TASTELESS MEDICINES.

A prominent New York physician lately complained to DUNDAS DICK & CO., about their SANDALWOOD OIL CAPSULES, stating that sometimes they cured miraculously, but that a patient of his had taken them without effect. On being informed that several imitations were sold, he inquired and found his patient had not been taking DUNDAS DICK & CO'S. What happened to this physician may have happened to others, and DUNDAS DICK & CO. take this method of protecting physicians druggists and themselves, and preventing OIL OF SANDALWOOD from coming into disrepute. PHYSICIANS who once prescribe the Capsules will continue to do so, for they contain the pure OIL in the best and cheapest form. DUNDAS DICK & CO., use more OIL OF SANDALWOOD than all the Wholesale and Retail Druggists and Perfumers in the United States combined, and this is the sole reason why the pure Oil is sold cheaper in their Capsules than in any other form. OIL OF SANDALWOOD is fast superseding every other remedy, sixty Capsules only being required to insure a safe and certain cure in six or eight days. From no other medicine can this result be had. DUNDAS DICK & CO'S SOFT CAPSULES solve the problem, long considered by eminent physicians, so how to avoid the nausea and disgust experienced in swallowing, which are well known to detract from, if not destroy, the good effects of many valuable remedies. Soft Capsules are put up in tin-foil and neat boxes, thirty in each, and are the only Capsules prescribed by physicians. TASTELESS MEDICINES.—Castor Oil and many other nauseous medicines can be taken easily and safely in DUNDAS DICK & CO'S SOFT CAPSULES. NO TASTE. NO SMELL. THESE WERE THE ONLY CAPSULES ADMITTED TO THE LAST PARIS EXPOSITION. Send for Circular to 35 Wooster street, N. Y. SOLD AT ALL DRUG STORES HERE. Valuable and Desirable Property for Sale. The history of the company is one of struggle, from the beginning, and many of our citizens instead of helping the enterprise along, only stood by with buckets of water and dashed it on whenever they had the opportunity; and many sneeringly remarked that "such a company of boys will never pass inspection," but the "boys" did pass, and to the "boys" belong the honor. But success is akin to popularity, and we notice, with deep pleasure, a different turn in general public sentiment regarding the company, and the tide is all in its favor. The commendations and words of encouragement we received at Erie, from Col. Lytle, (who, by the way is a gentleman and as perfect an officer as ever rode a horse or commanded a regiment,) should inspire each member of company H, to do his level best to make himself a perfect soldier. In conclusion we must say that to Capt. Fred. Schoening belongs the credit of making the company what it is, for without his untiring industry and devotion the organization could not have survived. We say this without disparagement to any other officer or member but only to give the most honor to whom the most honor is due.

CAMP HARTRANFT.

ANNUAL INSPECTION OF THE SEVENTH DIVISION AT ERIE.

