THE WAR IN THE PHILIPPINE.

The war in the Philippine Islands rages. The islanders are no match for American troops, but they seem to be ever present, and ever absent, like the Irishman's flea, when you think you have got it, it isn't there, they come up, attack, and run away, they fire from bush and hut, and keep the Americans in an alert state from the farthest outpost to the centre of the city of Manila. Frequent fires take place in the city and it is believed the insurgents are the cause of the fire. The American General in command has ordered that all persons shall be indoors by 7 o'clock in the evening. Every day American troops are killed and wounded, to be sure not in great numbers, but still as the situation is, one by one they go. General Otis is in need of more troops. Some 6 or 7 thousand troops are on the way to Manila and when they arrive more effective work against the insurgents will be inaugurated. Dewey sent a despatch from Manila on the 24th, last Friday, to the Secretary of the Navy, at Washington. The despatch reads. "For political reasons the Oregon should be sent here at once." Just what Dewey wants with the Oregon is a question that has caused a wide range of guessing.

SENATOR QUAY'S case was called in Court in Philadelphia on Monday morning, but to the surprise of all the public, a continuance of the case was asked for to April 10 Quay was ready for trial, but the jugglers who did not hesitate by worriment to hasten Haywood's death were not ready for trial, they asked the Court for a postponement of the case. The Court granted their request. The case stands postponed to April 10. It looks as if the political conspirators have no case; it looks as if the men who are pulling the wires in the case were afraid of being unmasked. To-day the public does not know who brought the suit; a common detective stands on the record as making information, but who are the cowards behind the detective. What does the cowardly gang who are afraid to reveal their names care for reform. They wanted to use the court to advance their own political ambition. That is all they had in the case, and to accomplish their end they would defame and pull down all they can, who they believe to be in their way. The rotten bank that failed had State funds deposited in it but the State did not lose one cent and has no right to complain, and the cowardly, gang who are masked behind a detective have nothing in it only an overwhelming lust for office, which they believe could be more quickly gratified by the election of some other man to the United States Senate. They don't want the white light of justice to shine on their case. They don't want to uncover the men who fixed the books of the bank for a detective to make a record with. They don't want to unmask the men who mutilated the bank record so as to make a case to suit their purposes. The probability is that when the mask is pulled off, those in the lead of the hounding will stand close to the door of the penitentiary, into which a touch of justice would send them. Let justice be done; turn on the light.

SINCE the Philippine Islands have come to us, all are anxious that those people shall exercise self government. The only difference among the American people is how can they in the most speedy and least expensive way, and with the least loss of life be brought to the desired end.

It also allows them $3 for their attendance at elections and remuneration for serving warrants and the transportation of prisoners to the office of the Justice and to the county jail.

PROGRESSIVE EUCHRE.

The Reformed Church Messenger says "it is at best a mild form of gambling," in the family "out of place," in church financiering "scandalous." This is sober truth. But some Harrisburg "Christians" indulge in this form of gambling, without resigning their professions or their places in the church. Some have sown the wind in their own families and reaped crops of whirlwinds. Progressive euchre parties, sanctified with hypocritical pretences of benevolence, are not only not better but worse than straight-out gambling. Another exchange paper says. "This winter certain men and women have gone to the verge of insanity on the game of cards; they go out every night to the club, or to some friend's house to play cards, and win prizes, and thereby sowing the gamblers seed broadcast into every home where they are admitted Next summer their boys will be sitting in the woods, and fence corners, and in hay mows, and in saloons, playing cards for prizes of one cent, five cents, ten cents up to whatever amount of money they can raise to stake on the game, and then some of the same people who sowed the seed of card playing will come around to editors and others who have newspaper influence to get them to write against the boys and men who sit in the summer shade playing cards for prizes from a cent up to a dollar."

INDIVIDUAL MEMBERS LIABLE.

An eastern newspaper says.—The beneficial societies frequently have occasion to discuss the question as to whether a member in arrears is entitled to the benefits allowed those in good standing. The Supreme Court has settled the question by deciding that societies are liable to pay benefits either in part or whole as long as a member is carried on the membership rolls, even if he has been declared out of benefits. Also that the members of a society are individually liable for all obligations incurred before the society was disbanded.

FLORIDA.

For tickets, itineraries, and full information apply to ticket agents; Tourist Agent, at 1196 Broadway, New York; Thomas Purdy, Passenger Agent Long Branch District, 789 Broad Street, Newark, N. J; Thos E Watt, Passenger Agent Western District, Pittsburg, Pa; or address Geo W. Boyd, Assistant General Passenger Agent, Broad Street Station, Philadelphia.

