-William E. Chandler says: "The Bouth will split up and in four years' time three or four of the electoral votes of the South will be cast for the next Republican candidate for the Presidency, whom he thinks too, will be nominated without a struggle-that is a fight between any of the factions of the party. The issue of free trade will be forced, too, upon the Democracy. The Republican party will favor a protective tariff. In the Eastern States such an issue will give strength to the Republicans, and while in some 000,000, only 40,500,000,000, and Michicent."

-John Miles is a happy Mormon. The Supreme Court Monday reversed the court of the Utah courts, which had found him guilty of bigamy. The decision of the U.S. Court is based upon the fact that he was convicted on the testimony of his second wife, and the laws of Utah do not permit a wife to give evidence against her husband. A new trial is ordered, but John is happy notwithstanding, as there is little or no chance of proving his bigamous practice so long as his victim or victims are debarred from the witness stand. Evidently we need some more law before Mormonism can be repressed, but if this decison gives our Congressmen the proper cue John our Congressmen the proper cue John may yet hav the laugh turned against boundaries in the next ten years, so him.-Bradford Star.

-A horrible practice is reported as prevailing in West Virginia, where paupers are disposed of by auction to the lowest bidders. The man who agrees to keep the pauper at the lowest amount for a year becomes the purchaser. It is reported that the unfortunate victims of this barbarous plan are subjected to all sorts of hardships, the purchasers in many cases being characterless parties who starve the her with only 25,000,000,000,000, and Min-

with which his statements were re-ceived by those pretending to be in-formed on the subject; but you have now the satisfaction of showing that the warnings then given are fully justified by the reports of the govern-ment itself now coming to light through the medium of the lumber inormals of the west which I may rejournals of the west, which I may remark, were as adverse to giving currency to the facts then as they are now urgent to have it recognized that they assisted in giving the warning.

The facts that he presented were, that of the whole 26 states, comprising the New England, middle, western, and the question was, how long the supply for commercial purposes would last the drain upon them? The white pine being the wood of prime importance, his remarks were that the supply of this timber was confined almost entirely to the three states of Michigan, Wisconsin and Minnesota, and that the demand on them was very heavy for all the sections of the coun-

try that it would not be possible for them to respond to it for more than six or seven years longer. The Northwestern Lumberman now coming report of the United States

From the above it will be seen that even now, when only three years of the six or seven mentioned by Mr. Little have gone, these states have reached a condition when common prudence would say they had not an other foot to spare. They are rapidly growing in wealth and population, and in all probability will have 6,000,000

that the amount now remaining would barely supply their own wants for twenty years from to-day; but what will be their condition in four years from this time if the continued slaughter of the pine is kept up!

In round numbers, Michigan is parting with her forests at the rate of 5,000,000,000 feet a year; consequently at the end of four years will only have 10,000,000,000,000, remaining to supply her more than 2,000,000 people. Wiscon-sin will probably part with 13,000,000,-