The Seventh Division, composed of the 15th and 17th regiments of Pennsylvania, Nation Guards, had been ordered to encamp for inspection and review at Massasauga Point on the 1st of September. Company H (Ridgway Rifles) of the seventeenth had been busily preparing for the great occasion and the untiring diligence of Capt. Schoening and First Lieutenant Bailey, the company, despite the clamorings of those, whose wish that the project might fall through was father to the thought, finally equipped and drilled ready for the occasion. Last Wednesday afternoon Company H was marched to the depot to the inspiring strains of a file and drum; the train was an hour and forty minutes behind, which time was improved by the boys in drilling and wishing the train would come. At a few minutes after four o'clock, the iron horse with a snort and a bound, appeared on the scene, and the boys filed into the car set apart for them on the side track and were quickly attached to the train, and amid the waving of hats and handkerchiefs and the cheering of men they sped around the curve and were soon out of sight and on their way to camp. Nothing of note transpired on the way, until we reached Corry where Company F. of Clarion County were in waiting to take the train for the distant camping ground. In the course of time we were landed in Erie where we found Major Sweeney in waiting at the elevator dock; baggage and men were soon unloaded and we all supposed that we would soon be sailing down the bay toward our destined goal, but we were doomed to wait two long hours; hours in which the piercing winds of the lake seemed to take delight in adding to our misery, while the profanity of the owners of a small sailing vessel, at not being allowed to take our baggage for us, made the scene still more interesting. At last the wait ended as the Ariadne steamed alongside the wharf and shipped Company H. and F. We were soon at the "head," and lungy as a pack of wolves. Sandwiches and ginger snaps soon put an end to the cravings of hunger when we marched along a sandy road up a steep hill to camp Hartranft. The stillness of night reigned over the entire camp, and not a sound was heard save the lively tune of the cricket and the steady tramp of the sentinel, as he walked his lonesome beat, the snoring of the heavy men of the McLean Guards adding variety to the quiet scene. The silence was soon broken as the wild cats, from the burnt districts, with cheers and beating of drums made their hideous, until where silence so lately reigned all was bustle and confusion (this phrase is applicable to all scenes of this nature) held away, "no sleep till morn" was the watchword and all night long the cheers and shouting of the aforesaid "cats" made Camp Hartranft resound with merriment and profanity. The tiresome vigil was at last ended and rosy morn broke in grandeur upon the camp, and soon the boys were busily preparing for breakfast. While the breakfast is being served we will take a view of camp Hartranft. Situate on a bluff commanding a fine view of Lake Erie, the breeze at the heat of noonday, at eve, and in the early morn, fanned the soldier's weary brow; on the Lake side of the bluff is situated Gen. Huidekoper's head quarters, while the 15th regiment is encamped near the bluff and the 17th have their tents pitched farther south. Each regiment is composed of ten companies and the companies average about forty men. The tents were placed in rows, each company having a separate row, with a broad street in front, each tent was large enough to accommodate four men comfortably. At the extreme southern side of the ground the sutlers' tent and dining tents were placed, on the west side of the ground is a fine piece of woods while to the east is a level field used for a parade ground. The men were furnished with water by two hydraulic rams placed in a deep gulch about two hundred yards to the rear of the sutler's tent. The company and regiment head quarters were ranged along next the woods. In the morning the boys, with soap and towels in hand, started to find water to wash in and following the lead of several score of other boys we scrambled down the steep sides of the gulch, from whence came the water, used for cooking and drinking purposes, and washed regardless of the fact, the filth of several hundred men helping to make more dense the coffee that we morning had for breakfast. The next day a strong guard was placed over the path to the water. For breakfast we had coffee, beefsteak, bread and butter, which was eaten with a relish which only a long ride and the bracing air of the Lake could give hungry men. The twenty companies present were each dressed in different uniforms, some in gray and some in blue, and some with uniforms which had faded in splendor, the parade dress of a Major General; to the credit of Company H. be it said they

The twenty companies present were each dressed in different uniforms, some in gray and some in blue, and some with uniforms which had faded in splendor, the parade dress of a Major General; to the credit of Company H. be it said they