THE CHAMPION WOOD SAWER.

Bloomfield Advocate Feb. 15.—A valued contributor writes us about what we consider remarkable wood sawing. William D. Hohenshild, of Sandy Hill District, recently sawed thirteen cords of wood for Geo E. Beck, at Bixler, in two days and a half, and thirteen and a half cords of wood for C. M. Kline in practically the same time. Mr. Hohenshildt is considered the best sawyer in the District and the challenge is thrown out to any one in this section and for that matter in Perry county to beat his record. Fifty cents a day and board is what is paid him. In other words he sawed 13 cords of wood for $1.25 plus his board.

FIVE SHERIFF'S IN ONE YEAR.

Washington county enjoys the distinction of having had five sheriffs in one year. J. Verner Clark stepped out as Sheriff January 8, 1898. His successor, John A. Kennedy, died in June of the following year, and Coroner Fitzparick, by virtue of his office, became the sheriff. He was succeeded by John A. Kennedy, son of the deceased sheriff, who was appointed by Gov. Hastings to serve until the official election at the November election should take hold. Joseph T. Hemphil, who was elected for a full term took the oath of office on Saturday and assumed his duties on Monday, the beginning of the official year. This is a state of affairs which could not occur in any other county office.

A BIG FISH STORY.

From the Lock Haven Express.

Farrandsville is at the front today with the greatest fish story that has been told in these parts in years. It appears that yesterday afternoon some one made the discovery that a large school of German carp were sporting about under the ice on the river, and at once a hole was cut and all the dip nets in the town put in use dipping out the big fish. The news quickly spread through the village that fish were being caught by the dozen and men, women and children flocked to the scene of the big catch.

People on passing trains supposed some one had been drowned, and efforts were being made to secure the body, but such was not the case. The crowds were there after fish, and they got all they wanted. It is stated that about 3,000 carp were taken from the water, ranging in size from one and a half to three and a half pounds. Enough were caught to furnish all the families in the village with what fish they wanted, and several barrels full were given to the hands of a railroad work train.

The first haul that was made with a dip net 252 carp were taken out, not one of which weighed less than two pounds.

The above lecture will be given in the Presbyterian church on March 3rd, Friday evening, by Rev. A. N Raven. This will be the most realistic literary lecture ever given in Mifflintown. Get your tickets in advance and come early. Admission 10 and 15 cents.

AN ECHO FROM THE WEST.

The Wayne Republican, of Wayne, Nebraska, published the following which is here reproduced as an echo of a phase of life from the far off land of the west:

It was last Wednesday night with the thermometer dodging around the 15 below mark that a covered wagon stopped in one of the alys of our city and took refuge in the lee of a barn and when day light dawned one of our citizens living in close proximity made a little investigation and found that inside of that cover were six souls, the youngest a babe not over a year old and three other little tots with their father and mother. Our citizen supposed that the family traveling in this manner at this time of the year must be doing so of necessity and not choice, took it upon himself to inquire of pater familias if he was leaving the country, and received the assurance that it was not so, that the family's home was 150 miles west here, that they were simply on a visit to his wife's folks some of whom lived at Pilger where they had been and were then on their way to others at Yankton, in other words their trip was one of pleasure not dire necessity and it was simply a matter of choice that they camped out when the weather was cold enough to curl the ears of an Indian cigar sign. Our citizen went to his own abode and beheld his own little ones playing around the base burner with all the appointments of a comfortable home and then his mind reverted to the other little ones in the wagon in the alley and he made up his mind that after all surroundings are not all that is necessary to complete contentment.

MAN EATS MAN.

VANCOUVER, B. C., Jan. 27.—After escaping death by drowning, eleven of the crew of the ship Manbare were captured and eaten by cannibals of New Guivea. The Manbare was bound for Sydey, Australia, when it was caught in the terrible gale of December. Near Cape Nelson it began to sink. The crew, eighteen altogether, left the vessel in two boats and soon became separated. One boat containing twelve men was finally thrown ashore ten miles from the Cape. The sailors were seized by natives from the interior and hurried off to the village of the chief. One man, James Greene, escaped.

The sailors were stripped and bound and killed, one each day. A wild orgie was participated in by at least a hundred savages, who had gathered for the feast. In several cases the sailors were tortured by the old women and children of the tribe. The eyes of one were gouged out. The doomed men stoically watched the elaborate preparations for their death. In most cases the men were beheaded, their heads being stuck on poles and paraded before the men who were to suffer the same fate.

Greene was rescued by a steamer after tramping without food a day and night to reach the coast. The scenes of horror he had witnessed turned his hair snowy white.
