GOOD.—The Newark *Advertiser*, in speaking of Long...fellow's Hiawatha, reports that one of the first motions in the next Congress will be to refer this new Poem to the "Committee on Indian Affairs." This is good, but a better hit yet, is the following parody from the New York *Mirror*. It is capital:

HIAWATHA.

Have you read the misty poem
Of the mystic Hiawatha—
Read about wild Dakotas,
And the brave Humbugs wampams,
In the vales of Hifaluten
In the vales of Wishy Washy
In the vales of Skimmy Dishy?
No Sir E, Sir, that I have not,
And I would not for a hundred
Dollars paid in silver, or in
Gold by the inflated teller
Of a bank called the Manhattan.
I looked in the book for a moment,
And my spine is really aching
At the hard words Mr. Longfel-
Low puts in in learned verses.
Rumor says that Mr. Ripley,
Critic of the N. Y. *Tribune*
Hired by Mr. Horace Greeley,
Labors with an awful lock jaw.
Got in reading Hiawatha.
Guess he got a foul of this word.—

NEW ILLUSTRATED PAPER.—We have a prospectus of a new illustrated paper, in the same style of neatness as the *London Illustrated News*. It will be published by Frank Leslie, of New York, and promises to be a valuable acquisition to art and journalism. The prospectus says: "To those who apprehend that our journal will degenerate into a mere literary periodical, like some of its predecessors, we repeat that it will be a *news paper*, in the strictest sense of the word. No passing event of importance, whether in the religious, social, political, commercial, or artistic world, will be allowed to escape our pen or pencil." If this promise is carried out in good faith, this new candidate will indeed be worthy of popular support.

—Vermont is a great State, in her own estimation.—Among the resolutions considered by her legislature this year was one "that in consideration of slavery and Kansas, Vermont no longer considers herself a member of the Union!" Fiddle-dee!

FINE FISH.—We are under obligations to our young friend, John Wetsch, of Collingwood, C. W., for some very fine Trout, fresh from the pure waters of Georgian Bay. Mr. W. has been in the employ of the Toronto and Lake Simcoe Railroad the past summer, and his friends here will be pleased to hear that he has rendered entire satisfaction.

WHERE IS THE MAINE LAW?—The Concord *Reporter* says that "intemperance is on the increase" in that village. This is strange, very strange, in view of the fact that the Maine Law is in full force in Ohio. There must be a screw, or perhaps a faucet, loose somewhere.—Where is it? In the law, or in the disposition to obey the law of the moral, intelligent, blue-light descendants of the Pilgrim Fathers. Verily, the days of the blue laws are again on the wane.

☞ The Connaultville *Courier* says a large amount of the stock has been subscribed for a line of Telegraph from that place to Girard, and that in a few weeks that enterprising village will be in communication "with all the world and the rest of mankind."

PROBABLE SUICIDE.—About ten o'clock on Sunday evening, the family and immediate neighbors of Mr. Christian Fisher, living near the Railroad Depot, were disturbed by the report of a gun in his house. On repairing to the kitchen, they found Mr. Fisher dead on the chair, with a heavy charge of shot in his head, the gun leaning against the wall about five feet from him. There is no difference of opinion as to whether Mr. Fisher perpetrated the terrible deed, but in the absence of any testimony to the contrary, it seems reasonable to suppose that he alone committed it—shooting himself and then throwing the gun from him in such a way as to cause it to rest against the wall. The verdict of the Coroner's Jury was—That he came to his death by his own hand or some hand unknown."

Mr. Fisher was a German by birth, of about twenty-eight years old, and a Moulder by trade—having been employed several years in the "New Furnace," in this city. It appears that he had not lived happily with his wife for some time past. He had fallen into intemperate habits, and this, in addition to his domestic difficulties, is supposed led to the act of self destruction *anomalie*.

THE PROGRESS OF MEDICAL SCIENCE.—We have just examined a new and marked evidence of this caption, in a compound from the East, prepared by Dr. J. C. Ayer, of Lowell, Mass. Dr. Ayer is a deep Chemist, and combines the constituents of his remedy in strict accordance with chemical principles. There is nothing secret about it, but the whole composition and process is freely published and made known to the Medical profession. We have the Formula with full particulars, in the Doctor's own hand writing, and must in sincerity say of it as of the medicine, that they show a skill and intrinsic merit which is worthy of all commendation. The medicine has in fact cured the throat and lungs, been fully tested by a host of Medical Colleges and most of our eminent Medical men, and is so far as I have known highly approved by them.