were the only company with the U. S. regulation dress. The duties of the day soon commenced; men were detailed from each company to do guard duty, and it soon became generally known that no one in uniform would be allowed to visit Erie city without a pass, signed by the captain and countersigned by the colonel. Several of our boys were furnished with the necessary pass and were soon on their way to see the city. Our first night in camp we passed on the ground with our blankets wrapped around us; the second night, however, we prepared beds of straw and exhausted with the duties of the day, which consisted of company drill, till we couldn't rest, and regimental parade, we all, at an early hour sought our tents and nature's sweet restorer wooed us to her embrace. We copy the following from the Erie Sunday Gazette. Thursday the principal occurrence was a review of the 17th Regiment. This occurred in the afternoon and proved most satisfactory. Friday, inspection of the 15th in the forenoon and review of the same regiment in the afternoon were the principal features. The dress parade of the 17 just before supper was worthy of special mention as the most perfect parade ever witnessed in connection with the 7th division, and Adjutant Burns received an abundance of well deserved praise for the satisfactory conduct of the affair. Saturday was the great day of the encampment. It was cool and breezy throughout—threatening in the morning, but bright in the afternoon, and altogether a model day for the purpose. The crowds which visited the grounds were literally immense. The Bay was not more thronged with craft of all sorts than the road with vehicles of every variety. The Governor and staff were early on the ground, and the Governor accompanied the Adjutant General in his round of inspection, and both thoroughly inspected every man in the whole twenty companies, and expressed a favorable opinion of the condition of the command. It was long after noon before this rather severe duty was concluded. The number found to be present and inspected was as follows: 15th Regiment—Co. A, 46 men; B, 34; C, 51; D, 44; E, 28; F, 47; G, 40; H, 61; I, 31; K, 48. Total 434. 17th Regiment—Co. A, 31 men; B, 55; C, 40; D, 41; E, 45; F, 37; G, 47; H, 38; I, 44; K, 43. Total 421. There appeared in line at the hour of review also the Titusville Citizen's Corps and the Franklin Cavalry, making the total number of men under arms about 950. Promptly at 3 P. M. the line was formed for review, with the line and field officers in front, the latter mounted, all stationed with precision according to Upton, and presenting an imposing array. When the colonels reported their commands in readiness, Gov. Hartranft, in citizen's dress but splendidly mounted and sitting on his horse like a Centaur, rode out from the position he had occupied opposite the left of the line, and followed by a brilliantly mounted staff cantered down the field to the right of the line (held by the 15th Regiment) and the whole cortege then rode slowly down the front and rear of the line. Returning to his position, the troops received the order to march and forming front, by companies the Division marched in review before the Governor, the General commanding, and their respective staffs. This march was the crucial test of the day, and officers and men exerted themselves, to the utmost to keep their alignment in marching and wheeling. It was an extremely handsome and creditable parade. Before the review the tents had been struck and the baggage sent forward by wagon. When ranks were broken, the men found their way to the city by steamers, were landed at the public dock, marched thence to the depot, and took the trains for home. The Governor and staff returned to the city on horseback. On the whole, the encampment was decidedly successful. The troops conducted themselves creditably, and gained the good will of the community. We trust we have not seen the 7th Division in Erie for the last time. ROSTER. The following shows the organization of the camp: Seventh Division—H. S. Garret Corwin, an old Resident of Elk county, aged about sixty years, was found in Dickinson's dam, at the bulkhead, about fifty feet up the stream, Thursday, September 2d, 1875, by Fred. Dickinson; when found he had