The SUN WILL be printed every day during the year to come. Its purpose and method will be the same as in the past: To present all of the news in a reliable shape, and to tell the trates though the heavens fall. -It appears there is some foundation for the report that General Grant has been proposed as a candidate for the throne of Bulgaria. Under the provisions of the first and third articles of the treaty of Berlin, Bulgaria is constituted an automatic tributary Principality under the Suzerainty of the Sultan, with a Christian government and a national militia. The Prince is to be elected by the population, and their choice is to be approved and confirmed by the Porte, and by England, France, Germany, Russia, Austria and Italy. No member of any reigning European dynasty is eligible to the post, and this provision of the treaty has greatly limited the number of eilgible candidates. The far-spread and brilliant reputation of General Grant as a soldier and a ruler, it is said, has led the Bulgarian nobles, who are now debating among themselves the question of a ruler and the details of a new constitution, to look upon him as a most desirable prince.
