EXCITEMENT AT EASTON.—Easton has been thrown into the most intense excitement, by the pardon and release of Dr. Lachenor from imprisonment, and the remission of his fine by Gov. Bigler. Dr. L. was one of the defendants who, after a trial of three weeks, was convicted a short time since of conspiracy with several others, to extort money from an aged gentleman of that place, through a loose and disreputable woman. The defendant is wealthy.

F. A. CASE Sec'y.

To the Republican Freemen of Susquehanna County.

Having for some years past become more and more convinced of the propriety of Independent nominations for office, openly and frankly offered to the people, in preference to the management often resorted to—first in procuring the choice of Delegates of the right stripe, and afterwards in effecting a nomination through bargaining among them in behalf of the various aspirants for the different offices; especially where any party or set of men have so long held the ascendency that they presume to make their dictation paramount to an election by the free choice of the whole people; and having long wished to see the example fairly and honestly set and more generally adopted here, as it is in many other sections of the country by independent freemen, I take the occasion thus early to announce my intention, of my own free will and accord, without the suggestion, influence or instigation of any individual, party, or set of men, to offer myself as a candidate for the office of REGISTER & RECORDER in this county at the next election, if it shall appear that a *new man* is to be chosen to fill that office, in place of the present worthy and capable incumbent, and provided no other circumstances shall occur in due time to induce me to change my determination.

I wish it to be distinctly understood that I make this announcement thus early *not* to interfere with the supposed rights or claims of any other individual, nor to embarrass the free action of any portion of the people in making their selections, but that it may be entirely free from the imputation of being the mere result of a factious opposition to any other nomination, (disclaiming as I do the design of taking advantage of any rivalry or strife that may grow out of the contest for a nomination among others,) and that no party or faction may be held responsible for this voluntary act of my own.

I may here allude to the well known fact, that, although the late lamented and highly respected Hiram Finch was repeatedly chosen and continued in that office from the first election by the people up to the time of his death, (owing to his circumstances and his well known competency and fitness for the station) yet it was so determined that but *one term* of three years was given to C. L. Brown Esq. who was also a very efficient and highly respected officer. But should a very general desire be manifested among the people to continue the present incumbent J. T. Langdon Esq. for another term, (to whose entire competency and obliging and gentlemanly deportment I feel constrained also to bear testimony,) I shall bow with cheerful submission to the award. On the other hand should there be several other candidates brought forward by this or other means, among whom there should be some one for whom a large portion of my friends and fellow citizens should seem desirous of uniting their support, or should there be any paramount public good apparently more attainable, or the vindication of any public moral question better subserved by uniting upon some other selection, I shall hold myself ready to yield my humble pretensions whenever convinced that such is my duty, without pleading my own personal necessities, however beneficial such an election might be to me under present circumstances.

But should none of the contingencies alluded to induce me to withdraw this announcement, I would most respectfully solicit the support of all who may deem me worthy of the same; and although I will never disguise my honest sentiments upon any political question to secure any man's vote, or shrink from a frank avowal of the same on every proper occasion, I should feel most proud of the *free* suffrages of my fellow citizens, in this my native county where I am *tolerably* well known, upon the naked question of individual merit and competency for the station proposed, without invoking popular prejudice or applause upon any subject foreign to the duties of the office, pledging only my honest and sincere efforts to deserve public confidence by my fidelity and integrity should that confidence be reposed.

The importance of the questions to be decided at the next elections, the doings of Congress and the Administration, Wars in Europe, Asia, and America, and News in general from all quarters of the globe, may be expected to render the Newspapers unusually interesting for some months to come. To bring these questions before our readers, and to advocate the RIGHT on every question that arises, will be the endeavor of the Editors of the Register. The great battle between Freedom and Slavery presents a question paramount to all others at this time, and here we take our position in decided opposition to all the wicked schemes of the Slavery extensionists.

THE subscribers beg leave to advise the public, that they are now receiving an entirely new stock of Goods for the Summer and Fall Trade, embracing nearly every article called for at a country Store; which were bought at the present low prices in New York, for cash, and will be sold astonishingly cheap. Grateful for the very liberal patronage heretofore extended to our establishment, we solicit a continuance of the same, and as much increase as possible. Our stock of Goods is now large, and every way suitable for the trade—more extensive, in fact than usually kept in this place. Those wishing to purchase will do well to call and see us. VOLUME Ten of the "Scientific American" commences on the 16th of September. It is chiefly devoted to the advancement of the interests of Mechanics, Inventors, Manufacturers and Farmers, and is edited by men practically skilled in the arts and sciences. Probably no other journal of the same character is so extensively circulated, or so generally esteemed for its practical ability. Nearly all the valuable Patents which issue weekly from the Patent Office are illustrated with engravings, and the claims of all the Patents are published regularly in its columns as they are issued, thus making a perfect *Scientific and Mechanical Encyclopedia* of information upon the subject of Mechanical Improvements Chemistry, Engineering and the Sciences generally. It is published weekly in quarto form suitable for binding, and each volume contains 416 pages of Reading matter, *several hundred* Engravings, with a full and complete Index. Its circulation on the last Volume exceeded 23,000 copies per week, and the practical receipts in one volume are worth to any family much more than the subscription price.

The following Cash Prizes are offered by the Publishers for the fourteen largest lists of subscribers sent in by the 1st of January, 1855:—$100 will be given for the largest list; $75 for the second; $65 for the third; $55 for the fourth; $50 for the fifth; $45 for the sixth; $40 for the seventh; $35 for the eighth; $30 for the ninth; $25 for the tenth; $20 for the eleventh; $15 for the twelfth; $10 for the thirteenth; and $5 for the fourteenth. STOVES FOR THE PEOPLE!

THE subscriber is now receiving his fall and winter stock of stoves, which, when completed, will be the largest and best selected assortment ever offered to the inhabitants of Susquehanna county. His stock will consist of some twenty different patterns of wood and coal, cooking and parlor, besides any quantity of six plate and office stoves.

He will sell stove pipe made of the best English and American Iron at 8 cts. per lb. and other furniture in proportion.

Notwithstanding the present high price of Iron and the consequent advance of castings, I am enabled to sell stoves at old prices, and many kinds, at about two thirds of the price that they have sold for, in this vicinity, for instance, clinton air tight, elevated oven with trimmings of the best quality, at $24.00.—With second quality of trimmings, such as are usually kept by Merchants at $22. Other kinds of stoves in proportion, for cash, or short time paper.