a stone tied around his neck which weighed from 12 to 15 pounds. Charles Mead, Esquire, was at once notified and empaneled a jury consisting of Jas. D Fullerton, foreman, J W Taylor, John Winterbottom, George Walker, R I Robinson, and James McGinnis, which being duly sworn repaired to where the body lay, and towed it with a boat to the opposite side of the Clarion river. The body was taken out of the water and examined and nothing found to indicate the cause of death. Fred. Dickinson, being sworn, testified that he found Garret Corwin in the water floating with his face downwards; was acquainted with the said Corwin; and recognized the deceased as him; saw him last on Monday afternoon, July 30th, at his father's barn; seemed to be at that time in a rational state of mind; did not know he was a man given to strong drink; when he left the barn did not notice which way he went. Clark Dickinson, sworn—I was well acquainted with the deceased, and know this to be the body of Garret Corwin saw him Monday last at father's barn; I think he had not been drinking neither was he drunk at the time; knew him to be an intemperate man. After the foregoing testimony the body was placed in the Hyde House wagon shed, under the charge of Joel Black, by order of W H Osterhout overseer of the poor. The jury visited the Riley House and took the testimony of Patrick Riley, who testified as follows: Garret Corwin has been boarding with me for two months past; had paid \$20 on board two weeks previous; money had been paid Corwin on a judgment by J S Hyde; had not noticed him with any amount of money afterwards; he took breakfast here last Monday. Corwin's trunk was then examined and nothing of value found in it after which the jury repaired to Esquire Mead's office and took the testimony of A Brown, who swore, that the deceased had a hunter case silver watch about two weeks ago attached to his vest with a buckskin string. H H Wensel, sworn—I saw Corwin have a watch attached to his vest in the manner, described by Brown, about a month previously. An adjournment was then had to 2 o'clock P. M. On the reassembling of the jury Doctor Bordwell made a post mortem examination, assisted by Dr Clark of Brockwayville; upon returning to the office of Justice Mead Doctor Bordwell said that after an examination of the body he found no bruises or wounds that might have been inflicted by a second party, and that he believed him to have been drowned; the rising of the body would depend upon the circumstances producing decomposition; with a warm sun and shallow water it might come to the surface in a few days; the contusion about the eye might have been produced by a blow; the abrasion about his breast and arm might have been caused by the sun or friction. Doctor Clark then affirmed and concurred in the statement made by Doctor Bordwell. Upon the advice of prominent citizens of the place, the jury decided to reserve their decision until some future day. July 7—The jury being again called together by Justice Mead rendered a decision that the said Garret Corwin came to his death by tying a stone to his neck and going into the water. PERSONAL—Hon. Henry Souther and wife were at Camp Hartranft. Isaac Horton with his merry laugh was also there. We had the pleasure of an introduction to Henry Rawle, Republican candidate for state Treasurer, while in Erie. Card of Thanks. Capt. Schoening wishes us, on behalf of himself, and company H., to thank the Hon. Henry Souther, and wife, for the splendid cake presented to the Captain, while the company were in Erie. Benetette Locals. It is such hard times, Benetette can afford but few locals. Mrs. Thomas Tosier of Williamsport has been visiting her friends in Benetette for the last two weeks. School commenced August 30th Miss Angie Freeman and Miss. Fanny Lesch for teachers. Mr. R. W. Petrison is building a house on Main street for his mother who has been residing in Lock Haven for the last twenty years and is now going to reside in Benetette. Warren Winslow is also building a house. Jack Bennett has built a bran new kitchen. Mr. and Mrs. Good from Lock Haven are in town. Miss Mary I. Sheldrake and mother have gone to Toronto O W on a visit. Dr. Bryan and family have returned from their visit to Chambersburgh Pa.

