The engineers calculated the centre of gravity of Cleopatra's needle so nicely that when they got it iron jacketed and raised it by the trunnions, it balanced exactly, so that one man could cause the great mass of two hundred tons to swing.

Adam Smith, residing two miles north of Greensburg, was dangerously gored by a bull. He escaped death by catching a ring in the bull's nose and twisting it around and crawling under the fence, near to which he had fallen, and in that way getting out of reach of the bull's horns.

An original plan of giving relief to the distressed citizens of Wallingford, Conn., was carried out Wednesday. Trains were run at half fare from different points to the scene of the disaster, and the amount realized applied to the sufferers. It is estimated that over 15,000 people were on the ground, and that the relief fund will receive nearly \$2,000.

A gang of burglars composed of two Americans and three Englishmen has been captured in a hotel at Sorrento. They recently effected an entrance into a wealthy pawnbroker's shop in Naples and escaped with a large booty. About the same time valuable articles of gold and silver were missing from several churches. A merchant's house was also invaded by the same gang, it is supposed, and robbed of precious plate.

It is stated that the town of Somers, in Connecticut, takes upon itself the responsibility of all burials within its limits, without regard to the circumstances of the person to be buried. Rich and poor, high and low, are treated alike in the matter, and for four dollars, sexton, hearse and grave are supplied to all alike; so that for twenty years or more every burial in the town has been performed by the town at that cost to those able to pay.

EMPLOYMENT FOR LADIES AND GENTLEMEN AT HOME.

Our attention was recently attracted by an advertisement in another paper to the "American Housekeepers' Scale and the extremely low price induced us to send for one to use in our kitchen.

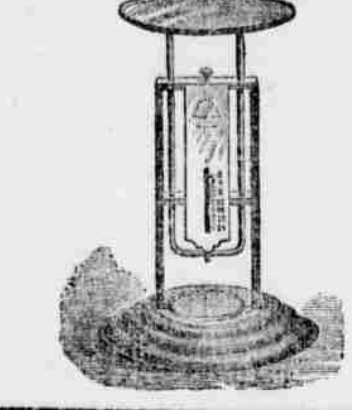

We find the scale the most convenient and valuable household article we have! It is worth five times its cost, in testing groceries, putting up preserves, making cake, etc. W. H. Thompson & Co., No. 235 Washington street, Boston, Mass., are the manufacturers, and they have the most complimentary Testimonials of the Scale possible to be written. They have as yet no General Agent for this County; and as the Scales are sold exclusively by canvassers to families, we cheerfully recommend the article for the benefit of our numerous lady readers, and parties wanting honorable employment.

We would say that the "Church Journal," N. Y., "Christian Union," N. Y., "Frank Leslie's Illustrated Newspaper," New York, "Church Union," N. Y., "Boston Traveler," "Herald" and "Post," and hundreds of other papers, all speak in the highest praise of the Scale, its low price, and convenience to housekeepers.

Weights up to 24 pounds, and costs \$1.50 prepaid—or about one-half that of any other Platform Scale in the United States.

Where is the man who wants the exclusive control of our County, and thereby secure a very profitable business? THE "AMERICAN HOUSEKEEPERS' SCALE."

Patented May 15th, 1877.
