

Elk Advocate.

HENRY A. PARSONS, JR. - Editor
THURSDAY, JANUARY 7 1876.

WASHINGTON advices indicate that some opposition is beginning to show itself to the Senate Finance Bill. It is certain that attempts will be made in the House to amend it, so as to forbid the reissue of any of the legal tenders that may be withdrawn by the operation of the bill. If this amendment should be adopted it is quite doubtful whether all the hard money men will be willing to give it their support. The latter are convinced that the tendency of the bill might be to further increase the volume of paper currency. Still we are inclined to think the bill will pass the House, as it did the Senate, by something like a party vote.

Among the new ideas Postmaster General Jewell proposes is the establishment of a weekly slow mail to England, under which a three cent postage stamp would carry a letter from any part of the United States to any part of Great Britain and Ireland. The double rate would still be called for on letters sent by fast steamers, but the single rate would be a saving and a convenience to thousands of the poorer people who have friends in the old country. Mr. Jewell thinks he can get a slow mail carried for \$10 per ton, and that this would enable him to arrange for three cent ocean postage. Evidently there is a man of brains and push in the Postoffice Department.—Pittsburgh Telegraph

The sub-committee of the House to investigate Louisiana affairs, composed of Messrs. Foster, of Ohio, Phelps, of New Jersey, and Potter, of New York, commenced its inquiries at New Orleans yesterday where Marshal Packard, who stated that he did not believe a Republican State government could maintain itself in the South without the aid of Federal troops; and Messrs. White, Knobel and Burke, who testified as to frauds in registration and as to the election by the Kellogg party. So far as developed, the object of the sub-committee is to investigate thoroughly the recent election, beginning with the registration and ending with the canvass by the returning board. They hold that the President having recognized the Legislature of 1872, but not that elected in November, they should therefore confine their investigation to the late election, which was an open question. This will include the White League, the registers and the Returning Board.

GOVERNOR TILDEN was inaugurated as Governor of New York, at Albany last last, in the presence of a large assembly. Governor Dix addressed a few appropriate remarks to Mr. Tilden, to which the latter replied in a feeling manner. The Secretary of State, then administered the oath of office—the iron-shad—to Governor Tilden in administering the oath to the Governor, the Secretary of State asked him which with he would take, and he responded "the new." A good many officials in New York State and legislative, made haste to take the old oath before the 1st of January, when the new one became operative. They thus escaped the necessity of declaring on oath that they "have not directly or indirectly paid, offered, or promised to contribute any money or other valuable thing as a consideration or reward for the giving or withholding of a vote at the election at which they were elected," and that they "have not made any promise to influence the giving or withholding of any such vote." The papers are publishing the names of officials who made haste to take the old oath days before they entered on their official duties.

At Peru, Ohio on the Wabash Railroad, the money packages sent by the United States Express are transferred from one messenger to another. On a recent train Cassel and Fobes were the messengers connecting at this point. The transfer, as usual, was made hurriedly during the brief stoppage of the locomotive for water. Fobes took the bundles, and signed his name in receipt to the list, which included one letter containing \$1,400. Just as the train was ready to start he discovered that he had not received the \$1,400 package. He told Cassel he was mistaken. The conductor said he could not delay the train, and Fobes, with the dread possibility of having to account for the money, did not know what to do. A baggageman had taken in the car, and the desperate messenger suddenly decided that he had stolen it. There was no time for circumsppection. Drawing a revolver, he held it to the baggage man's head and said, "Haul me that money or I'll blow your brains out!" This, not suspecting the random nature of the charge, obediently drew the money from his pocket and gave it up.

Dennis Tuomey, the oldest inhabitant of Oxford, Mass., has just died at the remarkable age of 108 years. He fought under Wellington at Waterloo for old people, as there are now living, within a few rods of each other, seven persons upward of 80 years of age, and two who have nearly reached 90.

PHYSICIANS AND DRUGGISTS.

A prominent New York physician lately complained to Dundas Dick, about his Suffering Oil Capsules, stating that sometimes they cured miserably; but that a patient of his had taken them for some time without effect. On being informed that several indications were made and sold, he inquired and found that his patient had been taking capsules in bottles, and not DUNDAS DICK'S.

What happened to this physician may have happened to others, and DUNDAS DICK & CO., take this method of protecting "OH OF Suffering Oil" from this source.

PHYSICIANS who once prescribe the Capsules will CONTINUE TO DO SO, for they contain the PURE OIL in the BEST and CHEAPEST form.

OIL OF SANDALWOOD is fast superseding every other remedy, sixty Capsules only being required to insure a cure and contain cure in six or eight days. From no other medicine can this result be had.

Dick's Sore Capsules solve the problem long considered by many eminent physicians, of how to avoid the nausea and disgust experienced in swallowing, which are well known to deter from, if not destroy, the good effects of many valuable remedies.

Sore Capsules are put up in tin-toll and neat boxes, thirty in each, and are the only capsules prescribed by Physicians.

THESE WERE THE ONLY CAPSULES ADMITTED TO THE LAST PARIS EXPOSITION. Send for Circular to 35 West St., N. Y. SOLD AT ALL DRUG STORES. General Agency, 110 Reade Street, N. Y.

HAIR VEGETABLE SICILIAN HAIR RENEWER.

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. HAYES, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

Sold by all Druggists, and Dealers in Medicines, Price One Dollar.

Buckingham's Dye FOR THE WHISKERS.

As our Renewer in many cases requires too long a time, and too much care, to restore gray or faded Whiskers, we have prepared this dye, in one preparation; which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rub nor wash off. Sold by all Druggists. Price Fifty Cents.
