LOCAL INTELLIGENCE

OBSERVE THE RULES.—Und r this caption we find an article, in an exchange, which we give under our local head, verbatim, as one well calculated to express our sentiments.

Rules for the government of all places of business, associations, and in fact for everything, are necessary. For this reason a number have been arranged for the government of those whose curiosities may induce them to visit printing offices, or who may constitute said offices their loafing places. It is expected that the rules will be universally observed:

1. Enter softly.
2. Sit down quietly.
3. Subscribe for the paper.
4. Don't touch the poker.
5. Say nothing interesting.
6. Engage in no controversy.
7. Don't smoke.
8. Keep six feet from the table.
9. Don't talk to the printers.
10. Hands off the papers.
11. Eyes off the manuscripts.

Gentlemen observing these rules, when entering a printing office, will greatly oblige the printers, and need not fear the devil.

P. S. Persons on business are not required to be particular in observing the rules.

N. B. The ladies who sometimes bless us with their ever welcome presence, for a few moments, are not expected to keep the rules very strictly, and indeed it will be agreeable to us to have them break the 5th, 8th and 9th rules as often as convenient.

☞ Our devil says "speaking of welcome visitors, persons bringing complimentary tickets, large wedding cakes, &c., to us, will not only have the hand of welcome extended to them but receive the printers' best wishes for a successful enterprise."

ROWDYISM.—On Friday night last, Bacchus was king in our streets. A series of threatnings and curses greeted our ears, and we shudder at the sight of vice running down our streets like a mighty torrent. One man received a severe blow upon the head with a hatchet. He was not seriously injured.

A fight occurred down street in which the long man came out second best. The same man was greatly imposed upon by a party of young men(?) the following night. Is shame entirely dead!

THE HOME STRING BAND will give one of their choice concerts, on Tuesday evening the 22nd inst. Some of our young ladies have offered their assistance for the occasion. This band plays well, and we feel assured that our citizens will patronize them, as the object of the members is to purchase additional musical instruments.

CONCERT,—Prof. Coyle and his class young ladies on the Piano, intend giving concerts in the Court House, on Tuesday and Wednesday evenings of next week As the object of the concerts are for a good cause, and the Professor and his class are too well known to require our encomiums, we will expect crowded houses.

☞ We are sorry to learn that Gen. R. C. Magill was severely injured on Saturday last. Gen. Magill was out with his team, the horses became frightened, and threw him from the wagon. We are informed that his physician pronounced his shoulder blade and a number of his ribs broken. We are glad to learn that he is rapidly recovering and considered out of danger.

☞ Most Printers are very fond of *Pie*, but our boys got hold of a *pi* last week which they did not at all relish; but withall that, they were so surfeited with, it that they have got behind in their vocation.—In other words—in lifting one of the forms last week, the whole page fell to pieces; consequently, we are only enabled to give a half sheet this time, although it is composed of the usual large amount of reading matter &c.

CAUTION.—On the night of Hollowe'e, in Morris township, some michievous boys we are informed, went out to have their usual sport in demolishing their neighbors cabbage; but unfortunately, they went to Mr. Shaver's garden, who wished to see some sport, thinking to frighten the boys But by some means one of the nocturnal rangers had secreted himself in an unsuspected place, by which means a number of shot were lodged in his *cranium*

Boys be careful—let this be a warning. Remain at home, and let honest people alone.

☞ Dr. R. Shelton McKenzie, Literary Editor of the Philadelphia *Press*, will deliver a Lecture on Thursday evening, Nov. 17th, in the Court House, before the Standing Stone Literary Association.

Subject, "The Lights and Shadows of Irish Character," and conclude with his legendary ballad, "The Geraldine."

THE WEATHER during the past week has been such as to make it worthy of note. At one time the thermometer stood at 21 degrees above zero, and on Friday it was up within 4 degrees of summer heat.

GAME.—We learn that several gentlemen of town were very successful in a hunting excursion, one day last week—having killed four turkeys, several ducks, and other small game.

FIRE.—A fire has been raging for some days past on Terras Mountain: hence the smoke visible.

OUR BOOK TABLE.

THE ATLANTIC MONTHLY.—The November number of this admirable Magazine is now before us. Since the death of the former proprietor's the work has been undertaken by Messrs. Tincknor & Fields whose enterprise, intelligence and extended reputation, are a brilliant augury for the continued success of the Atlantic.—Judging from the present number, we think the high character of the work is fully sustained

Published in Boston, Mass., at $3 per annum.

☞ The November number of the Genesee Farmer is now before us. All who subscribe between this and the end of the year, can get the balance of this year and all 1860 for 50 cents. Two hundred and thirty five dollars in cash premiums will be paid for the greatest number of subscribers sent by the fifteenth of January

FARMER & GARDNER.—This is, we believe, the only Agricultural publication in the State of Pennsylvania, and is one of the best published in the United States Every farmer should have a copy. It is published in Philadelphia by A. M. Spangler, at $1 a year.