While therefore, I am most heartily opposed to the recommendation of all secret remedies, I can cordially, and in my capacity as Physician, properly recommend the Cherry Pectoral to all.

DALLEY'S MAGICAL PAIN EXTRACTOR.—There never has been a discovery made in *Medicine* or *Medicine* whereby pain can be so quickly allayed, and where parts in a high state of inflammation can be so rapidly reduced to their natural state, not where wounds and sores can be so thoroughly and rapidly healed, and lacerated parts restored without either scar or defect, than with *DALLEY'S MAGICAL PAIN EXTRACTOR.*

In Cuts, Wounds, Sprains and Bruises, casualties to which children are contantly subject—the action of the genuine DALLEY'S PAIN EXTRACTOR is ever the same! How much Pain and Suffering may not thus be prevented! Moreover, Life itself is often dependent upon having at hand the Genuine DALLEY EXTRACTOR, and for particulars for which I respectfully refer to my printed pamphlets, for the truth of which I hold myself responsible.

No case of Burns and Scald no matter how severe, has ever yet, in any one instance, resisted the all powerful, pain subduing and healing qualities of the DALLEY'S PAIN EXTRACTOR.

No Pain Extractor is genuine unless the box has upon it a Steel Plate Engraved Label with the signatures of C. V. CLICKENER & CO., proprietors, and HENRY DALLEY, manufacturer. Price 25 cents per box.

All orders should be addressed to C. V. Clickener & Co., 81 Barclay street, New York.

The present immense sale of this article, is almost fabulous in amount, which shows the public appreciation of a preparation which rests its claims entirely upon its own merits. The astonishing results produced by the KATHARION in preserving the Hair from baldness, and restoring it when it has fallen out—cleansing from dandruff and all other impurities, and imparting to it a beautiful gloss and silken texture; together with its delightful perfume and perfect cleanliness, have made it the most universally popular toilet article ever used. Councils met. Present Mayor Laird, and Councilmen Schneider, Sterrett, Arbuckle, Durlin, Dunlap, and Hoskinson, of Select, and President Barr, Councilmen Koch, Sterrett, Smith, Henry, Achison, Goalding, Carter, Wild, Hays, and Kennedy, of Common Council.

The proceedings of the last meetings were read and adopted. The committee on Market House reported a Supplement to the Ordinance regulating the same as follows, which was adopted by both Councils.

Supplement to the Ordinance regulating the Public Market of the City of Erie.

SEC. 1. Any person or persons who shall interfere with the Market House after the same has been closed by the Clerk, at the proper hour of closing, or in the morning before the hour fixed for opening by the Ordinance regulating the Public Market of the city of Erie, passed 13th June, 1855, by opening the same or attempting to open it in any manner, either with or without keys, or shall in any manner interfere with the regulations made by the Clerk, under the provisions of the same, shall be liable to a fine of five dollars for the first offence, and ten dollars for every subsequent one, of which he or they may be convicted, to be collected as other fines are by law collected. Provided that if the Clerk fail to attend at the hour fixed for the opening the Market House it shall be lawful for the lessees of stalls to open the doors of the same.

WILSON LAIRD, Mayor.

THOMAS MOORHEAD, Clerk of Select Council.
WILLIAM THORNTON, Clerk of Common Council.

The Street Committee reported the following resolutions which were adopted, viz.

Resolved, By the Select and Common Councils that the Street Committee be instructed to put Fourth street, between Peach and the Canal Bridge, in good repair, it being now nearly impassable.

Resolved, By the Select and Common Council that the Street Committee be, and they are hereby instructed to put Myrtle street, from Ritner to Twelfth street in a passable condition for loaded teams.

The resolution passed by the Select Council at its last meeting directing the several collectors of taxes of the city to close their duplicates on or before the first of January next was concurred in by Common Council.

The committee on Fire Department reported the following resolution which was passed.

Resolved, That the Chief Engineer of the Fire Department be directed to report forthwith the condition of the Fire Department, and an inventory of the property in the possession of the Department, with its condition for service, and that the Clerk notify him of the passage of this resolution.

The Mayor presented the following communication which on motion, was received and a committee appointed to carry out its recommendations.

