The jury recommended that the mother and vendor of the syrups be prosecuted.

—Information has been received of a murder in Clearfield county, under peculiarly sad circumstances. Wm. Wilson, who lives a few miles over the line of Cambria county, killed his twelve-year-old son in a fit of anger a few days since by striking him over the head with a hoe, and then jumping upon the lad's body. It seems that the boy had been told by his mother to carry some feed to the pigs, and when he started to obey her the unnatural father ordered him to get a hoe and go with him to a field to cultivate some potatoes. The little fellow determined to do his mother's bidding first, and the old man lay in wait at the corner of the house and struck him as he returned from the pen. He is now in the Clearfield county jail. He is a man of very violent temper and has spent one or two terms of imprisonment.

BIRTH.

JOHNSON.—On Thursday, July 17, 1879, to Mr. and Mrs. Thomas Johnson, of this place, a son.

DIED.

DUTTON.—At the residence of A. T. Aldrich, in Wilcox, Pa., July 21st, 1879, Mrs. Sarah M. Dutton, aged 47 years.

Deceased was a sister of A. T. Aldrich and formerly lived in McKean county, but for twenty years or more has resided in the west. She came east last fall and spent the winter and spring visiting among her many friends, and was about to start for her home in Minnesota when she was stricken with nervous prostration, and died after an illness of about two weeks. Thus it is, when we least expect it, and all looks bright and prosperous for a long and happy life, the Angel of Death touches us with his cold finger and we sleep the sleep that knows no waking.

Go to Morgester's for fresh salmon, lobsters, corned beef and all kinds of canned goods.

Dent's Run Gossip.

—Mr. Dent's store was broken into a few weeks ago. The money drawer was broken open and the contents taken, which, fortunately, did not amount to much. Several pocket knives were also taken from the show-case. The thief used matches instead of a lantern, burnt matches were found in different parts of the store, one was found on a heap of paper which it scorched but did not set on fire.

—Last Sabbath was well revered at this place. Elder Pierce preached in the picnic ground opposite Mr. Dent's house, from the text, "God is not man that He should lie." The sermon was excellent and did great credit to the Elder's ability and was well received by the people. After the sermon the Sacrament of the Lord's Supper was administered. In the afternoon Rev. Greenly of Weedsville, favored us with a sermon. In the evening prayer meeting was held in the school house.

—The young men who have ever got the mitten know how to pity Jack.

—Sixteen rattlesnakes were killed in Mr. Dent's wheat field.

—We were favored with a tremendous rain storm one week ago last Friday. The banks of Dent's run were overflowed. No damage done.

—County Supt. favored this place with his presence on the 22d inst.

D. C. I.

—A large supply of watermelons, cantaloupes, ripe eating apples, &c, expected this week at Morgester's.

—The country is now full of foot-pads, traveling in the disguise of peddlers, who enter farm houses and offer bogus trinkets, soap, thread, needles, etc, for sale, and while chaffering induce the women to call the men for some pretense or another, and then while alone in the house for a few minutes, steal whatever they can lay their hands on. Tramps have adopted this trick of the peddler business, and in very many parts of the State have penetrated a number of bold robberies.

—"Gem'ten," began Presiden Gardner of the Linn-eklin Club, as he gave his nose a last wipe with a red cotton handkerchief. "I hole h'ar in my ban a petishun from Mary Jane Bascomb, of Chicago, axin' dis club to use its influence to suppress extravagance among the civil'd people ob de land. I hez bin givin dis subject much thought of late, an' I find dat de last few y'ars hez developed sich streaks of extravagance 'mong black folks dat it am high time some nekshun was taken by an organization like dis club. A few y'ars ago de average gull'd woman was satisfied wid calico dresses an' articles to match, but now whar am she? Why, gen'tlen, right in sight ob my ole cabin am no less'n a dozen black women who walk out wid their bombazine dresses trailin' wid back, ten-shillin' parasols lifted on high, an' hats on their heads which neber cost less'n twenty shillin'! An' dis too, when der husbands am sickerly airm'd a dollar a day. I ha'r ob fam'lies buyin' ice cream on Sunday, strawberries obery day frew de week, an' talkin' 'bout rentin' a box in de post-offis! I know ob civil'd fam'lies in dis town which her case-act ch'ars in de parlor—yes, gen'tlen, right in de parlor, an' like a'nuff a stuffed cha'r 'long wid 'em. De clean, white floor, an' livered wid a carpet—yes, wid a carpet, an' on de walls am chroomos refulgent wid gorgeousness! What did our grandfathers an' our 4-fadders do? Didn't dey live an' grow fat an' die honest folks an' neber hab any such riches? I tell you dat we am livin' too fast. We hez got to hole back. When an honest hard workin' civil'd man mus' heva a stuffed cha'r sit down on a walnut table to eat his meals on, an' regular hinges to de front gate, same as de rich white folks, den you look out to see chroom increase an' de measles go whopin' frew de kentry.—Detroit Free Press.