CAMP HARTRANFT.

ANNUAL INSPECTION OF THE SEVENTH DIVISION AT ERIE.

The Seventh Division, composed of the 15th and 17th regiments of Pennsylvania, Nation Guards, had been ordered to encamp for inspection and review at Massasauga Point on the 1st of September. Company H (Ridgway Rifles) of the seventeenth had been busily preparing for the great occasion and the untiring diligence of Capt. Schoening and First Lieutenant Bailey, the company, despite the clamorings of those, whose wish that the project might fall through was father to the thought, finally equipped and drilled ready for the occasion. Last Wednesday afternoon Company H was marched to the depot to the inspiring strains of a file and drum; the train was an hour and forty minutes behind, which time was improved by the boys in drilling and wishing the train would come. At a few minutes after four o'clock, the iron horse with a snort and a bound, appeared on the scene, and the boys filed into the car set apart for them on the side track and were quickly attached to the train, and amid the waving of hats and handkerchiefs and the cheering of men they sped around the curve and were soon out of sight and on their way to camp. Nothing of note transpired on the way, until we reached Corry where Company F. of Clarion County were in waiting to take the train for the distant camping ground. In the course of time we were landed in Erie where we found Major Sweeney in waiting at the elevator dock; baggage and men were soon unloaded and we all supposed that we would soon be sailing down the bay toward our destined goal, but we were doomed to wait two long hours; hours in which the piercing winds of the lake seemed to take delight in adding to our misery, while the profanity of the owners of a small sailing vessel, at not being allowed to take our baggage for us, made the scene still more interesting. At last the wait ended as the Ariadne steamed alongside the wharf and shipped Company H. and F. We were soon at the "head," and lungy as a pack of wolves. Sandwiches and ginger snaps soon put an end to the cravings of hunger when we marched along a sandy road up a steep hill to camp Hartranft. The stillness of night reigned over the entire camp, and not a sound was heard save the lively tune of the cricket and the steady tramp of the sentinel, as he walked his lonesome beat, the snoring of the heavy men of the McLean Guards adding variety to the quiet scene. The silence was soon broken as the wild cats, from the burnt districts, with cheers and beating of drums made their hideous, until where silence so lately reigned all was bustle and confusion (this phrase is applicable to all scenes of this nature) held away, "no sleep till morn" was the watchword and all night long the cheers and shouting of the aforesaid "cats" made Camp Hartranft resound with merriment and profanity. The tiresome vigil was at last ended and rosy morn broke in grandeur upon the camp, and soon the boys were busily preparing for breakfast. While the breakfast is being served we will take a view of camp Hartranft. Situate on a bluff commanding a fine view of Lake Erie, the breeze at the heat of noonday, at eve, and in the early morn, fanned the soldier's weary brow; on the Lake side of the bluff is situated Gen. Huidekoper's head quarters, while the 15th regiment is encamped near the bluff and the 17th have their tents pitched farther south. Each regiment is composed of ten companies and the companies average about forty men. The tents were placed in rows, each company having a separate row, with a broad street in front, each tent was large enough to accommodate four men comfortably. At the extreme southern side of the ground the sutlers' tent and dining tents were placed, on the west side of the ground is a fine piece of woods while to the east is a level field used for a parade ground. The men were furnished with water by two hydraulic rams placed in a deep gulch about two hundred yards to the rear of the sutler's tent. The company and regiment head quarters were ranged along next the woods. In the morning the boys, with soap and towels in hand, started to find water to wash in and following the lead of several score of other boys we scrambled down the steep sides of the gulch, from whence came the water, used for cooking and drinking purposes, and washed regardless of the fact, the filth of several hundred men helping to make more dense the coffee that we morning had for breakfast. The next day a strong guard was placed over the path to the water. For breakfast we had coffee, beefsteak, bread and butter, which was eaten with a relish which only a long ride and the bracing air of the Lake could give hungry men. The twenty companies present were each dressed in different uniforms, some in gray and some in blue, and some with uniforms which had faded in splendor, the parade dress of a Major General; to the credit of Company H. be it said they

were the only company with the U. S. regulation dress. The duties of the day soon commenced; men were detailed from each company to do guard duty, and it soon became generally known that no one in uniform would be allowed to visit Erie city without a pass, signed by the captain and countersigned by the colonel. Several of our boys were furnished with the necessary pass and were soon on their way to see the city. Our first night in camp we passed on the ground with our blankets wrapped around us; the second night, however, we prepared beds of straw and exhausted with the duties of the day, which consisted of company drill, till we couldn't rest, and regimental parade, we all, at an early hour sought our tents and nature's sweet restorer wooed us to her embrace. We copy the following from the Erie Sunday Gazette. Thursday the principal occurrence was a review of the 17th Regiment. This occurred in the afternoon and proved most satisfactory. Friday, inspection of the 15th in the forenoon and review of the same regiment in the afternoon were the principal features. The dress parade of the 17 just before supper was worthy of special mention as the most perfect parade ever witnessed in connection with the 7th division, and Adjutant Burns received an abundance of well deserved praise for the satisfactory conduct of the affair. Saturday was the great day of the encampment. It was cool and breezy throughout—threatening in the morning, but bright in the afternoon, and altogether a model day for the purpose. The crowds which visited the grounds were literally immense. The Bay was not more thronged with craft of all sorts than the road with vehicles of every variety. The Governor and staff were early on the ground, and the Governor accompanied the Adjutant General in his round of inspection, and both thoroughly inspected every man in the whole twenty companies, and expressed a favorable opinion of the condition of the command. It was long after noon before this rather severe duty was concluded. The number found to be present and inspected was as follows: 15th Regiment—Co. A, 46 men; B, 34; C, 51; D, 44; E, 28; F, 47; G, 40; H, 6
