DR. SCHENCK

Advises Consumptives to go to Florida in Winter.

Having for the last thirty-five years devoted my whole time and attention to the study of lung diseases and consumption, I feel that I understand fully the course that ought to be pursued to restore to healthy sound lungs to healthy sound-ness. The first and most important step is for the patient to avoid taking cold, and the best of all places on this continent for this purpose in winter, is Florida, well down in the State, where the temperature is regular, and not subject to such variations as in more Northern latitudes. Palatka is a point I can recommend. A good hotel is kept there by Patterman. Last winter I saw several persons there whose lungs had been badly diseased, but who, under the healing influence of the climate and my medicines, were getting well.

One hundred miles further down the river is a point which I would prefer to Palatka, as the temperature is more even and the air dry and bracing. Mellonville and Enterprise are located there. I should give a decided preference to Mellonville. It is two miles from river or lake, and it seems almost impossible to take cold there. The tables in Florida might be better and patients complain at times, but that is a good sign, as it indicates a return of appetite, and when this is the case they generally increase in flesh, and then the lungs must heal.

Jacksonville, Hibernia, Green Cove, and many other places in various parts of Florida, can be safely recommended to consumptives in winter. My reasons for saying so are that patients are less liable to take cold there than where there is a less even temperature, and it is not necessary to say that where a consumptive person exposes himself to frequent colds he is certain to die shortly. Therefore my advice is, go well down into the State out of the reach of prevailing east winds and fogs. Jacksonville, or almost any other of the localities I have named, will benefit those who are troubled with a torpid liver, confirmed stomach, distressing bowels, sore throat or cough, but for those who are lungs are diseased a more southern point is earnestly recommended.

For fifteen years prior to 1861, I was professionally in New York, Boston, Baltimore, and Philadelphia every week, where I saw and examined on an average five hundred patients a week. As a practitioner extensively embracing every possible phase of lung disease, has established my Pulmonic Syrup, Schenck's Mandrake Pills, and my Seaweed Tonic, and I do so fully, and hence my caution in regard to taking cold. A person may take vast quantities of Schenck's Pulmonic Syrup, Seaweed Tonic and Mandrake Pills," and yet die if he does not avoid taking cold.

In Florida, nearly everybody is using Schenck's Mandrake Pills, for the climate is most likely to produce bilious habits than more northern latitudes. It is a well established fact that nails sold Florida are the cradle of consumption, especially those of the southern part. On the other hand, in New England, one-third, at least, of the population die of this terrible disease. In the Middle States it does not prevail so largely, still there are many thousands of cases there. With a vast percentage of life would be saved if consumptives were as really alarmed in regard to taking fresh cold as they are about earth-level, small pox, &c. But they are not. They take what they term a little cold, which they are ignorant enough to believe will wear off in a few days. They are soon attacked by a hacking cough, the foundation for another and another still, until the lungs are diseased beyond all hope for cure.

My advice to persons who are lungs are affected even slightly is, to try in a stock of Schenck's Pulmonic Syrup, Schenck's Seaweed Tonic, and Schenck's Mandrake Pills, and go to Florida. I recommend these particular medicines because I am thoroughly acquainted with their action. I know what effect they are used in strict accordance with my directions they will do the work that is required. The accomplished nature will do the rest. The physician who prescribes for pay, is not so careful as, and then advises the patient to walk or ride out every day, will have no chance to see his patient long before long.

My plan is to give my three medicines in accordance with the printed directions, except in cases where a lower dose of the Mandrake Pills is necessary. My object is to get some to the stomach, —to get up a good appetite. It is always a good sign when a patient begins to grow hungry. I have hopes of such. With a relish to feed and digestion of that relish comes good blood, and with it more flesh, which is closely followed by a healing of the lungs. Then the cough loosens, and the creeping chills and clammy night sweats subside, prostrate and nature, and the patient get well paralyzed he avoids taking cold.

Now there are many consumptives who have not the means to go to Florida. The question is asked, is there no hope for such? Certainly there is. My advice to such is, and ever has been, to stay in a warm room during the winter, with a coverlet of about seventy degrees, and it should be kept regularly at that point, by means of a thermometer. Let such a patient take exercise without the limits of the room by walking up and down as now was his strength will permit, in order to keep up a healthy circulation of the blood. I have cured thousands by this system, and can do so again. Consumptives are really cured as any other disease if it is taken in time, and the proper kind of treatment is pursued. The best stands undisputed on record. Let Schenck's Pulmonic Syrup, Mandrake Pills, and Seaweed Tonic have cured very many of what seem to be hopeless cases of consumption. Go where you will, you will be almost certain to find some prejudiced physician who has long preached from the wide pulpit of death by their use.

So far as the Mandrake Pills are concerned, everybody should keep a supply to them on hand. They act on the liver better than calomel, and leave none of its hurtful effects behind. Infact they are excellent in all cases where a purgative medicine is required. If you have pain, costiveness, headache, sick stomach and diarrhea, a dose of the Mandrakes will cause you to feel well. If you are subject to sick headache, take one of the Mandrakes and the sick headache will go in two hours. If you would shake off the effects of drinking water, or the too free indulgence in the fruit, take one of the Mandrakes every night or every other night, and you may then drink water and eat watermelons, peaches, apples, plums, peaches, or cucumbers, without fear of being made sick by them. They will protect those who live in damp, unhealthy, ague-and-fever localities. They are perfectly harmless. They can do you good only.

