Worcester, June 15

A very destructive conflagration, the most serious for many years, occurred in our city about 3 o'clock yesterday. A fire broke out in the heart of the city, and consumed the pistol factory. Merryfield's planing mill, and a vast deal of other property.

Merryfield's building was entirely destroyed, together with 20 others. Merryfield's loss is $100,000; insured for $22,000. Total loss about $500,000.

Treaty with Japan.

From the N. Y. Commercial Advertiser

Hong Kong, April 8.

The United States steam frigate Susquehanna, Capt. Buchanan, arrived here on the 2d from Jeddo, which port she left on the 25th ult., bringing news that the conditions of a treaty between the Americans and Japanese had been agreed upon, and would be ratified on the 27th ult

The precise tenor of the treaty was not generally known in the squadron, but is beyond doubt that free intercourse between the two countries is fully opened, and that two ports, with a coal depot and a supply of coals for the United States steamers, would be conceded to the Americans.

I am further informed that, by the above treaty, kind treatment and an abundant supply of water and provisions are secured to all Americans who may visit any part of the Japanese coast

The ports conceded are, Simodi, in Niphon, near Cape Ysue, and Hakatam, on the island, and in the Straits of Matsmai; but it is agreed that should the report of the naval officers, sent to survey these places, be unsatisfactory, other ports in the same island will be selected in their stead.

On the 27th ultimo, after the treaty had been signed, Com. Perry was to give an entertainment to the four Imperial Commissioners.

The railroad and electric telegraph taken by the squadron to Japan were in successful operation when the Susquehanna left.

The Japanese utterly denied having made any treaty with, or concessions to the Russian Government.

Immediately after the treaty is signed, Capt. Adams will leave for America, via California, in the Saratoga, with despatches for the American Government

For many months we have known nothing of the movements of the Northern army of the insurgents. After penetrating to within a hundred miles of Pekin, they went into winter quarters, and no actions of any importance have since taken place. Tseping-wang maintains his position, and when certain reinforcements reach him, which have been seen moving northward, he will probably march for the capital. There great distress prevails, and the poverty of the treasury leads to increased oppression.

A CHILD VOMITING UP A SNAKE.—A little girl, about four years of age, residing in Centre Bridgton, in this State, having been apparently in good health for some time, and troubled with a hard cough, on Sunday last her mother gave her a vomit emetic, soon after which she vomited up a black snake. A physician was sent for, and the child is now doing well. The snake was covered with a sticky substance, was about as long as a man's little finger, and was about 13 inches in length. It was alive when ejected. How long it was been in the stomach is unknown, but probably was swallowed in water when it was very small, as for some time past the health of the girl has been wasting away.—*Bangor, State of Maine, June 8*

LATEST FROM OREGON.—Oregon papers to May 2d have been received. The *Oregonian* says:

Just as we are going to press we learned, by a letter from David Birdsey, formerly of this city, that the Indians on Rogue river are fighting among themselves. The Applegate Indians (so called) have killed Jim, the war chief of the tribe that caused so much trouble in this valley last year. The prospects are that a general war between the different tribes will ensue. If so, it will save the whites the trouble of removing them.

The Oregon *Statesman* (Salem) of the 2d mentions two fatal accidents happening to two Joseph Sylvester fell from his chair in a fit, and was killed; a man named Hamilton was killed falling [illegible]

Colonel Palmer, Superintendent of Indian Affairs in Oregon, has gone to the Indian tribes in the Territory on an official tour.

[illegible] yesterday balloted for State [illegible] John L. Hadley, democratic nominee,

ment. The matter is really of great importance, and can be accomplished without the slightest probability of embroiling us with other nations. The territory of the republic of Dominica (the western portion of the island of Hayti) is of vast importance to all maritime nations, but especially to us; that coast lying in the track of all our trading vessels and steamers, from the Atlantic coast to Chagres and Greytown. Immense coal fields have been discovered in that region of the island, which would be the very best depot for coal of all the West Indies.

IMPORTANT FROM CHINA.—The following is an extract from a letter dated *Shanghai, March 13*, in the China *Gazette*:

By the last Gazette received from Pekin, the city was in a defenceless state, and the insurgents within 40 miles. Since then no Gazettes have come down, and the supposition is that the city has fallen. If so, the Tartar dynasty has fallen forever. Shanghai is still held by the Triads, and will probably never give up unless Pekin holds out against the rebels.