COMMON SENSE

Rules the mass of the people, whatever the misnamed and misantrope philosophers may say to the contrary. Show them a good thing; let its merits be clearly demonstrated, and they will not hesitate to give it their most cordial patronage. The masses have already ratified the judgement of a physician, concerning the virtues of HOSTETTER'S BITTERS, as may be seen by the immense quantities of this medicine which are annually sold in every section of the land. It is now recognized as greatly superior to all other remedies yet devised for diseases of the digestive organs such as diarrhœa, dyspepsia, and for the various fevers that arise from derangement of those portions of the system. Hostetter's name is rapidly becoming a household word, from Maine to Texas, from the shores of the Atlantic to the Pacific. Try the article and be satisfied.

Sold by all druggists in the world.

—See advertisdment in another column.

TO CONSUMPTIVES.—The advertiser having been restored to health in a few weeks, by a very simple remedy, after having suffered several years with a severe *Lung affection*, and that dread disease, Consumption,—is anxious to make known to his fellow sufferers the means of a cure. To all who desire it he will send of the prescription used (free of charge) with direction for preparing and using the same, which they will find a sure cure for *Consumption Asthma Bronchitis*, &c. The only object of the advertiser in sending the prescription is to benefit the afflicted, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing. Parties wishing the prescription will please address

THE CELEBRATED COPPER TOE!

Mitchell's Patent Metallic Tip, designed especially for Boys', Youths' and Childrens

BOOTS AND SHOES.

An improvement has been applied to Boots and Shoes, by which a saving of expense to the customer, of two thirds is realized, by actual experiment.

The Tip consists of a piece of copper or other indestructible material, neatly fastened to the toe of the boot or shoe, forming a complete protection. This invention is now presented to the public, with the full knowledge of its practical utility, having been tested over two years, and is destined entirely to supersede the old style, for children's, boys' and youths' boots and shoes.

The importance of this invention will be readily appreciated, as it is well known that children invariably wear out their boots and shoes

FIRST AT THE TOE,

and, with this protection, they will upon an average wear at least two or three times as long as the old style, while the expense is but a trifle more.

This invention is also especially applicable to Miners' Boots, and all occupations subjecting the toe of the boot or shoe to be cut or worn.

Merchants, and the public generally, will see the importance of obtaining these goods immediately, as they are destined for general use, to supersede all other kinds.

The goods may be obtained of nearly all the wholesale dealers in the principle cities, or of the subscribers.

Family Sewing Machines.
NO. 103, NORTH EIGHTH STREET,
PHILAD'A.

These Machines were awarded the first premiums at the Lancaster and Montgomery County Fairs (the only fairs at which they have been exhibited) in competition with the Wheeler & Wilson, Singer and other machines, and are offered to the public with confidence as being the cheapest and best machines in the market. They are now in extensive use and have met the unqualified approval of all who have tried them. They are strong and simple in construction, and are not liable to get out of order, as an examination will fully satisfy every one. They will do as great a variety of work, do it as well, and do as much of it as the high priced machines can do.

Families, Tailors and Seamstresses

Will find these machines adapted to their wants. They will sew fine or heavy goods of every description with equal facility. For Quilting purposes they are unequalled. By a simple adjustment of the tension, a stitch is made which gathers beautifully. The stitch is the Double Lock Stitch, strong and elastic, and will not unravel or draw the goods when washed.

The thread is used from spools of any size as purchased at the stores, without re-winding Instructions in operating the machines given to purchasers. Each machine is accompanied with directions, which are very explicit, and contain all the information necessary to operate successfully.

DALLEY'S MAGICAL PAIN EXTRACTOR.

IN all diseases inflamation more or less predominates—now to allay inflamation strikes at the root of all diseases—hence an immediate cure.

DALLEY'S MAGICAL PAIN EXTRACTOR

and nothing else, will allay inflamation at once, and make a certain cure.

Dalley's Magical Pain Extractor will cure the following among a great catalogue of diseases: Burns, Scalds, Cuts, Chafes, sore Nipples, Corns, Bunions, Bruises, Strains, Bites, Poison, Chilblays, Gout, Swelling, Rheumatism, Sould Head, Salt Rheum, Baldness, Krysidelas, Ringworm, Barbers Itch, Small Pox, Measles Rash, &c., &c.

To some it may appear incredulous that so many diseases should be reached by one article; such an idea will vanish when reflection points to the fact, that the salve is a combination of ingredients, each and every one applying a perfect antitode to its apostate disorder. DALLEYS MAGICAL PAIN EXTRACTOR in its effects is magical, because the time is short between diseases and a permanent cure; and it is an extractor, as it draws all diseases out of the affected part., leaving nature as perfect as before the injury. It is scarcely necessary to say that no house, work-shop, or manufactory should be one moment without it.

No Pain Extractor is genuine unless the box has has upon it a steel plate engraving, with the name of Henry Dalley, Manufacturer. For sale by all the Druggists and patent medicine dealers throughout the United States and Canadas. Principal Depot,

165 Chambers St., New York.
