Habitual Constipation.

HOW TO EFFECT A CERTAIN AND PERMANENT CURE.

Some occupations of life predispose to Costiveness, especially those which allow but little exercise. Persons who contract this unfortunate habit of body, under such circumstances, might possibly be relieved by changing their sedentary employments for others of a more active kind; but this is by no means certain. Habitual constipation is a very obstinate disorder. All the ordinary so-called remedies invariably aggravate it. Nothing can be more injurious than the continued use of strong aperients. They at first irritate, and finally almost paralyze the bowels—rendering them so torpid that enormous doses of cathartic medicines have no effect upon them. A mild aperient, combined with a gentle stimulant, is the true remedy; and a combination in the happiest proportion, of these ingredients, is found in HOSTETTER'S STOMACH BITTERS. This famous stomachic invigorates the whole intestinal canal, while quietly removing from its convolutions all impediments to a free passage through them. No mere purgative has this double operation. No ordinary stimulant effects the desired object. Cases of Constipation abandoned as hopeless by distinguished medical men have been cured in a few weeks by the Bitters. To those who have tried all the medicines of the dispensary in vain, we say try this irresistible stimulant and aperient. There is no sufficient reason why Constipation should be the consequence of sedentary habits. HOSTETTER'S BITTERS, by supplying the vigor which would otherwise be derived from exercise, will in all cases enable the system to perform its excretory functions regularly and healthfully.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are its cures, that in almost every section of the country are persons publicly known, who have been restored by it from alarming and even apparently desperate diseases of the lungs. When once tried, its superiority over every other expectorant is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

We can assure the public, that its quality is carefully kept up to the best it ever has been, and that it may be relied on to do for their relief all that it has ever done.

Great numbers of Clergymen, Physicians, Statesmen, and other eminent personages, have lent their names to certify to the wonderful usefulness of our remedies, but space here will not permit the insertion of them. The Agents below named furnish gratis our American Almanac in which they are given, with also full descriptions of the complaints our remedies cure.

Those who require an Alterative Medicine to purify the blood will find AYER'S COMP. EXT. SARSAPARILLA the one to use. Try it once, and you will concede its value.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and dealers in medicine everywhere.

FRIGHTFUL EXECUTION!

is done upon the heads of gray hairs, by endeavoring to darken them with nasty dyes that

Scorch and Blast

the fibres from which they grow. Avoid those horrible

DISFIGURING AGENTS

and use only the great relief simply of Nature,

CRISTADORO'S EXCELSIOR DYE,

which not only instantaneously imparts all shades of black and brown, but does not injure the hair or the health thereof. Manufactured by J. CRISTADORO, 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers.

Allcock's Porous Plasters,

BEST STRENGTHENING PLASTER IN THE WORLD.

Allcock's Porous Plasters possess all the usefulness and advantages possessed by other plasters, combining the properties of a porous plaster with those of the best medicated plaster. Being porous, they allow the skin underneath to breathe freely, and do not, like other plasters, prevent the action of the skin by their presence. Being medicated, they at once commence the work for which they are intended, and continue their action for weeks, if necessary, without being disturbed. Unlike other plasters, they do not leave a sore place on the skin when they are removed, but can be worn as long as necessary to effect a cure, and can be worn with perfect ease and comfort in any place where a plaster can be used. Being free from poisonous drugs, they can be applied to the most tender parts of the system without fear of pain or danger. Being free from Mercury, Cantharides, or any other poisonous drug, they can be applied to any part of the system without fear of mortification or blood poisoning. Being free from Cantharides, they can be applied to the most tender parts of the system without fear of producing strangury. Being free from Mercury, they can be applied to any part of the system without fear of salivation. Being free from Lead, they can be worn on the chest without fear of injuring the lungs. Being free from Tartar Emetic, they can be worn by the most nervous without fear of producing pustules. Being free from Opium, they can be worn by children without fear of producing stupefaction. Being free from Camphor, they can be worn by the most delicate without fear of producing strangury. Being free from Ammonia, they can be worn by the most delicate without fear of producing blistering. Being free from Cantharides, they can be worn by the most delicate without fear of producing strangury. Being free from Mercury, they can be worn by the most delicate without fear of producing