☞ The ladies of Lyons, Iowa, by needle work, and assidious labor, have earned enough money to buy a bell for the school-house in that flourishing town, and they now propose earning a school library. How pleasant to record such a noble enterprise. No woman's rights or bloomer nonsense there.

A HARD HIT.—Henry Ward Beecher says he means to vote against the Nebraska bill, though the ballot-box should be placed in the jaws of h—ll.

To this the Wheeling *Aryus* replies, that every man has a right to vote in his own *precinct*.

☞ The "glorious Fourth" is to be celebrated in Hamilton, N. Y., in right piggish style A desirable pig with a greased tail is to be let loose upon the common, and is to be the property of the man who will catch and hold him by the tail three minutes

NEW MAIL ARRANGEMENTS

Post Office, Erie, Pa., May 20, 1854

Hereafter the Mails at this Office will close daily (except Sundays) as follows

Eastern Railroad Mail supplying all offices between Erie and Buffalo, at 9 A M

Buffalo, Albany and New York at 11 A M and 5 50 P M

Baltimore and Philadelphia at 5 30 P M

New York & Erie Railroad Mail supplying all offices between Dunkirk and New York at 7 P. M.

Western Railroad Mail supplying all offices between Erie and Cleveland at 12 M

Chicago and St Louis at 9 A M and 6 P M

Cleveland, Columbus, Toledo, Detroit and Pittsburg at 12 M, and 6 P M

Cincinnati, and Louisville at 9 A M

Southern (every day,) Waterford, Meadville and Pittsburgh at 12 M.

McKean, Elkhorn and Meadville at 12 M

Waterford and Jamestown on Tuesdays, Thursdays and Saturdays at 6 A M.

Office open from 7 A. M. to 8 P M, Sundays from 7 to 9 A M and from 4 to 5 P M

PARTICULAR NOTICE.—Persons mailing Money, Drafts, or other articles of value, are requested to give notice of the fact in order that such letters may be registered

B F. SLOAN, P M

☞ A Wonderful Discovery has recently been made by Dr Sanford, a chemist, in the treatment of Consumption, Asthma and Diseases of the lungs. We refer to "Dr Curtis's Hygeana or Hygean Vapor and Cherry Syrup." With this new method Dr C has restored many afflicted ones to perfect health. Ample evidence of which, he has in numerable certificates — some of the treatment, a physician remarks.—It is evident that by breathing—constantly breathing an agreeable, healing vapor, the properties must come in direct contact with the diseased surfaces of the lungs, and thus escape the obstructions and difficulties proffered upon them when introduced into the stomach, as is the process. The Hygeana is now a household word throughout the country.—*From the New York Dutchman of January 14th*

See advertisement of Medicated Inhalation in another column of this paper.

"I DIGEST" SUCH IS THE TRUE MEANING of the word "PEPSIN," one of the two Greek words from which it is derived. This is the significant and appropriate title of the TRUE DIGESTIVE FLUID, or GASTRIC JUICE, prepared by Dr J S HOUGHTON, of Philadelphia, from the fourth stomach of the Ox, for the cure of Indigestion and Dyspepsia. It is Nature's own remedy for an unhealthy stomach. Art of man can equal its curative powers — it renders GOOD EATING perfectly consistent with HEALTH. See the figure of the Ox in another part of this paper.

ERYSIPELAS CAN BE CURED.

See the statement of one who has suffered from it for 20 years and has been entirely cured by Dr Wheaton's Medicines

Mystic Bridge, Ct., January 11, 1853

DR. A. WHEATON—Dear Sir—The great benefit which I have received from your Liniment and Salt Rheum Syrup induces me to give the following testimony in their behalf, that any afflicted, may at once resort to them and obtain relief. I have for the last twenty years been troubled with a Salt Rheum which so much so that it is not safe for me to shake hands with my friends. I met that and sought to describe my sufferings to Dr Hoxsey, of Hartford, who gave me some of your Salt Rheum Syrup, and I persevered, using the Liniment, which I rub on the affected parts, allowing me no rest day or night. The disease grew [illegible] and for the last time seemed that it would [illegible] Apply the Liniment freely to the [illegible] and take the Syrup internally. I have taken three bottles of the latter, and feel as well as ever. I am now able to do my own work, which I could not do before for years. I am so much better that I can go out and do business, which I could not do before for years. I can now eat any food I want, and my appetite is good, generally speaking, I feel as well as I ever did in my life. I am now able to do my own work
