A wealthy man died some months ago. Some of his heirs were slighted, and tried to break the will on the ground of unsound mind on the part of the testator. The effort failed. It was shown in evidence that the man made most of his money by judicious advertising. The court remarked: .. We need look no further for proof of this man's sound judgment." And the court was right.

SMALL PACKAGES BY EXPRESS. -If any good at all has grown out of the unjust advance, of the postal rates on third class matter it is that the American Express company has decided to reduce its charges for carrying small packages to the same ates charged by the postal department, which is one cent per ounce, or sixteen cents per pound. At these rates the American Express Company now carries parcels to all points on its lines. In most astances the Express Company will have he advantage, since it delivers it packges s they arrive at their destination, while a package sent by mail, (except in larger ities where there is a carrier delivery) is held at the post office until called for.

ALMOST A "HORROR."-A well known elderly citizen of Middletown near Eeronkson engaged in an altercation with his on over a matter of eighty-seven cents which the son owed him and, with which he proposed to pay the fathers school tax. To this the latter demurred and picking uy sharp crow-bar struck at the son, injuring him severely on the arm after which, the son acting only in self defence, leveled he dangerous instrument directly at his hroat. It struck the collar bone tearing way the flesh and inflicting another wound, and had there been nothing to obstruct or had the iron gone but a little farther "another Ulster County horror" migh have been the result. The son then warmed the old gentleman up slightly and afterwards had him arrested on a warrant served by Constable Quick. The case is not yet disposed of .- Ellenville (N. Y.) Journal.

Boy KILLED BY LIGHTNING .- During the storm on Tuesday, July 6th, a little son of Mr. Leonard Barras, Beaver township, near Eagle furnace, was struck by light-ning and the horse upon which he was riding and himself instantly killed. It appears that Mr. Barras and his little boy and girl were on their way from the cornfield where he had been working to the house. The little boy was riding ahead. The flash that struck him shocked the whole party severely. The bolt struck the boy on the head, tearing a hole through bis hat, and passed down his side, teraing he clothing loose to his foot. At firist no mark appeared, but in a short time a black ark, as if scorehed by fire appeared com the side of the head to the boy's foot; The body appeared limber as though the could be properly prepared for interment.

Two trees in direct range of the boy appear to have been struck at the same time.

The Agitator, published at Wellsboro, lioga county, says:-General Thomas L. Kane, well known to many in this county as the gallent leader of the "Bucktails" in the late war, arrived in town last Saturday and remained over Sunday. The General was accompanied by his family, and he traveled from his home at Kare to this place in the most delightful manner at this time of the year-with his own horses and carriage. The immediate occasion of his visit was to enable his son and daugh. ter to unite with the Presbyterian Church of this village. He left for home yesterday afternoon much to the regret of a large number of his friends and companions in arms who had made preparations to serenade him last evening. We are glad to say that he looks hale and hearty and appears o enjoy life as he deserves to.

The Clearfield Republican says:-Too much care cannot be exercised in the picking of potato bugs, to prevent them from coming in contact with any part of the body where the skin is broken or scratched and the hands should not be used about the body in any way until after a thorough washing. John Harwick, a citizen of this place, has had some experience in this line, a relation of which may prove of benefit to others. While at work in his potato-patch a week or two since, with his shirt-sleeves up slaying the bugs by the hundreds, a small abrasion of the skin on one of his arms took a notion to itch, and he carelessly scratched it with his nails, thereby introducing the poison into his blood and he has been suffering since in a terrible manner. His arms first, and finally his whole body became covered with poisonous eruptions, the irritation from which has deprived him of sleep for a number of nights. We are happy to state that he is

Hon. Josiah Quincy, in a letter

printed in the Boston Advertiser, says: A number of Germans who were accustomed in their own country to a system of co-operation, purchased a tract of and in Dedham. Ten of them erected houses for their own use. A separate mortgage for about \$2,000 was taken on each house to secure a joint and several bond signed by the ten owners. by which they agreed to pay \$6 a week into a savings bank to the credit of the mortgagee and trustee, One-half of each deposit is enough to pay the inter. est semi-annually at seven per cent. and the other half goes on interest, with a certainty that in a few years it will pay the principal and leave the houses unincumbered. On the first days of January and July the mortgagers have sent their deposit books to the trustee and mortgagee, who has drawn the semi-annual interest and returned the books with their accumulations to the owners, every payment increasing his security, and the association taking only the risk that every holder of real estate takes who leases his property. Ten or more industrious and temperate men, who bad confidence in one another, might form such an associaton with peculiar advantages. They might chose their locality either together or separately, giving excellent security that they would pay their interest semi-annually and the principal in a fixed time.

Milford Pa July 16-The final survey for the Lehigh and Eastern Rail road is now being made and the work of grading will shortly be commenced. The new road will run from Hazelton, Pennsylvania, to about one mile east of Port Jervis, New York, where it will connect with the Erie. The distance of the new route is ninety-eight and onehalf miles, and runs from Hazelton over the Pocono Mountains crossing the Delaware, Lacawanna and Western Railroad west of Sroudsburg, thence passing up the Delaware Valley to Port Jervis. The route is a comparatively easy one to build, and S. P. Kase, night. president of the road, states that \$6,-000,000 is sufficient to buid, equip and put the road in running order. As soon as the survey is finished the work of grading will be begun.
