## Literary Revolution and Universal Knowledge.

An Encyclopædia in 20 Vols., over 16,000 pages; 10 per cent, more matter than any Encyclopædia ever before published in this country, and sold handsomely and well bound, in cloth for \$10, in half morocco for \$15; and printed on fine heavy paper, wide margins, bound in balf Russia, gilt top, for \$20—an enterprise so extraordinary that its success, beyond all precedent in book publishing, may be fairly claimed to inaugurate a Literary Revolution.

THE LIBRARY OF UNIVERSAL KNOWLEDGE is a reprint entire of the last (1879) Ediuburgh edition of "Chamber's Encyclopædia." with about 40 per cent, of new matter added, upon topics of special interest to American readers.

cent of new matter added, upon topics of special interest to American readers thus making it equal in character to any similar work, better than any other suited to the wants of the great majority of those who consult works of refersuited to the wants of the great majority of those who consuit works of reference and altogether the latest Encyclopædia in the field.

Specimen Volumes in either style will be sent for examination with privilege of return on receipt of proportionate price per volume.

Special Discounts to all early subscribers, and extra discounts to clubs. Full particulars with description catalogue of many other standard works equally low in price, sent free.

Leading principles of the American Book Exchangs:

I. Publish only books of real value.

II. Work upon the basis of present cost of making books, about one-half what it was a few years ago.

few years ago.

Iii, Sell to buyers direct, and save them 5) to 6) per cent commission commonly allowed

to dealers.

IV. The cost of books when made 10,000 at a time is but a fraction of the cost when made 10 at a time—adopt the low price and sell the large quantity.

V. Use good type, paper, etc., do cireful printing, and strong, neat binding, but avoid all "padding," fat and heavily leaded type, spongy paper and gauly binding, which are so commonly resorted to make books appear large and fine, and which greatly add to their cost, but do not add to their value.

VI. To make \$1 and a friend is better than to make \$5 and an enemy.

FOR RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.

Ir is a most agreeable dressing, which is at once harmless and effectual, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray, light, and red hair, to a rich brown, or deep black, as may be desired. By its use thin hair is thickened, and baldness often though not always cured. It checks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while to brashy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

The Vicon cleanses the scalp, cures and prevents the formation of dandruff; and, by its cooling, stimulating, and soothing properties, it heals most if not all of the humors and diseases peculiar to the scalp, keeping it cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.

#### As a Dressing for Ladies' Hair,

The Vicon is incomparable. It is colorless, contains neither oil nor dye, and will not soil white cambric. It imparts an agreeable and lasting perfume, and as an article for the toilet it is economical and unsurpassed in its excellence.
