EDITORIAL

A county superintendent in a neighboring county asked every teacher at the county institute who took their local or county paper to hold up their hands and only six responded. The superintendent expressed great surprise and said: "You don't spend a dollar a year with those papers, yet you expect them to print free of charge notices of all institutes, insert long programs, expect them to advertise you, thus assisting you to climb the ladder to better positions and better salaries, without a cent in return."

THE RIGHT IDEA, HENRY

One of the best news items during the week was that Henry Ford would use page and a half advertisements all over the country to show up President Wilson's sincerity in stumping the country for so-called preparedness. Allen L. Benson has done the same thing in the Appeal to Reason.

The significant thing about it is that Mr. Ford has decided to make use of the public press to further his peace propaganda. It is the plan he should have adopted at the outset.

Many of the country newspapers are in the "passive voice" and must be acted upon. Nothing will make them sit up and take notice so well as a half page or a page advertisements are in so righteous a cause as the disseminating of ideas for peace. Patronage like this would also cause them to whittle their pencils and boost the sentiment for universal peace.

If Mr. Ford is willing to go the limit of the ten million as he declared at the outset [illegible] mission he could do no b[illegible] use the country news[illegible] The press agent of [illegible]redness" crowd said [illegible]ess depends on the [illegible]ude of the country papers.

The Stroller, in a recent issue in [illegible] New Era, had the following to [illegible] in regards to our Tatting Club: [illegible]ecided relief in the tension of [illegible] feelings of many a red-blooded [illegible]e of this community has been [illegible]ienced through the develop[illegible]nt recently to the effect that the [illegible]ount Joy Tatting Club, supposed [illegible]o have been organized recently for real tatting purposes, is more or less of a joke. True, the ring-leader among them has samples of this fancy work, done with all kinds of ropes, yarns and threads, ranging from real heavy ropes to very thin yarn, displayed in the window of his shop, but all the tatting most of the other men of the club actually do or are trying to learn is really none at all.

One can stand almost anything, as long as it is really intended as a joke, and with an effort great enough most things can be appreciated in some degree, at least. But tatting really appears to be becoming a fad with some men of this locality. They are accused of walking around with shuttles in their pockets, and some have even been seen plying the implements of this feministic art when traveling in railway trains.

Almost from the time of his induction into office Governor Brumbaugh has been used as a tool by a bunch of politicians who aspire to the control of the Republican party, and the amazing part of it is that Brumbaugh is unable to see the humiliating position in which they have placed him. The situation is well stated in an editorial in the Philadelphia Public Ledger which says:

"The plans of certain Philadelphia ward politicans to force Governor Brumbaugh to declare himself an aspirant for the Presidential nomination can only result in humiliation for the Governor and weaken his opportunities for useful service in Harrisburg. In spite of the lapses of which he has been guilty under the too evident inspiration of politicians who have never hitherto risen above the ash-cart level in political strategy, Doctor Brumbaugh has accomplished much good for the Commonwealth. He is doubtless justified in regarding himself in some sense as one of the leaders of the Republican party in the State. If he shall use the power of that leadership to guide the policies of his party so that Pennsylvania shall be given a clean and efficient administration, the principles to the civil service extended and the State made better and more prosperous, the people will give him full credit. But the use of the appointing power to serve transparently factional purposes and the waging of factional warfare, with no other end than the substitution of one Boss or set of Bosses for another is a misuse of the Gubernatorial function, a degradation of the office. These and other causes make the factitious candidacy of the Governor ludicrous, and he ought to be astute enough to know that he is being used as a pawn."

A few days ago some one stole the tools out of Amos Brandt's auto at home in the shed, and also a rubber blanket from his buggy.

The public sale season is very close at hand. John Dorte's public sale will be hed Thursday of next week and the following Saturday Samuel Shelly's, about one mile north of here.

There are many people complaining of being visited by thieves. Some places they steal chickens and eggs, and sometimes in broad daylight. Some day some one might be sorry for committing such bad deeds, as some people have their guns ready and sleep with one eye open.

While Mr. and Mrs. Samuel Shelley residing one mile north of here were going to Manheim on Tuesday their horse scared at some object along the road about one mile south of here and ran to one side of the road against a telephone pole and broke the cross piece at the shaft. Mr. Shelly was thrown out of the carriage but was not hurt.

Here's the Reason

The Lancaster Examiner of Saturday evening, contained the following:

That the Conestoga Traction Company, which holds the lease of and operates a number of turnpikes of the county, will not make improvements where road conditions are bad, was a point brought out on Friday evening at the regular monthly meeting of the Lancaster Automobile Club at Hotel Brunswick. It was stated that the company finds it inadvisable to do so owing to the traffic that bad turnpikes would divert to its lines.

However, we are not too unprepared to lick the socks, of any of Morlan, should the need arise.

They Want More Money

On Monday the moulders employed at the Hubley Manufacturing company and the Carbon Steel Castings Company at Lancaster, went out on a strike. There must be general dissatisfacton among the moulders everywhere.

While the moulders at the Grey Iron Works here have nothing like the above in view, we understand they will ask the management for a slight increase in wages in the very near future.

Do You Want Your Kidneys Experimented On?

Kidney troubles are getting more common every day. Government health bureau figures say deaths from this cause are 72 per cent more than 20 years ago.

Anybody who suffers constant backache who feels blue, nervous and irritable; who has dizzy spells, headache and urinary disorders should suspect kidney weakness. Overworked kidneys must have a rest. Take things easier; live more carefully. Take a good kidney remedy to build the kidneys up again.

But be sure to get Doan's Kidney Pills—the oldest, the most widely used, the best recommended of all kidney pills, now in use all over the civilized world. Don't experiment with your kidneys. Thousands have already tested Doan's. You have their experience to go by. Plenty of cases right here in Mount Joy. Here's one:

Mrs. G. W. Shickley, Mount Joy St., Mount Joy, says: "I was so bad with my back at one time that someone had to take my hands and pull me to a sitting position when I got out of bed. I couldn't bend or lift without great pain and my back pained like a toothache. I heard of Doan's Kidney Pills and got some. They very quickly straightened out this trouble and gave me more help than any other medicine I ever had."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Shickley had. Foster-Milburn Co., Props., Buffalo, N. Y.
