

NEWS EVENTS.

EASTERN AND MIDDLE STATES

SPARKS from a locomotive set fire to and destroyed about thirty square miles of trees in Ocean county, N. J., causing a loss of \$250,000.

Tax not funded debt of New York city on July 31 was \$97,503,338.88.

Much excitement existed among the strikers at Pittsburgh, Pa., and vicinity on account of a general belief that one of the large iron manufacturing companies at McKeesport was about to resume operations.

At a meeting of the New York Republican State committee it was resolved to hold the annual meeting of the National Civil Service Reform League at Newport, R. I., with an address by George William Curtis.

REAR-ADMIRAL JOHN C. BEAUMONT, United States navy, died suddenly at Durham, N. H., where he was spending the summer with his family.

WHILE Darum's show was being transferred from Troy, N. Y., the elephant Emperor became unruly and suddenly entered a rail mill, causing a stampede of the employees.

LAST month the total receipts from customs were \$37,826,007, and the expenditures were more than \$20,000,000.

THE President has approved the act to amend the statutes in relation to copyright; the joint resolution for the relief of Sarah J. S. Garret, widow of H. H. Garret, late minister to Liberia; the act regulating the carriage of passengers by sea; and the granting right of way for a railroad and telegraph line through the lands of the Choctaw and Chickasaw Indian nations.

ANTHONY HALE, who was the oldest living ex-Congressman, died the other day at Bridge-water, Mass., in his ninety-ninth year.

A TRAIN of seventeen cars heavily loaded with coal became unmanageable while descending a steep grade near Pittsburgh, Pa., and ran away.

At a distance the engine plunged into some cars standing on the track and created great havoc.

WHILE fighting the flames in a burning carriage factory at Pittsburgh, Pa., a falling floor precipitated ten firemen to the room beneath.

Two of the cadets at West Point had a fight during which one of them was so severely injured that he had to be taken to the hospital in an insensible condition.

SOUTH AND WEST.

SEVERAL deaths from yellow fever having occurred at Brownsville and at Matamoros, both Texas towns, a quarantine against them was established by surrounding points.

A WATERBOAT in the vicinity of Millersburg, Ohio, swept away a number of bridges and houses and drowned five stock.

AN AM. HARMLESS, a colored man, alleged to be 120 years old, died the other day in McKinney, Texas.

NEARLY every State was represented by exhibits at the opening of the National Mining exhibition in Denver, Col. The opening address was made by Hon. William D. Kelley, of Pennsylvania.

SIXTY freight cars were wrecked by a collision and then burned near South Bend, Ind. Several trains are supposed to have perished, and the pecuniary loss is estimated at \$150,000.

THE Iowa Republican State convention at Des Moines nominated a full ticket, headed by J. A. T. Hall, the present incumbent, for secretary of state.

THE Indiana Democrats in State convention at Indianapolis nominated a full ticket, headed by W. R. Myers for secretary of state.

THE Ohio prohibitionists have put a full ticket in the field.

DURING a heavy storm in Milwaukee twelve houses were struck by lightning, one man was killed and damage was done to property to the extent of \$100,000.

THE Georgia Republicans split into two factions at their State convention in Atlanta.

WALTER HAMILTON YEATS was hanged at Chatham, Va., for the murder of Presley E. Adkinson, a young merchant.

UNPRECEDENTED rainfall produced such a sudden and mighty flood in the narrow valley between Bendville and Corning, Ohio, that the water literally swept everything before it.

DURING a picnic of working people at Chicago a small boat upset and four persons—an old lady and three married men—were drowned.

CHARLES A. VOELGER, junior member of the firm of A. Voelger & Co., proprietors of "St. Jacobs Oil," died the other day at Baltimore, aged thirty one years.

FROM WASHINGTON.

The House committee on foreign affairs has made a report embodying the results of its inquiry into the fate of certain papers missing from the files of the state department.

The Senate bill to place General Grant on the retired list was referred to the committee on military affairs.

Mr. Page, of California, under unanimous instructions from the committee on commerce, moved to take up the river and harbor bill.

Mr. Williams, from the committee on foreign affairs, submitted a report on the bill for the relief of the British subjects.

Mr. Page, of California, under unanimous instructions from the committee on commerce, moved to take up the river and harbor bill.

Mr. Williams, from the committee on foreign affairs, submitted a report on the bill for the relief of the British subjects.

Hints to Bathers.

1. When using baths as curative means do not depend upon your hand to determine the temperature, but use a thermometer.

2. Let the room be heated above seventy degrees, and made impervious to draughts.

3. Extremes of temperature are seldom useful in health and may be dangerous to very young or old persons, to invalids and convalescents.

4. Cool baths are not well borne by one who is cold or fatigued—during the menstrual period, nor by many persons not constitutionally robust.

5. Do not bathe soon after hearty eating or drinking or when overheated; though a cool plunge is not likely to be hurtful when somewhat overheated if it is in but a few minutes' duration and followed by brisk rubbing.

6. Before leaving a warm bath add a little cold water, unless the bath is to be immediately followed by a warm bed.

7. Neither in health or disease is there any advantage in prolonging a bath more than fifteen minutes, and tonic cold baths should consist mainly in a plunge or a dip and a rub.

8. If reaction on a retaining glow of warmth in the skin is not made sufficient in brisk rubbing and exercise, a warm drink will assist, and sometimes the use of a mild stimulant may be necessary.

9. The head should as a rule be wet proportionately with the rest of the body, so that the blood circulation may be equalized.

10. In sickness, nervousness, restlessness and exhaustion, relief is often afforded by a salt sponge-bath, and a little alcohol or ammonia in the water may make it more agreeable.

11. In administering sponge baths it is usually best to finish one part before wetting another.

12. Compresses are folded wet cloths, which may be wrung out with cold, warm or hot water, laid upon a part and covered with a dry flannel cloth.

What a Three-Cent Stamp Will Do.

It will do more than any other piece of paper of its size and weight in the world.

It will do more than any other piece of paper of its size and weight in the world.

It will do more than any other piece of paper of its size and weight in the world.

It will do more than any other piece of paper of its size and weight in the world.
