TIOGA R. R.—The new time table of the Tioga Railroad will be found in the last column on the 4th page, under heads of Lines of Travel.

WHEW.—Mr. Abram Walker, of Charleston has left a hen's egg at this office which is a rouser. It measures 6¼ by 8 inches. Any hen beating this will be entitled to set twice this season.

DONATION.—The friends of Elder N. Hart, are invited to attend a Donation party for his benefit, at Cole's Hotel, Stony Fork, Thursday (to-morrow) evening, May 21, 1868.

ART.—Master Chas. O. Thompson has shown us a portrait in oil, cabinet size, of his own handiwork, which shows an encouraging progress compared with his previous efforts. He has lately finished several photographs in water colors, some of them very fine.

AGENCY.—Mrs. A. J. Sofield is agent for the Willcox & Gibbs Sewing Machine in this part of the county. She has one of these Machines at her Millinery Shop, where any inquirers may see it in operation.

BOROUGH MAP.—Mr. T. B. Bryden has made a fine large map of Wellsboro and vicinity, and having had it photo-lithographed can supply it to all who may want so indispensable a thing. It is executed with great precision and in first rate style, and the price is so reasonable that none need to be without it in house or place of business. A copy may be seen at this office.

TO TRADERS.—We have constantly on hand, ¼, ½, ¾, and full sheet Bill-Head paper which we print to order in as good style, and at the prices for which such jobbing is done in Elmira, and elsewhere. Our stock of card board is complete for business purposes, and we cut to any size ordered and print at greatly reduced prices. Our Card Cutting Machine enables us to furnish cards of the various sizes as low as they can be sold ready cut anywhere.

SUNDAY SCHOOL CONVENTION.—The Fourth Annual Convention of the Sunday Schools in Pennsylvania, will be held in the Second Presbyterian church, Pittsburg, Tuesday, Wednesday, and Thursday, June 2d, 3d, and 4th, 1868. Each Sunday School in the State is earnestly requested to send at least one delegate. Delegates must report to Oliver McClintock, Esq., Pittsburg, by May 25, in order to ensure accommodations.

PRETTY GOOD.—Messrs. Toles & Barker last week cut down two pine trees on their lot, Avenue, which measured about sixteen inches in diameter at the butt, and cut each a saw-log of twelve feet. The trees were planted for shade, and were forty years old by count. They had been injured beyond recovery by fire. We learn that Messrs. T. & B. will use the lumber which may be cut from the logs in the construction of some part of the dwelling they purpose to erect on the Avenue.

FAST WORK.—Mr. G. W. Foster of Niles valley, writes us under date of May 9, as follows:

"Mr. Ira Newhall sawed for me this day, 3,484 feet of 1,2, & 3 inch ash plank in 55 minutes, with a single saw. The above sawing is at the rate of over 47,000 feet per day of 12 hours. Who can beat it?"

That is not liable to be beaten by anybody. The work indicates a good mill and a good driver.

GOSSIP.—If some one of the inventive geniuses of the age will set himself to discover a sovereign remedy for cats, we can promise him a fortune. We notice that young men and boys slaughter pigeons, and other harmless creatures, without remorse; but somehow there is a superstition abroad that bad luck comes of cat-killing. Nearly every other man we meet complains of cats. Either he has too many, or his neighbors have, which amounts to the same thing. We never hunt, or indulge in trout-fishing, to the damage of game or trout, at least. But other people do both; and witness the dying agonies of deer, rabits, pheasants, et cetera, without a particle of compunction. We have no complaints to make of the cats of other people. If our own flock of felines will let us alone we'll bear with the neighboring flocks. It is of the inconsistency of the sporting gentry that we chiefly complain. To say to a sanguinary youth—"Young man, I don't want you to shoot cats on my premises; but if you should persuade half-a-dozen of these kittens to go away, and stay away, I should be glad to give you a dollar;"—and he fail to take the hint, is beyond our comprehension!

—B. N. Easy writes to ask; "Could you inform me of a good place to do business, not too far away from civilization?" We can. There is a splendid location about fifty miles due west from the meridian on which you at present reside. If you wish to farm it there, you have only to "tickle the earth with a hoe, and it will laugh with a harvest." Corn grows indigenous, bread is found, baked to a turn, on the trees. The cows drive themselves to pasture, come home at 6 o'clock p. m., and milk themselves. You have to take up the butter next morning with a scoop, ready salted and prepared for the market. Should U. N. Easy prefer a change after he has tried this Arcadia a few months, we are glad to be able to state that there is another place just fifty miles farther west, where settlers are presented with a fortune of $50,000 on their arrival. It is said that there is a chain of such locations extending from Cape Cod to Alaska; but we cannot vouch for the truth of that say-so.

