THE Supreme Court of this State has just decided that the public sale of unclaimed packages by express companies, which are unopened, is a fraud upon the rights of the owner, that the company is liable for the value of the goods. This is a decision of considerable public importance.

Now is the time to can the fruits of the season. In doing so the careful housewife evinces great trepidation lest the steaming liquid break her glass cans. One of the best safeguards against such a contingency is to place a cloth, wet in cold water, under the can It proves a preventative.

REPUBLICAN COUNTY CONVENTION--This Convention met on Tuesday, August 4th, pursuant to call. J. O. W. Bailey, was choosen chairman, and Justice Weed secretary. The Convention appointed J. O. W. Bailey, delegate to the State Convention, and then adjourned to meet at the call of the chairman.

Poisoned Candies .- Owing to frequent complaints that plaster of paris, lampblack, acids, verdigris, Brunswick grease, gamboge, ultramarine, tur pentine, rotten cheese, fusil oil, chrome and other deleterious substances largely used in the manufacture of cheap cardies, the Brooklyn Board of Health has determined to take such action in the matter as may be necessary for the preservation of health. The Board has directed that a thorough investigation and report on the subject be made as soon as possible, so as to disclose the method and material used in the manufacture of confectioners' goods, in order that "the children at least may be preserved from the evil effects of the dangerous compounds sold under the description of candy."

NORTHWESTERN FAIR .- the Northwestern Pennsylvania Agricultural Fair will be held in Erie for four days commencing Sept. 15 next. Ex-Gov. Curtin will deliver the address.

All entries are to be free except horses entered for speed. Articles and animals for exhibition can be entered on and after Tuesday, August 25th, at the office of the Secretary, in Erie, cor. of North Park and Peach street, until Tuesday, September 8th, at 10 o'clock in the evening There will be grand trials of speed daily for the largest prizes offered by any fair in Northwest ern Pennslyvania. Machinery hall, the home department for domestic and household goods, Floral hall, and the fruit department, will constitute attractive features of the Fair. Another feature of great interest to larmers and others will be the auction sale of stock. which will take place on the last day of this exhibition. In the interest of the exhibition and visitors the railroads have consented to issue excursion tickets at greatly reduced rates.

COURT PROCEEDINGS .- Court ha been in session here this week, Judge Wetmore presiding. The criminial list is unusually large. The following cases were disposed of. James Donnovan, indicted as accessory, to the old, convicted of seducing a girl of sign, or issue, or accept, negotiate, or one dollar and forty cents to the townthe mother and child. Dr. T. S. Hartley entered a plea of "guilty" to the indictment of selling whiskey on Sunday, to minors, and without license and was sentenced to pay a fine of \$50 to the school fund of Ridgway township, and undergo an imprisonment of forty days in the county jail; on the charge of selling liquor on election day a nole pros. was entered on payment of costs of prosecution. WHAT WE OWE .- The national debt, which is now \$2,149,725,277, is not all that the country owes. According to the New York Shipping Gazette, the aggregate of all the debts of the country, State, county and municipal, added to the national debt, may be summed up as follows: National debt......\$2,149,725,277

Making a total of\$9,952,870,027 This is equal to \$248 per capita for the entire population. But of course it does not bear equally on all. The nation also owes, according to recent estimates, not less than \$250,000,000 on account of unsettled claims pending before Congress, the departments or the courts. On the greater in receipt of like showings of railroads part of this debt interest is paid at an average rate of about six per cent. It is impossible to ascertain how much of this indebtedness is held abroad. Bonds are sent abroad and others are sent home at short intervals. Aside from the national debt, most of the claims represent material improvements, although nearly eighty millions of the national debt represents the principal and interest on railroad bonds which have been loaned, and for which there are only nominal securities.

THE Menonnites continue to come to this continent from Russia. Six hundred have arrived at Halifax on their way to the Northwest. The account this party give of themselves and their hegira is that their forefathers have lived in the Crimea for upwards of one hundred years and the flight from Russia is because they will not submit to be made Greek Catholics and rendered liable to military service. The number who contemplate leaving reaches forty thousand. Among those just arrived are members of a community who have all their worldly goods in common. The father of the head man of the brotherhood gives this account of

The ravine at Butcher's Run is choked up for some two miles with the contents of destroyed slaughter-houses and great quantities of meat and a large number of bullocks dressed; more than a hundred horses and perhaps an occasional human body are embedded in the mud. The sun, which has come out hot, has caused an awful stench, almost overcoming the working parties. The debris can hardly be cleared this week, and if the weather continues hot, the breaking out of a pestilence is feared, as the Butcher's Run district lies in the

Economy is Thrift.

