REFRIGERATION TOUCHES MANY PHASES OF LIFE

A temperature under 50 degrees is absolutely essential for the preservation of food. That fact has been definitely established by tests made during the development of mechanical refrigeration, which overcomes the deficiencies of other refrigerating methods by maintaining correct temperatures continuously without replacement or attention.

In the early day mechanical refrigeration was confined to the meat industry. The developments which followed now encompass a wide range covering installations on dairy farms, bottling establishments, breweries, ice cream factories, retail meat and food markets, etc., with additionary, the phenomenal growth in popularity of the household refrigerators of today vie in beauty of today of design with the electric range and modern kitchen cabinet.

Because of its intense practical use, the electric refrigerator is usually the first of the major electrical household appliances to be installed in the average home. A record of increased sales each year throughout the depression attests the place it occupies in public esteem.

At Columbia thieves entered two filling stations and the next night they entered the Buttonwood Inn, near that boro.

Making Good Progress On The New Road

(from page 1)

lawn at this point was cut away. Some of the "hump" at this point is also being removed.

The new road will be three lanes wide with concrete on either side and a macadam center lane for passing.

An important change is also being made at the other end, Elizabethtown. Starting at the top of the hill as the road leaves that boro, a portion of all the road is being utilized. This continues down the hill toward Rheems to a point at the foot of the hill, where the road bears left, leading across farm land, leaving Anchor and Rheems to the right and at the latter place parallel the Penna. R. R. tracks east to a point near Florin.

If the work continues at the present rate of speed, we feel confident it will be ready for use this Fall.

Order Honors Marietta Firm

Word has just been received that the Samuel Frey Memorial Funeral Home, of Marietta, was recently accepted into the fellowship of an international organization of funeral directors, known in the profession as the Order of the Golden Rule.

Funeral directors belonging to the Order are selected for their ability to uphold the ideals of this international organization. The Order has members in Great Britain, Canada, India, Africa, China, and Australia, as well as throughout the United States, and has achieved this wide-flung representation in the space of nine years.

We understand that in the funeral directing profession, it is considered a genuine distinction to be accepted into the fellowship of the Order, since ordinarily but one funeral director in each community can belong, and the requirements are such that only those funeral directors of high ethical standing in the profession can attain this distinction.

The Order, he continued, lays particular stress on the necessity of rendering a service to humanity in the time of need that is modern and comprehensive, and at the same time so moderately priced that it is within the reach of all, even those in the most humble circumstances.

The member of the Order in each community identifies himself by means of a Symbol, which consists of an armored knight with raised visor, who supports with his right hand a shield, bearing the motto of the Order: "Service Measured not by GOLD but by the GOLDEN RULE." In his left hand the knight grasps a drawn sword, as if to signify his readiness to defend the high principles inscribed upon the shield.

We call the attention of our many readers to the spacious advertisement of Samuel Frey Memorial Funeral Home, at Marietta, elsewhere in this issue.

SHE LOST 20 POUNDS OF FAT
Feel full of pep and possess the slender form you crave—you can't if you listen to gossipers.
To take off excess fat go light on fatty meats, butter, cream and sugary sweets — eat more fruit and vegetables and take a half teaspoonful of Kruschen Salts in a glass of hot water every morning to eliminate excess waste.
Mrs. Elma Verille of Havre de Grace, Md., writes: "I took off 20 lbs.—my clothes fit me fine now."
No drastic cathartics—no constipation—but blissful daily bowel action when you take your little daily dose of Kruschen.

ARE YOU ONLY A THREE-QUARTER WIFE?
MEN, because they are men, can never understand a three-quarter wife—a wife who is all love and kindness three weeks in a month and a hell cat the rest of the time.
No matter how your back aches—how your nerves scream—don't take it out on your husband.
For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system; thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."
Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and Go "Smiling Through."

HOW OFTEN CAN YOU KISS AND MAKE UP?
FEW husbands can understand why a wife should turn from a pleasant companion into a shrew for one whole week in every month.
You can say "I'm sorry" and kiss and make up easier before marriage than after. Be wise. If you want to hold your husband, you won't be a three-quarter wife.