I have abandoned my professional visits to Boston and New York, but continue to see patients at my office, No. 15 N. SIXTH STREET, Philadelphia, every Saturday, from 9 a. m. to 4 p. m. Those who wish a thorough examination with the lung-respirator will be charged five dollars. The lung-respirator declares the exact condition of the lungs, and patients can readily learn whether they are curable or not. But I desire it distinctly understood that the cure of my medicines depends entirely upon their being taken strictly according to directions.

In conclusion, I will say that when persons take my medicines and their systems are invigorated into a healthy condition thereby, they are not liable to take cold, yet no man with the fear of things can bear a sudden change of atmosphere without the hateful, of greater or less irritation of the bronchial tubes.

Full directions in all languages accompany my medicines, so explicit and clear that any one can give them without consulting me, and can be had of any druggist.

IN THE MATTER OF THE PROTEST BY JOHN HARRIS, one of the Commissioners of Cumberland county, against certain checks by the Treasurer of the county, on a report as follows:

The letter addressed to me by said John Harris, reads as follows:

CENTRE, —Your special attention is directed to the two checks made payable to C. Jacoby and numbered, respectively, No 66, $993; No 53, $[illegible].

I am prepared to substantiate the fact, and ask you, gentlemen, to suspend action until then, that these checks have been paid unlawfully, and without my consent. I respectfully request you summon counsel and fully investigate the matter. I also call your attention to check No. 311 for $41, payable to Mr. Bricker, for work done on the bridge at Hogestown mill. Also check No. 139 $1,036 00 payable to order of John Gracey for work done on bridge at Myers' mill. Both of these bridges were not built by Mr. Harris, and he offer at Hepburn's mill.

The Commissioners understood the contract to be for one iron work only, and made contracts with John Gracey, for the wood work for Myers' bridge, and with Christian Jacoby, for the wood work for the Hepburn bridge, both contracts to include the lumber.

Messrs. Graves and Jacoby proceeded to deliver the lumber on their respective contracts, until the Iron Company were ready to erect the bridge, when a difficulty arose between the Bridge Company and the Commissioners, the company claiming they have the contract for the entire superstructure complete, and refused, though their foreman was present, to erect the bridge, unless they were permitted to furnish the wood work. The Commissioners wanted Graves and Jacoby to throw up their contracts, which they both refused to do, unless the Commissioners would allow them an amount equal to their estimate profit on their contracts.

The Commissioners objected to but finally agreed to pay, and did pay Mr. Graves $[illegible] and Mr Jacoby $800, for their contracts. It was by payment of the $800 that Mr. Harris made his protest.

We are of the opinion that the payment of the $800 to Mr. Jacoby was made with the intention to save trouble and expense to the county, by reason of the mistake and misunderstanding made by the Commissioners in their contract with the Bridge company.

It is evident, from the testimony, that the contracts were made in a very loose manner, and without any knowledge on the part of the Commissioners of the value of the work to be done.

It was proved that there was about $1,000 demanded by the Bridge company to the Commissioners and clerk who were in office at the time the contract was made for the bridge. This money was paid after the bridge was completed and paid for. There was evidence produced before us of other improper acts. But as they were not properly within our duty to inquire of, and are to be investigated by the Court, on information, we refrain from full mention.

JOHN KESSER,
CYRUS KELLY,
JACOB HEMMINGER,
Auditors of Cumberland County.

These Pills are the most delightfully pleasant purgative, superseding castor oil, salts, magnesia, etc. There is nothing more acceptable to the stomach. They give tone, and cause neither nausea nor griping pains. They are composed of the *finest ingredients*. After a few days' use of them, such an invigoration of the entire system takes place as to appear miraculous to the weak and enervated, whether arising from impoverished blood, Dyspepsia, Dissipation, Costiveness, or Nervous Diseases. H. T. Helmbold's Compound Fluid Extract Catawba Grape Pills are not sugar-coated, from the fact that sugar coated Pills do not dissolve, but pass through the stomach without dissolving, consequently do not produce the desired effect. THE CATAWBA GRAPE PILLS, being pleasant to taste and odor, do not necessitate their being sugar-coated. PRICE FIFTY CENTS PER BOX.

E

HENRY T. HELMBOLD'S EXTRACT BUCHU

CURES DISEASES ARISING FROM IMPRUDENCIES, HABITS OF DISSIPATION, ETC.

In all their stages, at little expense, little or no change in diet, no exposure, no inconvenience, and no exposure. It causes a frequent desire, and gives strength to urinate, thereby removing Obstructions, Preventing and Curing Stricture of the Urethra, Allaying Pain and Inflammation, so frequent in this class of diseases, and expelling all Poisonous Matter.

Those who have been a victim to the Ignorance of incompetent persons, and who have paid heavy fees to be cured in a short time, have found they have been deceived, and that the "Poison" has by the use of "powerful astringents" been dried up in the system, to break out in a more aggravated form and perhaps after Marriage.

Use HELMBOLD'S EXTRACT BUCHU for all Affections and Diseases of the Urinary Organs, whether existing in Male or Female, from whatever cause originating and no matter of how long standing. PRICE ONE DOLLAR AND FIFTY CENTS PER BOTTLE.