There is a hint for governments, State, national and municipal, in the fact that many of our leading railways, notwithstanding the falling off in business, are making larger net gains on their earnings than in previous years, 18,617,743 The secret of this is economy of expense. Our governments like our railroads have been lately run on expensive principles. The people will require at their hands a similar retrenchment in the salaries of officials and in all the details of government expenditure. In this connection we copy from the Ledger money article the following

> Within the last two or three days we have published most gratifying exhibits of operations of two of the great railways, the Pennsylvania and the Philadelphia and Eric. We are also in various other localities. The same fact is apparent in almost all of them, While the gross earnings during the past six months show a falling off in amount, the net earnings exhibit in most eases a very satisfactory increase. This apparently contradictory result may be explained by the fact that, although the receipts are less, the greater econom introduced in the management of the railroads has more than made up the deficiency. Perhaps the panie, over which so many lamentations have been made, may be the means of teaching us some useful lessons. When abundant noney is the result of any enterprise we are upt to forget that in more sense than one it is a floating capital, and we rush into all manner of questionable expenditures. There is a kind of economy which destroys efficiency and sometimes endangers the security of our roadways -this should be most carefully guarded against; but there is also an extrava- been one of almost uninterrupted sucgance in unnecessary outlays that absorbs much that would otherwise find its way into the pockets of the stockholders. If we are enabled by economic arrangements to lower the rates of freights and travel, we shall find the result to be very beneficial both to the railroads themselves and to the community for whose benefit they are estab-

Republican Address.

We entirely agree in the opinion of the New York Times that the address of the Republican Congressional Committee, just issued, is the most important political document of the year. The address, reviews events since the accession of the Republican party to power. The course of the Democrats prior to 1861 is traced, not without many caustic touches, and we can quite imagine that the Democratic press gen. erally will pronounce the address to be one of the worst ever issued. The awkward point about it is that there is no getting round its statements. It deals with facts, and there is no answer to those facts. It shows that the Democratic party did not provide us with either a capable, powerful, or an economical Government. It left multitudes of errors to be corrected, and on every hand bad work to be undone. The great improvements demanded by the progress of the people were neglected, and it was not until the Republican party came into power that these improvements received adequate attention. There were an army and a navy, but the first was officered by men who "had been educated in every soldierly grace but that of allegiance," and the latter was "scattered in remote seas" when the nation most needed it. "In all these years," says the address, "the national character had not raised an inch On the contrary, through them all had fallen constantly lower and lower." Then came the remarkable treachery of 1861. and the rebellion. From that period the record of the Republican party has cess. The rebellion was crushed, slavery was suppressed, public credit has been maintained, the development of the country has gone on without cessation. and at a rate never known before. "It will require a great deal of rhetoric," remark the committee, "to persuade the country that it is being ruined by a dovernment which in thirteen years has advanced its credit throughout the money markets of the world full thirtythree per cent, and has nearly trebled its surplus productions." A very strong appeal for the renewed support of the people is made, and the absurdity of the cry "that the mission of the Republican party has been accomplished" is shown Much remains to be done-in reforming the currency, in dealing with the vast question of transportation, and in securing fast what has already been gained We have no doubt that it will have a

MURDER AT PORT ALLEGHENY, PA. -From a resident of Port Allegheny, who came through on the B. N. Y. & P. Railway vesterday morning, we have reactived the details of a murder which took place on Monday night. The victim, Cal. Hober, was a farmer residing a short distance from that place. On the night in question he was in the village, and by some means became involved in a quarrel with a party of laborers engaged on the Jersey Shore' Pine Creek and Buffalo Railroad, in the course of which he was struck by one of the party with a heavy neckyoke, fracturing the skull and inflicting a fatal wound. He was still alive yesterday, but his death was hourly expected. The perpetrator made good his escape, and at last accounts had not been captured. -Buffalo Courier, Aug. 5.

THOSE who believe that comets bring rouble in their trains, and are sure precursors of war tamine or pestilence, will not thank the Frenchman who has just discovered another one. Coggia's comet has gone, but Professor Swift, in a communication to the Rochester Democrat and Chronicle, says:

A new comet was discovered at Mareilles, France, on Sunday morning last, in the constellation Draco, the announcement of which reached me this morning. I began searching for it at early darkness, and in a few minutes caught sight of the stranger. It is quite large and bright for a telescopic comet, and has a strong central condensation, but, as lar as I could judge by observation both in the solar and lunar twilight, it has no nucleus or tail. It is in the fourth coil Draco, and moves at the rate of about one degree a day.

The Supreme Court of Maine has just rendered a somewhat important decision relating to the liability of telegraph companies for errors in the transmission of dispatches. Some four years ago a business firm in the State telegraphed to a firm in Chicago by the Western Union line for ten thousand bushels of corn, but the dispatch was made to read "one thousand," and be fore the error could be corrected corn rose and the firm lost nine hundred dollars. It was a night message, and the usual agreement that the telegraph company shall not be liable for blunders was sigued, but the Court decided that such a contract, being against public the amount claimed.

George H. Browne has declined the

office of Chief Justice of the Supreme Court of Rhode Island, to which he was elected by the General Assembly. Herr Krupp recently borrowed on

mortgage the large sum of \$7,500,000 for the purpose of enlarging his great policy, is void, and therefore awarded steel and iron works at Essen, in Prussia.
