THURSDAY NOV. 14, 1878.

-The United States Revenue Collector in Clarion county is compelling local granges of the Patrons of Husbandry, where they buy their own supplies to take out a license, and the Porter township Grange of that county is re- tion of \$1 and \$2 will cease, and it is their faith has saved for posterity an ported to have been particularly unfortunate in the matter. A woman needing alcohol for some medical preparation requested the Grange to get her four gallons. The liquid was stored in the grange warehouse, and some boys, obtaining access to the building, drew off some of the fluid for their own consumption, and filled up the vacum with water. The woman was furnished from the watered tank, and the dilluted alchohol spoiled her mess for nished with notes of a less denominaher, whereupon she came upon the Grange and recovered damages to the national banks may demand, and the amount of \$20. The Revenue Collector, getting wind of the transaction, required the Grange to pay a license or fine for dealing in liquor

-It looks very much as if another trans-continental railroad will be built before the Texas Pacific is completed. A California company has undertaken the construction of roads across Central America, from San Jose on the Pacific coast to St. Thomas on the Atlantic side. The government of Guatemala a rees to make cash advances on the work as it progresses, and to guarantee to the stockholders a yearly dividend of 12 per cent, on a fixed cost of \$1,000,000. The customs revenue of the republic, which yields \$1,-500,000 per annum is specially pledged for security for this dividend. The cash advances made to the company during the construction of the road are to be repaid to the government at 1871, was \$49,407,000, which amount the rate of \$50,000 per annum, by a deduction from the yearly dividend, to the two denominations. Including commence one year after the full completion of the work.

-Mr. William Christian and his lovely young wife, of Hanover county, Va., were scated together in their parlor. The air was damp and chilly, and the husband suggested that a fire be made. There had been no fire in the parlor hearth since last spring, but in a few minutes the back logs were piled up and a cheerful blaze went np the chimney, and in a few minutes a terrible explosion took place. Mrs. Christian was instantly enveloped in flames and fataly burned. Mr. Christian was also seriously burned, but it is thought he may recover. Neighbors hearing the noise, arrived in time to extinguish the flames. Mr. Christian now remembers that last summer he laid a bundle of powder in the fire place and forgot to take it out.

-Wyatt Chadwell, an old man, clutched nervously at the iron railing in front of the justice's desk, on Monday, in the New York Tombs, when called to answer a charge of intoxication. He astonished the court by reciting passages from Shakespeare and Virgil, winding up his discourse with an extract from Homer's Iliad. The like forty or fifty cases are reported to prisoner's classic recollections failed to have any effect, however. He asserted that he was grandson of Patrick Henry; he had been a Confederate soldier and participated in all the chief battles of the rebellion. Justice Kilbreth listened to him with attention and then discharged him with a reprimand.

They refused to work on a body received in such a mysterious manner, and notified the coroner, who declined to take action. The body was taken to Roanoke and reinterred.

-The result of the election in the First congressional district of North Carolina is no longer in doubt. Martain, Republican, is elected over Yeates, Democrat, the present incumbent, by about one hundred and sixty majority.

Secretary of the Common wealth. The Stewart Robbery. NEW YORK, Nov. 8 .- One of the first of Judge Hilton's acts this morning was to offer a reward of \$25,000 for the return of Alexander T. Stewart's body and information that will convict the parties who committed the outrage. A liberal reward was also promised for information that will lead to these results. This stimulated the detectives, and scores of them, both public and private, made a visit to the St. Mark's churchyard for clues. Judge Hilton had a long interview with the police officials in the morning, and revealed to them the suspicion that the body had not been removed from the church yard, but was hidden somewhere there. Accordingly a force of detectives was sent for a fresh search. First the church itself was scoured from steeple to ceilar, with no results. Then the work of going through the other private vaults was begun. Buriai vaults years were searched through and through, but without the discovery of clue. Indeed, the result of the entire day's work may be summed up in the same expression. If the police are to be believed, they have not the faintest trace of the dead millionaire's body or of the men who took it from its resting place. Two or three persons have had notes from circulation as rapidly as a stories to tell which have commanded

An inspector came down, visited the dairy in question and found that the milk pails, cans and basins had been washed and rinsed with water from a foul well. Every housewife knows, or ought to know, how susceptible milk is to contamination. A few drops of sour milk will pollute, or, as it is called, "turn," the whole contents of a dairy. The Sun for 1879.

THE SUN will be printed every day during the year to come Its purpose and method will be the same as in the past: To pre-

sent all the news in a reliable shape, and to tell the truth though the heavens fall. THE SUN has been, is, and will continue to be independent of everybody and everytions of duty. That is the only policy which a newspaper need have. That is the policy which has won for this newspaper the confidence and friendship of a wider constituency than was ever enjoyed by any other American Journal.

THE SUN is the newspaper for the people. person, class, sect or party There need be no mystery about its loves and bates. It is for the honest man against the rogues every time. It is for the honest Democrat against the dishouest Republican, and for the honest Republican against ts cue from the utterances of any politician or pol tical organization. It gives its support unreservedly when men or measures are in agreement with the Constitution and with the principles upon which this Republic was founded for the people. Whenever the Constitution and constitu-tional principles are violated—as in the outrageous conspiracy of 1876, by which a man not elected was placed in the Presi-dent's office, where he still remains—it speaks out for the right. That is THE SUN'S idea of independence. In this respect there will be no change in the pro

gramme for 1879. THE SUN has fairly earned the hatred of rascals, frauds and humbugs of all sorte and sizes. It hopes to deserve that hatred not less in the year 1879 than in 1878, 1877. or any year gone by. THE SUN will con shine on the wicked with unmiti

gated brightness. While the lessons of the past should be constantly kept before the people, The Sux does not propose to make itself in 1879 a magazine of ancient history. It is printed for the men and women of to day, whose oncern is chiefly with the affairs of to-day It has both the disposition and the ability to afford its readers the promptest, fullest and most accurate intelligence of whateve n the wide world is worth attention. To this end the resources belonging to well established prosperity will be liberally em

ployed.

The present disjointed condition of pa ties in this country, and the uncertainty of the future, lend an extraordinary significance to the ev nts of the coming year.
The discussions of the press, the debates
and acts of Congress, and the movements of the leaders in every section of the Re public will have a direct bearing on the Presidential election of 1880-an even which must be regarded with the most anx ious interest by every patriotic American, whatever his political ideas or allegiance To these elements of interest may be added the probability that the Democrats will con trol both houses of Congress, the increas ing feebleness of the fraudulent Adminis stration, and the spread and strengthening everywhere of a healthy abhorence of frau in any form. To present with accuracy and clearness the exact situation in each of its varying phases, and to expound, accord ing to its well-known methods, the princi ples that should guide us through the laby rinth, will be an important part of THE Sen's work for 1879.

We have the means of making THE SUN. as a political, a liverary and a general newspaper, more entertaining and more useful than ever before; and we mean to