—A couple of delightful hot weather stories are going the rounds. From it appears that the heat of the sun was so intense that a tray of corn set in Major Poole's yard, at Tallahassee, Fla., to dry, popped open as though fire was under it. The other says that in a Knoxville, Tennessee, reporter was passing by a grocery store he observed a slight commotion in a basket of eggs, and suddenly one of the eggs burst and a vigorous chick popped out.

—The West Chester News says that a new pestiferous insect has made its appearance and is making havoc with some of the corn fields. It is a beetle from three-eighths to half an inch in length, brown in color, has a long, wire-like proboscis, and its body is adorned with wings, which it uses for carrying itself from one point to another, although its depredations are committed beneath the surface of the earth. This little pest buries itself under the ground, and with his proboscis probes the tender shoos of corn shortly after making their appearance above the ground.

—The cabbage worm is the latest annoyance to gardeners. Equal parts of lime, plaster Paris and salt well mixed, and sprinkled over the head will settle them. The growth of the plant will force the mixture out excepting the salt which is absorbed and goes toward solidifying the head.

—Go to Morgester's for all kinds of groceries, provisions, brooms, mopsticks, washubs, lanterns, &c.

Bennett's Branch S. S. Association.

TENTH SEMI-ANNUAL SESSION HELD AT BROCKPORT, ELK CO., PA., ON JULY 18 AND 19, 1879.

The prominent feature of the first session was a children's meeting in charge of Rev. Crittenden, the well known and efficient Sunday school worker.

The topic, "Responsibilities of the parent to the Sabbath school," was opened by Rev. A. B. Hooven, followed by Mr. L. Bird and Bros. Greenly and Norcross.

An attentive audience filled the school house at the evening session. An address of welcome was delivered by Rev. W. H. Norcross, followed by a response by Mr. A. H. Rosenkranz.

A very interesting and practical lecture was delivered by Rev. W. M. Burchfield on the subject, "Qualifications of the Sunday school teacher." A question box exercise called forth some animated discussions.

One of the most interesting features of the Saturday morning session, was a Bible reading on the subject of Charity, or Christian Love, conducted by Rev. A. B. Hooven.

Another interesting feature was an address by Mr. Frank Lenzig on the topic, "Possibilities of the Future." The speaker made a daring attack on some of the present features of the Sunday school system.

Reports were received from the various schools, indicating that the work in the Bennett's Branch valley is progressing.

An interesting feature of the afternoon session was a praise service conducted by Mr. G. W. Weaver.

Considerable good natured excitement prevailed during the election of officers. Mr. L. Bird was elected president; Mr. J. M. English, vice president; Miss Lillian Robacker, secretary; Mrs. David Winslow, treasurer.

A motion to hold a Sunday school jubilee in the Weedyville grove, Aug. 9, was carried amid great enthusiasm.

Thanks are due to Mr. G. W. Weaver for ably conducting the singing, and to Misses Lillian Robacker and Nellie Bird for cheerfully presiding at the organ. Great credit is due to the president, Mr. J. H. Hooker, for the prompt and spirited manner in which he dispatched the business of the convention.

The kind people of Benzenette well sustained their reputation for free-hearted, unbounded hospitality.

The following resolutions were adopted:

Resolved, First, That thanks are due to Rev. Norcross and Mr. E. Lenzig for able services as committee on entertainment, and to the people of Benzenette and vicinity for their cordial and generous welcome and care.

Second, That the thanks of the convention are tendered to Mr. and Mrs. Mason for the music furnished by them at the different sessions.

Third, That we exhort the officers and teachers of all the schools to continue faithful in the work, and we urge all, as far as possible, to keep the schools open during the winter, if only a Bible class.

Fourth, That we feel grateful to all our brethren in the industry who so kindly assisted in the meetings, and we suggest that they preach especially on Sunday school work, at least once or twice a year.