—Mr. Constitutional Grumbler wants to know what is a remedy for nightmare. His symptoms are not peculiar. The incubus, in his case, appears in the shape of taxation. It has seven heads and ten horns, and as for tails, he has never tried to count them. The remedy is this; In the first place count the tails. Then reckon up the amount of premiums you pay for the insurance of your property from loss by fire. Then reflect that, if an Insurance Company is entitled to so much premium for guaranteeing you against loss by fire in the matter of property, the Government is entitled to more for guaranteeing the title to your real estate, and life, liberty, and security of your person, and the persons of your family. If, after that, you have the nightmare, you may be grumbling from a partisan point of view, and there is no cure for you that we know of. It is well also to recollect, that as a rule, those who pay the least according to their property are most afflicted with the nightmare of taxation. No charge for this prescription.

STRAWBERRY CULTURE.—Mr. G. W. Hathaway, whose advertisement arrived too late for a favorable insertion last week but appears elsewhere in this number, last year picked *fifty-two bushels* of strawberries from his half-acre plantation at Tioga. He says that last year was not a good strawberry year, yet his sales amounted to $125 for Strawberries, and beside this, he raised all his winter supply of root crops and cabbage. Mr. Hathaway is demonstrating the problem of cultivating less land and cultivating well. Many a man in Tioga county tried to farm less acreage last year and had less to show for it on closing his annual account than Mr. H., had from his little half acre. Why should a farmer mow fifty acres to get six tons of hay when he can get it from one acre by cultivation? Why should a man plant and tend one acre to get 200 bushels of potatoes, when he can get as much from one-half an acre?

By reference to Mr. Hathaway's advertisement it will be seen that he has a fine lot of Tomato sets, all the choice varieties, early cabbage plants, and strawberry sets, at his Garden, all of which will be furnished to order. See his advertisement for particulars.

MANSFIELD ITEMS.—Our Correspondent—"Accidental," writes:

"Mr. Oliver Elliott has purchased and removed to the residence lately owned by Mr. Oliver Kelly.

"Mr. Charles Munn is building a house on the hill, nearly opposite the residence of Henry Allen, Esq.

"It having been a source of annoyance to a portion of the resident public that the traveling public should come and go thirsty, Dr. C. V. Elliott, our enterprising Druggist, has put in operation a Soda Fountain, at his store, where the thirsty may quench their thirst in a healthful beverage. "Willie," the good-looking clerk, is always attentive and agreeable.

"Miss Bell Vincent has opened a Dressmaking shop over C. V. Elliott's shoe Store.

"We are obliged to our correspondent for a history of the Juvenile Reform Society of Mansfield, which, owing to the crowded state of our columns, we are obliged to give in brief, as follows: The good people of Mansfield, finding that a large majority of the little boys of the village were addicted to the use of profane and vulgar language, and many of them to the use of tobacco, conceived the happy idea of organizing a Society for their reformation. The Society was baptized "Star of Hope;" and its success was assured from the first. On the 9th of March last, Mrs. Lyman Reynolds happening into one of the stores, saw a lad of eleven years busily engaged in smoking a cigar. "My little friend," said she, "do you smoke? I think of starting a society to reform boys who smoke and use bad language. Will you join?" The lad, with the coolness of a veteran replied "I will think of it." The matter rested for a few days. But at last the lad went to Mrs. Reynolds and asked if she had got that "sign" ready, meaning the pledge. She told him to call the next day and it would be ready. He called, signed the pledge, and brought in other boys; they brought in others still, and on the 19th of March the "Star of Hope," was launched with a crew of 33 boys under 12 years of age. Mrs. Reynolds consulted with Prof. Streit, who drew up the pledge, rules and regulations, and under their joint auspices the little ship was officered as follows:

President—Master Stephen Hollands.
Secretary—Master Edin Blackwell.

At this point the little girls insisted upon membership, and the ranks began to fill up rapidly.

The articles of Association are as follows:

"The object of this Society is the cultivation of good habits and morals.

