Speed in living seems dangerous, too—those who live the fastest seem to reach the end quickest.

Truckers Back 1957 Contest

The Pennsylvania Motor Truck Association announces that the trucking industry is one hundred per cent behind the '57 State Chamber of Commerce Community Development Contest.

This contest, in which 35 prizes, totaling $20,000 will be awarded for local improvement projects during 1957, will be sponsored for the third consecutive year by PMTA, the State Chamber of Commerce and seven other leading business organizations of Pennsylvania.

Edward Gogolin, General Manager of PMTA, said "for three years the Pennsylvania Motor Truck Association has watched with pride and satisfaction, the increasingly significant results of the Community Development Contests. These contests give the trucking industry an opportunity to take its rightful position in leadership in community growth."

The 1957 contest will offer a total of 35 prizes, divided seven to each population category—communities up to 2,000 - 2,000 to 5,000 - 5,000 to 10,000 - 10,000 to 25,000, and those over 25,000.

As in prior years, the contest is open to all commercial and civic groups engaged or interested in local improvements and such groups will be judged on the year-long progress they make on specific projects on their official entry blank. Entry blanks must be sent to the State Chamber of Commerce, Harrisburg, before March 31, 1957 and the winners will be selected by a board of judges early in 1958 on the basis of scrapbooks reflecting each community's achievements.

19 GET TREE FARM FORESTRY AWARDS

State College (Special)—A big increase has been made in Pennsylvania timberland voluntarily dedicated to the continuous production of forest crops under the industry-sponsored American Tree Farm System.

A total of 19 privately owned woodland tracts comprising 20,704 acrs were approved for certification as Tree Farms at a recent meeting of the Pennsylvania Tree Farm Committee of technical foresters here.

Certification means that the landowners have won the right to display the Tree Farm certificate and sign as badges of their practice of wise forest conservation. To win the award, the landowner must protect his land from fire, insects, disease and destructive grazing while harvesting wood products in such a manner as to insure repeated timber crops.

Built by mission priests more than 200 years ago, a ditch in San Antonio., Texas still is used for irrigation.

GOLD BADGE IS AWARDED

Sandra Kretzing was chosen to wear the gold badge among the sixth grade patrolmen for the week. Sandra was chosen because she assisted the small children in putting on their winter snow clothing.

Following the election, the group discussed ideas for the group to use in marching in the annual Safety Patrol parade in Lancaster in April. Next week, nomination of officers for the second semester will be made.
