We take great pleasure in presenting to the public our MAIZENA, (which is put up in one pound package, with directions for use on the wrapper), as being by far the OHEAPEST, as well as the most delicate and wholesome article for outlinery use now extant, and is conceded to be, by the many that have tested its delicate qualities, a most important addition to our national 'Bil of Fare,' particularly for desert. The article is manufactured with the utmost care from the choicest selected Southern Indian Corn. The water used in its manuf-cture is drawn from percenta Springs, and is remarkably pure and wholesome; no water could be better fitted for the cleaning of a substance designed to be used largely for food, and to render it particularly adapted to the use of invalids and the sick room, it being equal, if not superior, to the best Bernuda Arrow Hoot. Partice in the Trada are invited to call, when we will take pleasure in presenting them samples.
