PAINT THE EARTH RED

with the statement that we will not be undersold. We will sell you the best goods at the lowest living prices, and we invite you to test us and see if our word is not good right down to the dotlet on the I.

NEW DISCOVERY by ACCIDENT

In compounding a solution a part was accidently spilled on the hand and on washing afterward it was discovered that the hair was completely removed. We at once put this wonderful preparation on the market and so great has been the demand that we are now introducing it throughout the world under the name of Queen's Anti-Hairine.

IT IS PERFECTLY HARMLESS AND SO SIMPLE ANY CHILD CAN USE IT.

Lay the hair over and apply the mixture for a few minutes, and the hair disappears as if by magic without the slightest pain or injury when applied or ever afterward. It humbles any other preparation ever used for a like purpose. Thousands of LADIES who have been annoyed with hair on their FACE, NECK and ARMS attest its merits. GENTLEMEN who do not appreciate beard or hair on their neck, find a priceless boon in Queen's Anti-Hairine which does away with shaving, by rendering its future growth an utter impossibility.

Price of Queen's Anti-Hairine $1. per bottle, sent in safety mailing boxes, postage paid by us (securely sealed from observation). Send money or stamps by letter with full address written plainly. Correspondence strictly confidential. This advertisement is honest and straight forward in every word it contains. We invite you to deal with us and you will find everything as represented. Cut this out and send to-day. Address QUEEN CHEMICAL CO., 176 Race Street, CINCINNATI, O. You can register your letter at any Post Office to insure its safe delivery. We will pay $500 for any case of failure or slightest injury to any purchaser. Every bottle guaranteed.

SPECIAL—To ladies who introduce and sell among their friends 25 Bottles of Queen's Anti-Hairine, we will present with a SILK DRESS, 15 yards best silk. Extra Large Bottle and samples of silk to select from sent with order. Good Salary or Commission to Agents.

EDITORIAL REMARKS.

A MAN's patriotism and his personal interests are seldom very far apart.

CLEVELAND pressed the button in Rhode Island and the Republicans did the rest.

THE first spring adjustment of presidential preferences is now on all along the lines.

CHARACTERISTIC: Boston wishes for things, New York wants things, and Chicago gets things.

POLICY controls more politicians, and come to think of it, other people, too, than principle does.

SOMEBODY has offered as an excuse for Judas Iscariot's moral depravity the fact of his having in early life been a fisherman.

LET us see, was there a man by the name of Chiborn running for the nomination of District Attorney, Saturday last?

THAT coal trust deal may be the political death of more than one New Jersey official, if newspaper reports are straight, and we presume they are.

NO wonder Ben Butler wants to see the American flag waving from the top of the north pole; he owns the only bunting factory in the United States.

IT is now unlawful for jackasses to be seen on the streets of Chicago. If this law is not repealed it will greatly reduce the attendance at the World's Fair.

THE excitement consequent upon the war with England, which has been postponed for a time, will hardly be missed by the people, as the base ball season has opened.

A NEW Yorker celebrated "All Fools day" by attempting to ride a wild western mustang on a crowded thoroughfare in that city. He will not repeat the experiment. He is dead.

MAKING presidential tickets on paper is a job that anyone can engage in, but making them in the regular orthodox way is a privilege reserved exclusively for the political bosses.

THE warm sunshine of these early spring days is having a wilting effect upon numerous presidential boomlets that have been carefully nursed, under cover, during the past winter.

THE politicians regard the silver question as a sort of political snake, of the deadly cobra species, and for that reason they are glad of any excuse permitting them to defer handling it.

IT may be customary to give the District Attorney two terms, but the rule does not hold good in leap year. Another thing, it depends a great deal on who wants a second term.

THE time is near at hand when new party platforms will be made. As usual the republicans will resolute and "point with pride," while the democrats will resolute and "view with alarm."

THE Canadians have caught the trust fever, and have just organized one to control all the cotton mills in that country. By and by there may be a consumers trust; then, let somebody beware.

THE colors seem to be a little mixed up in the case of James Gray, of Virginia, who was originally of a brown color, but who is rapidly turning white. He must at times be in doubt as to whether he is gray, brown or white.

AND still our town is in need of a new name. How much longer are our people going to be too mossy to shuffle off the present curse of many names and bring about a much needed reform in this matter? How long, oh Lord, how long!

AN address issued by the National Association of Democratic Clubs says the Presidential contest this year will be largely a contest of clubs. Yes, and if all the clubs used are as stout as those owned respectively by Messrs. Hill and Cleveland, also of broken heads.

IT is gratifying to be able to note simultaneously with the beginning of the demagogic croakings in Congress about the wretchedness of western agriculture, that Kansas is paying off her farm mortgage indebtedness at the rate of over a million a month. So says the Topeka Daily Capital.

THEY asked for work, and he gave them—what? A deputation of unemployed London workingmen went to the Dean of St. Paul's Cathedral for advice and aid, and he gave them—a promise that he would preach to them. How nice! A man with an empty stomach enjoys preaching so much.

THE political heavy-weights did not sink "Little Rhody" under the briny waves of the Atlantic, but it will be some time before the voters on the "plantation" regain their ordinary tranquility. They were told so often by the orators on both sides that upon them individually devolved the responsibility of keeping the rest of the country from going to the demolition bow-wows that it will be difficult for them to go back to every day, humdrum life.

THE STAR in its first issue stated that Salisbury ought to organize a board of trade, for the purpose of encouraging manufacturing enterprises and advancing the commercial and business interests of the town in every way possible. Other papers of the county are now taking up the idea, and if Salisbury does not get a move on herself she will not be the first to have a board of trade. During our five years residence in Nebraska we noticed that the towns having such organizations always far outstripped the towns without them. Let us organize a board of trade at once.

THE hope of the foreigner rests in the Democracy, their "strong-siding champion" on this side of the Atlantic. Says the London correspondent of Western Mail: "No American capital to speak of has been invested in tin-plate manufactories in the States. With the likelihood of the Democrats coming back to power, the Yankee capitalist was too shrewd to sink his dollars in such an enterprise." We can understand the Britisher's joy at this news, but are completely at sea when it comes to assigning a motive which would warrant jubilation on the part of an American citizen because of it. We rejoice because the news is untrue.

THE Salisbury railroad is one of the best paying branches the B. & O. owns. Its earnings are greater than the earnings of the Berlin branch and Somerset & Cambria road combined. Yet in the face of all these things, the B. & O. gives Salisbury no passenger service worth speaking of, while Berlin, which is situated on a branch road that has always been operated at a loss, has regular passenger trains. This is indeed a pretty state of affairs, and THE STAR would like to know how long the people of Salisbury are going to put up with such treatment. It is said by some who claim to know, that the charter can be taken from the Salisbury road, unless a regular passenger train is put on the road. If this is the case, why not enforce Salisbury's demand for better passenger service? Let us hold an indignation meeting and see what can be done. Let us have a regular passenger train or know the reason why we can't have one. We can get a great many things here that we haven't got, if we only make up our minds that we are going to have them.

Cackle in The Star.

When a hen lays an egg she cackles. When a man gets in a new stock of goods it is human for him to crow over it. When a hen cackles people know that she has laid in a stock and feels rather proud of it. When the merchant opens his new styles and blows his trumpet in the newspapers, people know that he has something on hand worth advertising and patronize him accordingly.
