Burglary.

The store of Capt. Woodward was entered by the front door on Monday night, and goods, consisting of merschaum pipes and eigar-holders, one full box of eigars, and eight or ten pounds of plug tobacco, to the amount, at first cost, of twenty-five dollars, were carried off by the villains. The money-drawer was broken open, but, as it contained no money, the thieves had their trouble for their pains. Olmstead's wagon shop was also entered by the window, which was broken out, and a two-inch chisel, which was used to pry open Capt. Woodward's door, and other tools, taken. They built a fire on the workbench, with the shavings lying all around, and the wonder is that a fire was not started, which would have resulted in the loss of thousands of dollars worth of property. Our citizens will do well to be on their guard, as we have in our midst a gang of lawless characters, whom it will be well to

check in their career of crime.

THE PLATFORM. The Republican party of Pennsylvania, adhering to its historical record and to its principles heretofore often affirmed, declares:

1. That it is uncompromisingly opposed to free trade, in whatever disguise presented, unchangingly devoted to home industry, and hereby avows its special and direct hostility to the Tariff bill now pending in Congress, the same being in the interest of importers and foreign manufacturers and

in opposition to American labor. 2 That labor being the great source of national wealth, the prosperity of the nation must depend upon the extent to which labor is protected and employed, and that our government, being a government of the people, should endeavor to promote, by all proper means, the commercial and industrial interests of the nation, that labor and capital may both be profita-

bly employed. 3. The American commerce should be fostered, and home enterprise developed by the National Government, to the end that our manufacturing, mining, agricultural and industrial interests may flourish, our people find employment, and the country be re-

stored to permanent prosperity. 4. That the public lands belong to the people, and should be reserved exclusively for actual settlers, so that the industrious poor may be encouraged and aided to enter upon and occupy them.

5. That we are now as ever opposed to the payment of claims from the National Treasury to those lately engaged in or sympathizing with the rebellion no conqueror should be forced to pay indemnity to the conquered, and the presentation of bills demanding over

\$300,000,000 at the present session of a Democratic House is a warning to the country of the cost and danger of retaining in power a party whose chief aim is to make reprisals on the taxpayers for losses which the crime of treason brought upon the Southern people.

6. That we view with alarm the growing depression of many of the leading trade interests of the State and country resulting largely, it is believed, from unfair advantages and discriminating rates of freight and transportation privileges given by many of the transportation companies of the State and country to a favored few to the prejudice of our general producing interests, and this convention earnestly latures as will correct this growing

evil. 7. That the Southern Republicans, white and colored, have our carnest sympathy in the unequal contest to which they are subjected for civil liberty and the maintenance of their constitutional privileges, and that in the interests of their guaranteed rights we demand from the general government for them an equal and fair ballot, and that equality before the law which should be the boast of every govern-

ment. 8. Resolved, That the administration of Governor Hartranft meets the hearty endorsements and unqualified approval of the party that elected him and con-tinues to honor him. He has proved himself an able magistrate, a true pat-riot and a wise officer, and his party tenders to him the praise due to personal uprightness, to political devotion and to official rectitude.

THE PLATFORM. The Democracy of Pennsylvania

unanimously declare: That the Republican party, its meas. ures and its men, are responsible for the financial distress, the misery and want that now exist. It has had control of the legislation of the country, and has enacted and perpetuated a policy that has enriched the few and impoverished the many. Its system of finance has been one of favors to moneyed monopoly, of unequal taxation, of exemption of classes, of high rates of interest and of remorseless contraction, which has destroyed every enterprise that gave employment to labor. Its present hold upon federal power was secured by fraud, perjury and forgery. Its laws are unjust, and its practices are immoral. They distress the people and destroy their substance. Theonly remedy for these evils is an entire change of policy, and the dethronement of those in power; and we re-

That further contraction of the volume of United States legal tender notes is unwise and unnecessary. They should be received for customs duties

and reissued as fast as received. Gold, silver and United States legal tender notes at par therewith are a just

basis for paper circulation. A close connection of the federal government with the business interests of the people, through national banks, tends to monopoly and centralization, but in changing the system, uniformity of notes, security of the noteholder and protection of the capital invested should be provided for.

