RUSSIA'S REVENGE TO COME.

Government Watching Peasant Movement—Outrage at Warsaw.

ST. PETERSBURG, June 26.—General Rennenkampf, commander of one of the divisions of the Russian army operating in Manchuria during the Russian-Japanese war, in responding to a toast at a banquet here, said:

"The moment for Russia's revenge in the far east is approaching, and all preparations are being made."

Apprehension of the government with regard to political agitation in the army is the direct cause of its efforts for the suppression of the development of the peasant organization. As the majority of the soldiers come from the peasant class, any disaffection in the army is sure to be spread in the peasant interest based on parliament's settlement of the agrarian question. Therefore the government is anxiously watching the peasant movement and taking strong measures toward preventing its further development and to this end is trying to balk meetings of the organized peasant group in parliament and the Peasants' league, which latter is organizing an agrarian strike movement and which was forbidden by the police to hold a proposed convention in this city.

At Warsaw, in the outskirts of the city, a band of terrorists armed with revolvers attacked three detectives, of whom they killed two and wounded the third. When an ambulance arrived and the doctors tried to assist the wounded detective two men approached and fired twice, killing the injured man. The shots attracted Cossacks and infantry to the scene, and the soldiers barred the street, firing several volleys by which some passing workmen were wounded.

Deputy Vinaver has received a telegram from Rzhev stating that provocators had arrived there and were spreading the rumor that three Orthodox Catholics had been brutally killed by Jews. The dispatch added that the town was greatly agitated and that the Jews were feeling from threatened danger.

PRISON FOR ICE MEN.

Toledo Court Imposes Fines and the Workhouse For Conspiracy.

TOLEDO, June 26.—In common pleas court Judge Kinkaid imposed the maximum sentence of $5,000 fine and one year in the workhouse on five icemen found guilty of conspiracy in restraint of trade.

The men sentenced are Joseph A. Miller, who was convicted; R. A. Beard, R. C. Lemmon, H. P. Breining and Peter H. Waters, who pleaded guilty. The judge said the sentences might be mitigated in the event the men made restitution.

Hearing on motions in arrest of judgment cannot be heard for some time, and the icemen will stand committed until the fines are paid or the sentence otherwise disposed of.

Moderates Control Havana.

HAVANA, June 26.—The Moderate membership of the Havana city council in the absence of the mayor secured a majority and filled five vacancies in the council with Moderates, thereby giving that party full control. Prior to the election campaign of last year the Liberals controlled the city, but subsequently Governor Nunez, the leader of the Liberal Nationalists, made a pact with Mendez Capote, the leader of the Moderates, under which Nunez agreed to support President Palma's party and in return was given control of the Havana situation.

Athletics in Schools.

New York has a "Public Schools Athletic League" which is two years old, and includes in its membership practically every boy and girl in the 600 public schools of the city. It is the largest athletic body in the world. Herman A. Metz, the new controller of the city, recently gave the league a tract of ground in Brooklyn, valued at $40,000. This is to be used as an athletic field.

Hairpins in China.

The hairpin is in China almost what the ring is in Europe, and the value of some of these ornaments is very great. They are so complicated in shape, and so difficult to insert, that they have to be worn night and day when once they have been put into the hair. Jade is the favorite material for these articles, and to put jewels into them is considered to be a mark of ostentation.

Longevity of Birds.

The longevity of parrots, ravens and certain other birds has been remarked for many centuries, but naturalists are still uncertain as to the limits, under the most favorable circumstances. One vulture, in the zoological gardens in Vienna, lived 118 years in captivity, and the inference is plain that birds of its kind might live much longer, in exceptional cases.

Auto Talk.

"I thought you said Prof. Blank is a linguist."

"He speaks seven different tongues. Isn't that enough?"

"I should say not! Doesn't do him a particle of good. I took him to the auto show last night, and he couldn't understand anything that was said!"

Royal Income from Snow.

The prince of Palermo derives the greater part of the benefit from the sale of snow in the north of Cicily. It is a government monopoly, and brings a cent a pound, and is gathered in the mountains in felt-covered baskets and widely sold in cities for refrigerating purposes.

Jiu-Jitsu Is Old.

A French teacher of boxing points out that an art of self-defense approximately equivalent to jiu-jitsu was known in Europe in the seventeenth century. Its principles are expounded in a work by one Nicholas Peters, published at Amsterdam in 1674.

Plowing by Compass.

Fastening a compass to his plow, Capt. Sycamore, who sailed Sir Thomas Lipton's Shamrocks in the America's cup contest, defeated a local farmer in a plowing match at Brightlingsea, England. His furrows were far straighter than those of his opponents.

Unknown Woman's Gift.

The finest army Y. M. C. A. building in the world is to be erected at Fort Leavenworth, Kan., the largest military post in the United States. It is a gift of a woman who withholds her name from the public, and it will cost $45,000.

Boastful.

A Japanese, writing in the Paris L'Illustration, says: "Britain, even with her fleet, is but a transient guest in the far east."

Municipal Bake-Off.

Of every $100 that a New Yorker pays in rent, it is estimated that $12.26 goes into the pockets of municipal "servants."

Permanent Dentistry

A quarter of a century ago we placed some gold fillings in the teeth of a well known gentleman at present a resident of Sayre. These fillings today are just as bright, firm and useful as the day they were made. We will tell you the name of the party, if you wish to see him yourself.

There are variations in dental workmanship, just as there are differences in the various brands of flour. If you desire the highest degree of proficiency—the skill and knowledge that will make YOUR fillings serviceable twenty five years from today—come in or 'phone for an appointment. On the other hand, if you take pleasure in having your teeth filled over and over again every year or two, you should go elsewhere—we do not do that kind of work.