Gentlemen of the Select and Common Councils:

A short time subsequent to my inauguration into the office of Mayor, prompted by a conviction of the necessity of extending the powers of that office in certain cases, I recommended the immediate application to the Legislature then in session, for the passage of an Act investing the Mayor with judicial functions in criminal and civic cases with authority to take cognizance of certain kinds of offences against the peace and good order of the city. In pursuance of the suggestion made at that time, a committee was appointed by the Councils jointly to consider upon the propriety of obtaining such legislation as was proposed and I thought proper to meet the exigency of the case, and if deemed expedient to frame a bill embodying the provisions suggested for the purpose of carrying out the objects specified, and transmit the same to their Representatives in Harrisburg. At the same time a resolution passed both Councils urging and requesting the members to use their exertions to secure the passage of the bill. The bill was framed with a good deal of caution, and upon consultation between the city Solicitor and myself was transmitted to Harrisburg. It failed to receive the sanction of the Legislature because the session was too far advanced to enable them to give it proper consideration.

Events which have subsequently transpired and are daily transpiring, have served to strengthen the conclusion then entertained of the necessity of the proposed reform, and still confirms my opinion of the propriety of renewing our efforts to attain the proposed legislation.

My object in bringing the matter to the notice of the Councils at this time is for the purpose of suggesting and urging that early and prompt measures should be adopted, having in view the best and most feasible means to secure the object at the ensuing session of the legislature.

In order that the subject, which is in my estimation an important one, be brought in a tangible shape before the people that their voice might be heard and their wishes known, I would suggest the appointment a committee whose duty it would be to circulate petitions, praying the legislature to pass an act embracing the views and principles and with the objects above stated, and also frame a bill as before.

WILSON LAIRD, Mayor.

Mayor's Office, November 26, 1855.

Bill for repairs of water works, streets, culverts, &c., amounting to $1609 97, were received and ordered paid.

A communication relative to the expense of filling Myrtle street between Eight and Ninth streets was received and ordered on file.

NEW YORK, November 28, 1855.

As the season of navigation is rapidly approaching the close, our Flour and grain market exhibited increased activity at steadily advancing rates. These together with favorable advices from Europe announced by the Canadia, the letters by which we have not yet received, has materially advanced our quotations. Erie, Nov. 22, 1855. A. KING, Pro.

COSMOPOLITAN ART ASSOCIATION.

Second Year.

ARRANGEMENTS for the Second Annual Collection of this new and popular Institution for the diffusion of Literature and Art, have been made on the most extensive scale.

Among the works already engaged is the far famed

"GENOA CRUCIFIX,"

which originally cost Ten Thousand Dollars.

In forming the new Collection, the diffusion of works of American Art, and the encouragement of American genius, have not been overlooked. Commissions have been issued to many of the most distinguished American Artists, who will contribute to some of their finest productions. Among them are three Marble Busts, executed by the greatest living Sculptor,—HIRAM POWERS:

GEORGE WASHINGTON—The Father of his Country;
BENJAMIN FRANKLIN—The Philosopher;
DANIEL WEBSTER—The Statesman.

A special agent has visited Europe and made careful and judicious selections of foreign works of art, both in Bronze and Marble, Statuary and choice Paintings.

The literature issued to subscribers consists in the following Monthly Magazines: Harper's, Putnam's, Knickerbocker, Blackwood's, Graham's, Godey's Lady's Book, and Household Words.

Persons taking five memberships are entitled to any five of the Magazines for one year, and to *six tickets* in the distribution.

The net proceeds derived from the sale of memberships, are devoted to the purchase of works of art for the ensuing year.

The Advantages Secured

by becoming a member of this Association, are—

1st. All persons receive the full value of their subscription at the start, in the shape of sterling Magazine Literature.

2d. Each member is contributing towards purchasing choice Works of Art, which are to be distributed among themselves, and are at the same time encouraging the Artists of the country, disbursing thousands of Dollars through its agency.

Persons in remitting funds for membership, will please give their post-office address in full, stating the month they wish the Magazine to commence, and have the letter registered at the Post-office to prevent loss; on the receipt of which, a certificate of membership, together with the Magazine desired, will be forwarded to any part of the country.

Those who purchase Magazines at Bookstores, will observe that by joining this association, they receive the Magazine and free Ticket in the annual distribution, all at the same price they now pay for the Magazine alone.

Beautifully illustrated Catalogues, giving full descriptions, sent free on application.