Treasury notes issued in exchange for bonds bearing a low rate rate of interest, is the best form in which the credit of the government can be given for paper currency.

Labor and capital have equal de mands upon equal responsibilities to law. Commerce and manufactures should be encouraged, so that steady employment and fair wages may be yielded to labor, whilst safety of inrestment and moderate return for its use belong to capital. Violence or breaches of order in support of the real or supposed rights of either should be promptly suppressed by the strong

arm of the law. The Republican party, by its legislaion in 1872, which reduced the tariff upon bituminous coal from one dollar twenty-five to seventy-five cents per ton, and upon iron, steel, metals, paper, glass, leather and all manufactures of each of them ten per cent., struck a fatal blow at the industries and labor of Pennsylvania.

The public lands are the common property of the people, and they should not be sold to speculators nor granted to railroad or other corporations, but actual settlers.

Our public debt should be held at home, and the bonds representing it ought to be of small denominations, in which the savings of the masses may be safely invested.

Thorough investigation into the electoral fraud of 1876 should be made, fraud should be exposed, truth vindident's title as dangerous to our institutions and fruitless in its results.

the legislation of the State, has refused new constitution. Among other things it has neglected and refused to compel by the corporations of the State; to prevent undue and unreasonable diserimination in charges for transportation for freight and passengers, and without abatement of drawback to any; to give to all equal means for transporting the raw material of the State in such manner and to such points as they may prefer; and to publish in good faith monthly statements of where the money of the people was kept. The Republican party creates new officers, and adds enormous perquisites to the others, and fills them with favorites, whose chief duty is to manage its political machinery. Its administration of the State government grows more expensive with each year of its rule. Legislation has been directed by Republican lobbyists, who in turn manipulate and control the nominations of the Republican party, and its candidates are the creation of a junta, whose decrees are accepted as the irreversible mandates of absolute hereditary power. We de-nounce these methods, these measures and these men as unworthy the sup-port of an honest and free people, and we invite all, of every shade of politi-cal opinion, to unite with us in delivering the commonwealth from their hateful rule.

THE PLATFORM. The United States, by reason of its vast territory, fertile soil, varied productions, rich minerals and temperate climate could, wisely governed, sustain in comfort and even luxury a population tenfold greater than at present occupy it. Nevertheless, with an enterprising, industrious people, after a series of abundant harvests, manufacturers are idle, business prostrate, labor unemployed and starvation impending. This condition of affairs has been produced by the control of the producing interests of the country by the nonproducer and by legislation in favor of non-productive capital and as against

the interest of the laborer of the coun-

try. The policy adopted has reduced

the value of property, public and pri-

vate, over one-half, whilst National.

State, municipal and private debts,

nominally the same have, by reason of such reduction, practically doubled. From such policy bankruptey of the producing interests has been the natuval and inevitable result. For such control both the Republican and Democratic parties are responsible, and the wisdom of such policy has been affirmed by the Republicans at Cincinnati and the Democrats at St. Louis, and by both parties in their State platforms adopted in Pennsylvania. Wisdom would dictate as a remedy for existing evils, not only the repeal of pernicious laws and the establishment of a wise and judicious financial system, framed in the interest of the productive labor of the country, but also the condemna-

tion of the people, manifested at the

ballot-box, of the Democratic and Re-

publican parties, by whom the produ-

cing interests of the country have been betrayed; therefore it is Resolved, That neither the Democratic nor Republican parties of the country are entitled to the confidence of the people or worthy of their support, and that their record in the past has been such as to render any pledge they may make in the future as unreliable and unworthy of credit, to be regarded as pledges made under fear of public wrath, to be unredeemed if by a more equitable distribution of the reason of such pledges public indignation is allayed.

Resolved, That we affirm and indorse the platform of principles adopted by the Toledo National Convention on the 22d of February, 1878.

