CHILSON'S PATENT VENTILATING FURNACE—The subscriber would call the attention of all parties requiring a desirable Furnace to CHILSON'S COLLEGIATE WARMING AND VENTILATING APPARATUS.
The reputation of this furnace is now known, having been introduced during the past five years into about 1500 public buildings and more than 800 private dwellings: this together with the immense increase of sales every year is the best evidence that can be adduced of its superiority over all other furnaces. By the use of Chilson's Furnace, you secure the following advantages:
FREE VENTILATION:
PURE AIR—The heating surfaces being at a temperature that will not dessicate the air.
ECONOMICAL USE OF FUEL.
GREAT DURABILITY—Being made entirely of Cast Iron, not liable to rust, will require no repairs during a lifetime—it is easily managed and will not expose the building in which it is placed to danger from fire, like the other furnaces.
We have the testimonials of hundreds of the most scientific men to attest to the truth of the above statement, all of whom pronounce it to be decidedly the best furnace yet invented for producing a pure and healthy atmosphere. We herewith annex the names of a few well known and eminent professors, who have used them and kindly furnished us their names and references:
Prof. John S. Hart, Prof. Parker, Prof. Norton, Prof. Wm. H. Allen, Prof. Larsons, Prof. Danalds, Prof. Bridgman, Prof. Tipley.

NINE SIZES.

We have introduced this season five new sizes, so that all parties may avail themselves of this great improvement at a very moderate cost. We are now prepared to furnish an apparatus to warm a single room, or the largest building in the country.

No. 1	Portable.	Complete,	$ 25
2	do	do	35
3	do	do	45
4	do	for brick work	48
5	do	do	60
3 Extra Radiator, (with Bars and French Plates.)			70
3	do	do	50
5	do	do	107
6	do	do	135

This No. 6 is the largest and most powerful Furnace made in this country, and is admirably adapted for Churches and other large class buildings.
We continue to sell the apparatus at the same price as when first introduced, five years ago. Although the present high price of iron has increased their cost 25 per cent, owing to their great weight still we are enabled by the great increase of sales to furnish the article at the lowest possible price. One foundry alone, Messrs. Warnick & Leibrandt, have contracted to furnish us with 400 tons of Furnaces this season, so that we are now prepared to furnish them wholesale or retail. We superintend the erection of all Furnaces, when required, and warrant them in all cases.
