The Knowiton Stump 't kractor differs in many easential points from the Willis Extractor. The shears are used; but this Mr. Willis claims to has an infrarement of his patent. In all other respects it is vastly inferior. It is sledie-shaped, and therefore, cannot be used with it sets to the patent in resulters along here. It resultes storpage, a proping up of the patent is resulted and a consequent loss of time and patent in the patent is works in one direction ouls, while Willis's machine works with equal facility backward, forward.