"PLEDGE.—The Undersigned, believing the use of profane language a mark of crudeness and ill-manners, and ungentlemanly in the highest degree; as well as sinful and wicked, pledge ourselves to use no profane or obscene language.

"2. Believing the use of tobacco to be detrimental to health, filthy and disgusting, and tending to lead to the use of intoxicating drinks, which ruin the body and soul, we pledge ourselves to use no tobacco.

"3. We also pledge ourselves to use no intoxicating drinks as a beverage."

Lectures have been delivered before the Society by Profs. Allen and Streit, Revs. Cochran, Lamkin, Henry and Packer, Messrs. O. V. Elliott, S. B. Elliott, V. O. Spencer, A. J. Webster, and John Adams. The Society holds its meetings in the basement of the Methodist Church, where it has a neatly furnished room. The membership is now 100—64 boys and 36 girls, under fourteen years. A railroad excursion and pic-nic is in contemplation, and may come off in a few weeks.

We are obliged to our correspondent for this history, and trust that the society may become a permanent institution of Mansfield.

TO ASSESSORS.—The Commissioners have issued the following instructions as to the duties of assessors, and the requirements of the registry act:

First—Name Occupation of every voter.

Second—Ascertain whether he be a housekeeper or not. State where he resides, and in villages on what Street and No. if any. If in the employ of any one, give name of employer, and write opposite his name the word "voter."

Third—When naturalization papers are produced, write opposite the name the letter "N." When it is known to the assessor that the person assessed has voted at the five preceding general elections, the assessor will write opposite his name the word "voter" without production of naturalization papers.

Fourth—When the person assessed has declared his intention to become a citizen and intends being naturalized before next election, make opposite his name the letters "D. I."

Fifth—When the person is between the ages of 21 and 22, write opposite his name "age."

Sixth—When the person has moved into the District since last general election, write opposite his name the letter "R."

Seventh—Every person must be assessed with a tax, not already assessed.

THE DAIRY.—There appears to be some hesitation on the part of farmers as to the best product of the dairy, Butter rules high and is a great temptation. A glance at the market reports of Saturday ought to relieve the minds of dairymen of all doubt. Butter is falling. Cheese, factory, rules at 17@17½ cents. Now, suppose that butter is worth 50 cents per pound, and will hold up the season through. If the milk that yields one pounds of butter will yield three pounds of cheese—and we regard that rather under than over—the cheese will net the most in market.—But butter will not rule at half a dollar. In a few weeks, at present rates of decline, it will rest at 25 cents, while cheese will hold up much better.

But we regard it as a thing settled that our farmers will come to see that a creamery is an indispensable adjunct of the Cheese Factory. The cheese made in Tioga County cannot be exported as at present made. The make must be skimmed to be fit for exportation. We renew our recommendation of last year, that the night's milk be set and skimmed, and put in with the fresh morning's milk. Even cheese so made does not bear exportation without risk. But it is healthier, and more palatable, and cures easier than all new-milk cheese. If our dairymen would agree among themselves upon some concerted plan of action all would be the gainers. Townships like Charleston, Delmar, Sullivan, Chatham, and Farmington, as well as the Cowanesque region, could each organize and sustain a Farmers' Club, meeting every month, and discussing all questions relating to agriculture. In the best sense of the term "what is the interest of one is the interest of all." There can be no conflict of interest, among men in the same general avocation. Especially is this true of agriculture, the products of which are never brought in competition except upon merits which are decided upon by the senses.

A Farmers' Club in every township of the county to meet once a month; and a Semi-annual Convention composed of delegates from each Club, would soon put Tioga county ahead of any county in the State in the matter of intelligent farming.

THE AMERICAN COOKING STOVE

WEST MARTINSBURG, Nov. 20, 1866.
Messrs. SHEAR, PACKARD & Co:
Gentlemen; The American Hot Air Cooking Stoves that I bought of you Oct. 5th have arrived all in good order, and all sold. I wish to say to you that the American Cooking Stoves which I purchased of you give perfect and entire satisfaction. I consider it the best in the world, and too much cannot be said in its favor. As a cook stove it cannot be surpassed, as a heater it cannot be beat. It will do the most work with the least fuel of any stove I ever saw in use. It will burn green wood better than any stove we have here; we have the Stewart, & Home Comfort, and a number of others, but they don't compare with the American. You are at liberty to use my name to any testimony in its favor, as it cannot be too highly praised.

Yours truly, Z. ARCHER.