Resolved, That as the power to cregovernment, and as upon the regula- grave questions which press themselves tion of the volume and value of such money, by wise and judicious legislation, depend the prosperity and welfare of the nation, such power should be jealously guarded and controlled, and no power to regulate either its volume or value should be given to banks or should be reserved as homesteads for other moneyed corporations which by reason of such power could subserve private ends and at will contract or expand the currency of the country and thus hold all producing and laboring

interests in absolute bondage. Resolved, That the present national banking system is not only burthensome to the people by reason of the substitution of an inferior currency. cated and criminals punished. But for money at a heavy expense to the we oppose any attack upon the Presi- country in the useless payment of interest on bonds, but by reason of the power in them such banks are obtain-The Republican party, controlling ing permanent control of the governmentand are becoming the absolute to execute many of the reforms of the masters of all the business interests of the country, and that in the interests of the manufacturer, farmer, the mechanic the acceptance of all of its provisions and the laborer, national bank currency should be withdrawn from circulation and full legal-tender money substituted by the government in lieu

thereof. Resolved, That as the wealth of the nation is founded upon labor, the laborer should be protected in his just rights. It is desirable that the hours of labor should be so limited as to afford the laborer an opportunity to cultivate his mental faculties and enjoy rational social intercourse with his friends. To earn such reasonable wages as may be an equitable proportion of the profits of his industry, and this so that he may ameliorate his condition and obtain the comforts and luxuries of life, and thus, by increasing consumption, open new avenues for industry, and new fields for labor. To educate his children, and thus, through universal education, elevate labor and the character of the laborer. For the

purpose of attaining these ends, Resolved, That the prison contract system should be prohibited; that the Federal and State Governments and municipal corporations should limit the hours of labor; that the manufacturing, mining and farming and laborers' interests of the country be protected: FIRST, By lowering the rate of interest on money, and effecting this by the government issuing full legal-tender money sufficient for the wants of trade and regulating its value and its volume

SECOND. By the protection of American industries by the enactment of a tariff based on constitutional limits for revenue, but with discrimination for protection to the labor of the farmer,

THIRD. By holding public lands for the use of the actual settler, and not to n7in3cms.

reverted to the government. FOURTH. By opening new fields for labor in the constructing of works of national importance, either directly by the government itself or by rendering assistance, in no case to be in the form of subsidies, but all outlays of the gov-

ernment to be adequately secured. FIFTH. By encouraging our ship building interests and the carrying of American products in American ships, and to render such aid under proper guarantees against fraud as will enable American steamships to compete with

foreign lines. SIXTH. To afford a safe depository for money, and to protect the people against the fraud and loss occasioned by savings banks and trust companies, a postal depository system should be established, from which, upon being deposited, certificates of deposit bearing a low rate of interest should be issued, and which certificates should be payable on demand in full legal-tender

government money. SEVENTH. That we demand the repeal by the State government of all charters and special privileges inconsistent with the present Constitution of the State, the damage, if any, when judiciously ascertained, to be paid by the

EIGHTH. That we demand the passage and enforcement of such laws as will prevent all combinations, discriminations or granting of rebates by transportation companies, and compelling common carriers to furnish the same facilities and perform the same service for the same price to all men. NINTH. That we demand the im-

mediate repeal of the resumption act of TENTH. That we demand equal and just taxation of all property whatsoever, except that used by the federal gov-

ernment and used and held for government purposes. ELEVENTH. That we demand the payment of government bonds accord-

ng to the original contract, in the lawful money of the nation. Resolved, That to significantly designate our State organization, designed to secure financial and labor reform, we adopt the name of National-Greenback-Labor party of Pennsylvania.

Whereas, The struggles of seven centuries for civil liberty have, in this country, culminated in securing to all an equal right to the ballot; and whereas we believe the intelligent and honest exercise of this privilege, judiciously directed to the finances of the country will secure general prosperity through products of labor; therefore

Resolved. That this convention condemns all lawlessness, violence or disorder to accomplish its ends, believing that the happiness of the whole people can only be permanently secured through the ballot, after a calm, free, ate money is the highest prerogative of open and searching discussion of the upon the convention.
