Venient, having large ovens and being ready bakers.

Out new patented DOUBLE-OVEN STOVE is the best constructed up-draft stove ever invented. It will heat a large boiler of water, boil two dinner pots, broil a beef-steak, bake bread and pies and roast meat, all at the same time and with a single fire.

Invalids, and off persons who appreciate the influence of ven ilsted apartments upon health, will be pleased with our PORTABLE GRATES and MODEL FRANK-LIN STOVES, which are of beautiful and ornamental patterns, and give a sheerful, open fire, and through ventilistion.

patterns, and give a sheerful, open fire, and thorough rentilation.

Strict economists will be satisfied with our SILVER'S GAS-ONSUMING PARLOR STOVES. Many of the to-called gas-burning stoves introduce cold air to the top of the fire, the effect of which is to cool the stove and waste the fuel, precisely as if a stove door was opened above the fice. In a true gas-burning stove, the air should be heated, in a hot-air chamber, to a temperature sufficient to ignite the gases, on the same principle as is adopted in our gas-burning cooking atoves.

In addition to the above, a large assortment of Parlor Gooking Stoves, Parlor Stoves, for coal or wood, Hall Stoves, Fortable Heaters, Gooking Stoves, of every description, Gas Ovens, Stove Fixtures, and Repairs may be found, in every variety, at our Wareroums, No. 200 Nor.h SECOND Street, above Race cole-tf. QUEEN'S PORTABLE FORGE.

Doubtiess many of our city readers, in passing the gangs of workmen employed in laying down streets, had their attention attracted to a portable forge, with bellows and everything complete, and in efficient service. These forges, built upon the plan secured by 0. V. Queen's patent are for sale at the commodious, long-established, and deservedly popular Store, Range, and Furnace establishment of WARNIOK, OHAD-WIOK, & BROTHER, corner of SECOND and RACE Streets, who have the sole right for the sale of Queen's Portable Forge in Pennsylvania.

There are, we believe, twe sizes of this forge, ranging in price from twenty-two to forty-four dollars—assum so small, when contrasted with its merits, as to secure its general introduction; for any one who will for a mement consider the sdynattages of this forge, which may be removed from place to place, so as always to be on the spot where workers in iron or other metals are to perform service, whether in original construction or repairs, will at once concede its great efficiency, and arrange for its possession and use. The adaptability of this forge to repairs to railroads and unling machinery especially commends it to railroad companies and operators in the uniting districts. We, therefore, take placaure in calling to it the strenion of road masters, an perintendente of mines, and others.—[From the United States Railroad and Mining Register

SOMETHING NEW.—GAS BUR-SOMETHING NEW.—GAS BURNING COOK STOVE,—I would respectfully call the attention of the public to one of the greatest improvements ever introduced in Cooking Stoves and Runges—the burning of the gas arising from the coal, by which means is saved 50 per cent. In fuel and also more intense heat thrown to the bottom of the oven. We effect the burning of the gases by means of a hollow centre-plece, perforated on the under side. which admits the air in a heated state to mingle with the gases, thus slding its combustion, and catsing a fleme to pass around the oven equal to a wood fire. This improvement also preserves the centre plece from sinking down on the fire, thereby saving the expense of repairs One of the Stoves CAN BE SEEN IN OPERATION 11116 MARKET Street.

Private instruction, though favorable to rapid progress, yet sends the scholar into the world with a keen sensitiveness, which totally disqualifies him for active life; whilst attention to many oftentimes forces the instructor to meet general difficulties rather than those personal to each individual, and the learner either loses all interest, or becomes superficial in his acquirements. For these and other reasons the number is limited.

DERUVIAN SYRUP, Having successfully passed the ordeal to which new dis-coveries in the Materia Medica are subjected, must now be received as an established medicine. Its efficacy is DYSPEPSIA,

The proofs of its efficacy are so no merous, so well authenticated, and of such peculiar character, that sufferent cannot reasonably hesitate to receive the proffered aid.

The Peruvian Syrup does not profess to be a cure-all, but its range is extensive, because many diseases, apparently unlike, are intimately related, and proceeding from on cause, may be cured by one remedy.

The class of diseases for which the Syrup provides a cure is precisely that which has so often haffed the highest order of medical skill. The facts are tangible the witnesses accessible, and the safety and efficacy of the Syrup incontrovertibly wish for an opinion from distinct of the Syrup respecting the character of the Syrup interested persons respecting the character of the Syrup interested persons respecting the character of the Syrup cannot fail to be astisfied with the following, among nu merous testimonials, in the hands of the Agents. OERTIFICATE OF DR. HAYES.

It is well known that the medicinal effects of Protozide of Iron is lost by even a very brief exposure to sit, and that to maintain a solution of Protozide of Iron without further oxidation, has been decomed impossible. In the Peruvian Syrup, this desirable point is at tained by combination in a way before unknown, and this solution may replace all the proto carbonstes, of trates, and tartrates of the Materia Medica.

a miserable existence, of a pale sickly color, weak and emaclated, who could be restored to health by the use of one bottle of this invaluable medicine. It is no humbug, but a genuine remedy, being free from any thing that is of an injurious nature.

FOR ALL DISBAEES OF THE BLOOD there is no better santidote than Hobensack's Iron Bittors. When the blood is impure the whole body is full of disease. Blood letting may answer for a time, but cleansing a part will not purify the whole. At the fountain we must begin, and to cleanes the blood there is no better remedy than these invaluable Bitters. Their chief constituent is iron, and we all know its efficacy in removing the impure matter from the whole vinceral system. CHESTNUT GROVE WHISKEY.—A desira to lessen the consumption of impure spirits, knowing their injurious effects upon the constitution, has induced the off-ring to the public of an article which the analyzation of Processor Chilton, Analytical Chemist, of New York, and Messrs. Booth, Garrett, & Camac, of Philadelphia, proves beyond all question; to be the most pure and consequently least injurious spirits ever offered the American public CERTIFICATE OF DR JAS R CHILTON.

I have analyzed a sample of Chestant-Grove Whiskey, received from Mr. CHARLES WHARTON, Jz. of Philadelphia, and having carefully tested it, I am pleased to state that it is entirely free from poisonous or deleterious substance which an unusually rure and fine flavored quality of Whiskey.

New York, Sept. 3, 1868. Analytical Chemist.

Dear Sir: We have carefully tested the sample of Chestant-Grove Whiskey which you sent us, and find that it contains none of the poisonous substance known as Fusic Oil, which is the characteristic and injurious ingredient of the Whiskeys in general uss.

Very respectfully,
