OLD OFFENDERS AT WORK.—A party of Schuylkill Rangers recently went to a store at Twenty-fourth and Pine streak, kept by Morris Dalton. They commenced to selp themselves to what they wanted; and when remonstrated with by the owner. They beat him in a meet bruttl menner. A young Irlshuman, named John Morrissev, one of the gang, was arrested; and held to ball in \$1 000 to answer The present race of Schuylkill Rangers are an offshoot from the old fribe which used to inf at the western part of the city. The end which most of these wriches have arrived at should be sufficient to deter others from fol-lowing in the same road. Some have finished their days in prison, others are living abroad common cullaws; some are in the pointentiary, while a few (act mer encuph) have ended their infamous cureer on the gui-lews Most of the present race of Rangers are employ-ed as hands upon canal boats, and as winter sets in they settilo on shore, and commit deeds of outrage and etime. FIRE YESTERDAY....About 11 0°clock, yessubject he has chosen reple's with interes', we trust that he may be greeted with a crowded audience. "FAIR PLAY FOR WOMEN !" is the subject announced for Mr. George W. Cartis' lecture before the People's Literary Institute, on Thursday evening. We have no doubt that this fact laid before the lady readers

of The Press, will alone be sufficient to fill iwo hal's the size of Concert Hall on that evening.

THE "ORGAN" ON PUFFING -From time imme FIRE YESTERDAY .--- About 11 o'clock, yes rine I SETERDAY.---ADORU 11 O'CLOCK, y08-torday morning, a fire was discovered in u hos second-story back room of the building. No. 345 Second street, bear New. The first floor was cocupied by Mirs. J. Hamburger, as a millinery slore, but the three.upper stories were not occupied; the tenant who bad formerly, resided there having removed a flow days since. Officer Crouse, with the essistance of some of the members of the Relance Ergine Goupany, rucceedd in extin-guishing the flames with a few buckets of water, before, any considerable damage had been done, snd any mable orial, organs have been given to blowing; but the Wa hington Union, the organ of the National Admir-istration, ceases for a time from blowing, to descant on putfing in Philadelphis. The Grion admits that, al-though an old stager to journalism, it frequently tum-bles into the pitfalls laid by skilful puff-writers, and that it is often unwittingly duped into reading the announcement of the excellence of somebody's wares, when it fancies that it is about being enlightened with any confiderable damage had been done, and any public alarm given. The fire originated near the fire-place. and the charring of the floor and joist had orderity been going on for several months, no doubt the resul-of culpable carelesseness in the constructor of the builda bit of news or edified by a scrap of philosophy. This is, of course, the very aim and object of the drawing-on-puffs, and no sensible man will ever ofject to being "sold," provided the sa's is attended with euch excel-" sold," provided ine case is astronom, and the Brown Sione leatsdrice as buy your garmonis at the Brown Sione Olothirg Hall of Rockh II & Wilson, Nas. 603 and 606 AN INTERESTING LECTURE .--- We would call

AN INTERESTING LEGITORS. -- We would chir: the stiention of curresders to the lecture to be deliv-ered by the Rev Dr. Murray (Kirwan), this oraning, in the Murical Fund Hall. The lecturer is distinguish-ed for his elegeneoe, and the lecture is one that should command the attent on of sil. Dr. Murray has generously agreed to deliver this lec-ture at the request of the superintendents of three of our most Hourshing missionery schools, to arslet them in their moble efforts in bringing in the neglectod ones, and not only ministruing to the replicital necessities. Obestnut street, above Sixth. THE USE OF A DOG'S TAIL -- It is an absurd, as well as a barbarous act, to cut off a dog's tail. You might as well cut out his torgue. Indeed a dog talks far more with his tail that he does with his tongue. With his tail, a dog not only shows his graitude, as Fido did, but hope, estrevity, comp'scence, affection, lovo, obedience, wrath, shame defineos, fear, and frolio. It is clear, then, that in depriving a dog of bis tail, In their noise enforts in origing in the negrector blow, and not only ministering to the r splittual necessities, but size to feed and clothe them during the present winter. FINED FOR PROFANITY.--A young fellow, named Isaao Ackuff, who rendered himself particularly obnoxious to some of the residents of the Twenty-third ward, on Bunday ovening, by being drunk, and using indecent and profane language, was a roated at the corner of Marshall and Yeurago streets, by Officer Kerbaupt, and taken before Alderman Boucher, who mulcied him in the round num of sixteen dollars for a string of oaths, five dollars for drunkences and other disorderly conduct, and bound him over in \$500 to keep the peace. The penalty seemed servor to the hopfall, but it would be well for the community were it imposed more frequently on such awagering fellows, who have that they have a right to mike themselves is off-asires as possible to averybody with whom they come in con-tact. f seasonable clothes await them at the palatial store of Grany.llo Stokes, No 607 Chesinut street.
