The English language is being rapidly reformed in accordance with the advanced morality of the times, and in no particular is the reform more striking than in the treatment of that old-fashioned, ugly word "lie." A statesman's lie is now "diplomacy," a soldier's is "strategy," a society man's is "politeness," a politician's is "patriotism," and when a reporter is found so unscrupulous as to tell one it is called an "item," if it cannot be termed "humor."

Some further results of the census of the 18th of December last in France are now known. The total population of France present on that day was 37,321,000, against 33,005,000 in 1876, an increase of 4,316,000. The increase is almost entirely confined to the larger towns. The 46 towns of 30,000 inhabitants and upward show a total increase of population of 488,000. Only eight of these eight reveal diminution, and only four of these eight reveal administration of any moment. These are St. Etienne, which has lost 2,200; Cherbourg, which has lost 1,800; Versailles, which has lost 1,500. On the other hand, Paris, has gained 237,000, Marseilles 28,000, Lyons 20,000, Nice 25,000, Lille 15,000, Reims 12,000, and Havre 10,000.

A terrible accident occurred below the big dam on Bennett's Branch last Thursday, by which two men, engaged on Cochran Bros. drive lost their lives. John Grant and Henry Swift were sent to get some logs off a bar, in the river, and told to remain on the bar until the splash passed, but instead of doing as they were ordered, the men back took a log and attempted to ride down the stream. Grant who could not swim, fell into the river, Swift going to his rescue and telling Grant to take hold of his cant-hook, which was done and Swift made for the shore. Grant was drowned before Swift reached the shore and the latter climbed upon a rock but was swept off by a log and also drowned.

National Guard Encampment. (Harrisburg Patriot.) Orders will be issued during the present week relative to the summer encampment. About three hundred acres of ground have been secured at Lewistown, on the Pennsylvania railroad. A good portion of it is in soil and a part in corn stubble. It is bounded on one side by woods. Two fine streams of water run close to it—one crosses it and the other flows on one side. Altogether, it promises to be an excellent location. The proceeds of the recent sale of condemned arms at the arsenal will be devoted to the purchase of camp equipment.

Railroad Notes. —The suit of Beetha S. Powell against the Springville & Sardina Railroad was tried Friday in the Circuit Court, Buffalo, before Judge Daniels. In 1879 the defendant ran its tracks through the farm of the plaintiff who refused to accept \$200 for the right of way and demanded six hundred. The railroad refused to pay any such sum, and on this trial the jury awarded the plaintiff \$55.—Buffalo Courier.

The great trestle at Rock Glen on the Rochester & Pittsburg Road, which is being filled in, is now half covered. C. Thompson & Co. who have it in charge, say that it is a very particular piece of work. The President of the Rochester & Pittsburg, Walston H. Brown, for whose approval important matters upon that road have long been waiting, hardly arrived upon the line before he was called to New York by telegraph. The directors of the road have delegated an agent to look into the Warsaw salt well matters and see if it cannot be bought and worked as a paying investment. New York capital can be secured by this syndicate in any amount to work interests which will pay an ordinary per cent. The Wyoming salt well is not worked to its full extent and the company see no active signs of anything being done in Warsaw. They think it only requires a little enterprise and capital to be made a paying investment.

The dinky little depot at Machias, on the Rochester & Pittsburg, at its junction with the Buffalo, New-York & Philadelphia, will soon be repaired and enlarged as it is too small for the largely-increased business of the company at this point. Large transfers of freight, express, and passengers are made at this depot for the oil regions.—Buffalo Express.

The Rochester & Pittsburg Railroad will run through Kinzua chasm in Pennsylvania on a trestlework forty feet high and the Erie trains will rumble over it 200 feet overhead. It will be a curious sight to see trains of both roads passing the point at the same time, with such an enormous difference in the elevation of the tracks. Negotiations are in progress for the right of way of the R. & P. through Bradford.

Important Decision. The Supreme Court has just decided against the Reading Railroad Company in its appeal from an award of a road jury, which assessed that company and its branch, the North Pennsylvania Railroad Company, for the opening of a street in Reading. It was held by the court that a railroad company was just as liable for an increase in the value of its property by the opening of a street as a private owner.

Newspaper Sharks. That class who take a paper for a number of years and stop without paying for it, are reminded that "the new postal law now makes the taking of a newspaper and the refusal to pay for the same, theft, and any person guilty of such an act is liable to criminal proceeding, the same as if he had stolen goods to the amount of subscription." A theft, doubtless in the same category of offenses, for one to order a pound of coffee or any other groceries, when wrapped or bagged and laid on the counter, for the purchaser to walk off with the article without paying for it—a theft as glaring as to take a newspaper from a postoffice box unpaid for a year, and when demand is made refuse to pay for it. The law is a good one and should be enforced, as is being done in New York, a proprietor having instituted suit against several subscribers for the offense. Another set of offenders are those who remove from the city and county and neglect to pay their subscription, or remove to another party of the city or the country without giving notice of removal; and being indebted for the paper for some months, conceive this plan of secrecy an effectual one to get rid of payment. This newspaper men are robbed of their just dues—a loss to which all are more or less subjected through downright dishonesty. Such sharks should be dealt with as the postal law suggests, and an example made of some of them, would have a restraining effect on others likewise offending.—Ez.

The City of Montreal had stored away in the steerage six hundred girls, who come thither to enter as domestics in families of the New World. Many of them are represented as exceedingly attractive in appearance, and they all seemed to be full of life and hope. Such a cargo contained the hopes of food parents and friends who will anxiously wait to hear of their arrival and into what kind of hands they are placed. Surrounded by strange influences, a man or woman is a fend that would seek to mislead their steps. They come to earn an honorable living, and no doubt have hopes that by marriage they will become the honored and loved wives of industrious men. May not one of them be disappointed.—Williamsport Gazette and Bulletin.

Another Richmond in the Field. Mr. EDITOR.—Last week's Democrat contained another communication of the now familiar nom de plume of "Prof. San Grado," in which is a plain intimation of more to follow. Well may we exclaim, "where is this thing to end?" Who is "Prof. San Grado?" By their remarks shall we know them. Seeking to establish his identity upon the hypothesis that he had the evidence so distinctly marked as to prove him to be the same doughty Knight who for the past three months has, week by week, inflicted his scurrilous upon readers of the Democrat and the Advocate over convenient and anonymous signatures, his favorite chosen pseudonyms being respectively "Prof. San Grado," "A Woman," "A Man," "A Child," "A Republican," and "A Democrat." In the aggregate making a mass of matter filling many columns. Now what is it all about? A patient perusal of all these voluminous articles has led to the following discoveries, viz: That this man of multifarious literary titles first introduced himself to the public in the Democrat of Jan. 20, and after remaining identity upon the hypothesis that he had the evidence so distinctly marked as to prove him to be the same doughty Knight who for the past three months has, week by week, inflicted his scurrilous upon readers of the Democrat and the Advocate over convenient and anonymous signatures, his favorite chosen pseudonyms being respectively "Prof. San Grado," "A Woman," "A Man," "A Child," "A Republican," and "A Democrat."