Fifth, That this association request Rev. R. Crittenden to send to such schools in our district a sample of his printed program, or the vacant Sundays of the year 1880.

The eleventh semi-annual session will be held at Miller's Bend, near Driftwood on the third Friday and Saturday of January, 1880.

Helmbold's Buchu.

Helmbold's Buchu has long been known as one of the most valuable medicines attainable in certain classes of diseases, such as dyspepsia, chronic rheumatism, dropsy, catarrhs, affections, and especially affections of the urinary organs. As a diuretic, it is superior to almost any other medicine in use, and the great care with which it is prepared, the absolute purity of the preparation, and the diligence used in the selection of the crude material, have made it known far and wide as a reliable and effective preparation, and one that can always be used with safety and benefit. The great success of Helmbold's Buchu has led to the production of many spurious preparations, which are made cheaply and placed upon the market to be sold on the reputation acquired by Helmbold's original preparation. Parties who desire a really good medicine should be careful and use Helmbold's only.

—Jamestown, N. Y., July 24.—At ten o'clock last night a farmer named James Crosby returned to his home near Conewango station, fifteen miles from Jamestown. He entered his house by an unfastened kitchen door, took off his coat and boots and then called his wife. He had no sooner spoken than he received a heavy blow on the head. He grasped his assailant and fought until he was dragged to the roadway, where he received another blow and was also shot through the hand. His assailant then fled. A cry of murder brought neighbors to the scene of the disturbance, and on entering the house they found Mrs. Crosby lying in her bed dead, and the pillows stained with blood. Finger prints on her neck showed that she had been choked to death to prevent alarming others in the house. She had been dead about half an hour when found. A little child in a trunk, die bed near its mother was not awakened. Private papers were overlooked by the robbers, and a revolver and a small amount of money carried off. Two men were arrested on suspicion but have been released.

List of Losses.

THE DAMAGES OF THE GREAT STORM IN THE OIL COUNTY.

Pittsburg, July 28. —The following is a partial list of losses at Petrolia by Saturday's floods: Whartley's, \$15,000; Bootner's jewelry store, \$5,000; White Fawn restaurant, \$1,000; Stornburg's clothing house, \$12,000; Levine, cigars, \$1,000; Foot's drug store, \$6,000; Sesson's grocery store, \$3,000; five vacant buildings, \$5,000; Central drug store, \$2,500. The loss in that neighborhood is roughly placed at \$200,000. The scene during the destruction was terrible, men, women and children rushed hither and thither in search of elevated positions, where life would be secure. Many people lost all their effects and are left in a state of destitution. The storm was most severe up the Monongahela and Allegheny valleys. The report of bridges destroyed and culverts washed out on the Pittsburg, Ft. Wayne and Chicago railroad, are incorrect. The only damage on that line was a land slide, which was cleared away in a couple of hours. The damage on the Erie branch of that road was repaired Saturday evening. The main line of the Pennsylvania railroad escaped damage. Several heavy land-slides occurred on the line of the Pittsburg, Virginia and Charleston railroad. The track was washed out at Black Diamond and the Mingo valley flooded. The rivers at this point rose from ten inches to ten feet in less than ten hours.

—The boys and others who go in swimming will do well to take heed of the following advice:

"Avoid bathing within two hours after a meal, or when exhausted by fatigue or from any other cause, or when the body is cool after perspiration, and avoid bathing altogether in the open air, after being a short time in the water, there is a sense of chilliness, with numbness of the hands and feet, but bath when the body is warm, provided no time is lost in getting into the water. Avoid chilling the body by sitting or standing undressed on the banks or in boats, after having been in the water, or returning too long in the water, but leave the water immediately there is the slightest feeling of chilliness. The vigorous and strong may bathe early in the morning on an empty stomach, but the young and those who are weak had better bathe two or three hours after a meal; the best time for such is from two to three hours after breakfast. Those who are subject to attacks of giddiness or faintness, and who suffer from palpitation of the heart, should not bathe without first consulting their medical adviser." After bathing a vigorous use of the towel is very beneficial, and should be followed by moderate exercise (i. e. a gentle reaction sets in. The old notion of plunging into cold water when the body is heated has long ago been exploded. In fact it is now clearly established that the colder the water the hotter should be the bather. Fever patients, it is well known, never take cold even at night, unless for brief intervals in ice water. If the body is not already in a vigorous glow, bathing is sure to do more harm than good.
