and brought an action in assumpsit against Daniel Mayer, of this city. This is an action for breach of promise of marriage, and damages are claimed to the amount of $5000. Miss Gehringer alleges that Mayer paid attention to her for the last eighteen years, and promises, but has not fulfilled his promises. She also claims that on several occasions the marriage day was decided upon, but that he always had some excuse. The parties are well known people.

## EARLY LIGHTNING.

Altoona Tribune, March 24.—The residence of H. L. Burkhard, along the Dry Gap road 1½ miles above the city, was burned to the ground early yesterday morning after being struck by lightning. Mr. Burkhard and his family were all in bed when the house was struck. They knew nothing of the occasion until they were driven from their beds by the smoke. Nothing but a few articles of apparel were saved. A sharp flash of lightning was observed to strike the house before the fire broke out by some of the neighbors.

The dwelling was valued at about $600. It was mortgaged to the Pennsylvania Building and Loan association for $500, and that society had it covered by an insurance policy of $500.

## CONSTABLES MILAGE.

An opinion handed down from the Superior Court recently, in the case of William Price a constable, against the county of Lancaster. The questions raised were, first, can a constable legally claim circular milage for executing a warrant and serving the subpoena, and, second, can he recover fifty cents for subpoenaing each witness? Judge Wickham, who wrote the opinion in the case, decided that the plaintiff is only entitled to be paid milesge one way at the rate of ten cents a mile, and that for serving a subpoena the constable may for each person named in the process and actually served, legally charge fifty cents.

The court said: "To hold that the officer shall be given only the same fee in every case for serving the parties named in the subpoena would produce inequality and injustice, and often subject him to the temptation to shirk the full performance of his duty. Practically he serves the writ every time he reads it to a witness. The trouble and labor is the same as if he has a separate subpoena for each person named." In this case judgment was entered for the plaintiff and against the county.

## ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

**CHIEF CAUSE.**

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, blander or urinary passage is often by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be easily avoided. To find out correctly, set your urine aside for twenty four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney, and bladder remedy is soon realized. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have a sample bottle and phamphlet bottle both sent free by mail, upon receipt of two cent stamps to cover cost of postage on the bottle. Mention the JUNIATA SENTINEL AND REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y.

## ANNOUNCEMENTS.

FOR CONGRESS.

MR. EDITOR:—As the time is again approaching for the nomination of a candidate to represent the 18th Congressional District in Congress, it behooves the Republicans of Juniata to be considering whom they will support for that position. Permit me to suggest that we cannot do better than support our present able, manly and reputable representative, Hon. Thad. M. Mahon, of Chambersburg. During his past two terms he has been in close touch with the people of the district, always alive to their interests, and zealous and active in advancing the same. By his past experience he is better able to serve them than ever, and as, so far as I can learn, Juniata has no candidate of her own, she canot do better than unanimously support Mr. Mahon for re-election.
