Newspaper Laws.

1. A postmaster is required to give notice by letter, (returning a paper does not answer the law) when a subscriber does not take his paper out of the office, and state the reasons for its not being taken; any neglect to do so makes the postmaster responsible to the publisher for the payment. 2. Any person who takes a paper

from the postoffice, whether directed to his name or another, or whether he has subscribed or not is responsible for

the pay.
3. If any person orders his paper discontinued he must pay all arrearages, or the publishers may continue to send it until payment is made, and collect the whole amount, whether it be taken from the office or not. There can be no legal discontinuance until the payment is made.

4. If the subscriber orders his paper to stop at a certain time, and the publisher continues to send, the subscriber is bound to pay for it, if he takes it out of the post-office. The law proceeds upon the ground that a man must pay for what he uses, 5. The courts have decided that re-

fusing to take a newspaper and periodicals from the post-office or removing and having them uncalled for, is prima facia evidence of intentional the funeral.

It appears that James has been too expert with the use of the pen. and is charged by his brother Peter, a resident of Wayne township, Armstrong county, with attaching his name to a note upon which he drew \$200 from the First National Bank of Kittauning, and to answer this little piece of slight of hand he now languishes. The case has an ugly look, and it is possible that James will take

These men are held to answer the charges of burglary and larceny, and are supposed to have belonged to the band that marauded the country, carrying off grain, harness, &c., and robbed the farmers' spring and smokehouses. They will be tried at the ensuing term of court.

The dog evidently got the package from a broken place in the wall of the school house, there being marks of something having been removed therefrom, and it is supposed the thieves placed it there for safe keeping, and fail d to secure it perfectly. Cucumber Pickles. The thing is to make them green, and do it without introducing any salt of copper. The way to get the color is to extract it from some vegetable substance. SHOCKING RAILROAD ACCIDENT. George Weitzel, aged thirty years, a resident of Sunbury and employed as a brakeman on the Philadelphia and Erie railroad, met with a horrible death on Sunday morning, about one o'clock, at the water tank near Wayne station, six miles east of Lock Haven. The fast express east, on which deceased was a brakeman, stopped at the tank. While the victim was about to step from a house car to the tender of the engine, he missed his footing, and falling to the track nine cars passed tum fleri facias issued out of the Court over him, tearing the body literally into pieces. The remains were gathered up and sent to Lock Haven, where, after an inquest was held over them, they were placed in a coffin and sent to Sunbury. - Harrisburg Pa-
