The greatest misfortune we could suffer would be the indefinite prolongation of the contest through a long series of years, because neither party had strength and power enough to bring it to a speedy conclusion. It was the curse of Mexico, in her recent civil contest, that her resources were so much exhausted, and each of her contending factions so much enfeebled, that for a long period neither could command sufficient energy to strike a decisive blow, and thus a distracted and disorganized condition what that excellent paper, The Albion, also pub thus a distracted and disorganized condition

The readiness with which our gallant State has responded to the call of patriotic duty has won the admiration and applause of every of our troops are now on their way to the that Pennsylvania will falter in a single point of her duty. All know that she is ready and eager to bear a double share of the burdens and the dangers of the conflict. But while confident of her power not only to protect herself, but to carry the war into the strongholds of the enemy, there is much justice and

holds of the enemy, there is much justice and wisdom in the following suggestions which we find in the New York Evening Post of yesterday:

On the southern frontier of Pennsylvania, in the midst of a population faithful to the Union, and within easy distance of the seat of Government, should be gathered a powerful army, to be drilled and kept under discipline, and ready to proceed at a moment's netice to any point where it may be needed Between its camp and the seat of Government thefreest possible communication should be kept open by railway and telegraph, and the slightest attempt to obstruct it should cost the slightest attempt to obstruct it should cost the slightest attempt to obstruct it should cost the slives of the offenders. It was not many weeks ago that it was understood to be the desire of General Scott to form an encampment at Carlisle, in Pennsylvania, for this very purpose. The plan was a wise one, and we do not see why measures are not taken to carry it into effect.

We hear that the rebels against the American Government are concentrating their forces at Harper's Ferry Seven thousand neon; it is said, are already collected there, and five thousand more are expected. This is to be the centre of their military operations, a point from which they might have struck at the stability of the control of the plan was a wise one, and seven the stability of the plan was a wise one, and we do not see why measures are not taken to carry it into effect.

We had an interview last evening with FRANCIS D. HOSKINS, a resident of this city, who has been a student for the last year at the heological seminary at Alexandria, Fairfax county, Virginia. Hoskins represents that the feeling in favor of Secession among the outhern students was almost unanimous after Mr. Linc: Ln commenced his present course of action. The Northern students, some thirty in number, were unable to express their Union sentiments, and accordingly embraced the first opportunity to leave for their homes. Mr. Hoskins left the college on Saturday morning at ten o'clock. Arlington Heights, opposite Georgetown, D. C., were unoccupied, alhough it had been extensively rumored that the Secessionists had command of that point. In Washington all was quiet and peaceful on Saturday afternoon, and the American flag with the Baltimore Sun of Sunday morning, from floated from nearly all the private and all the public buildings. At Baltimore, on Saturday evening, the most intense excitement prevailed, and at half past ten o'clock on Sunand story, and enthusiastic as we have long day morning the military of the city were known the devotion of the American people called to arms in consequence of the ruto it to be, no one could have sounded the mor that eight theusand Northern troops depths of this feeling or realized its full extent were within two miles of that city, and rebefore the present excitement was engendered | solved to march through. inaugurated, knows no diminution in the city The following items of note we record. ABBIVAL OF THE FIFTH PENNSYLVANIA REGIMENT At four o'clock yesterday afternoon the Fifth Pennsylvania regiment of volunteers, numbering even hundred and eighty three men, arrived in this city from Harrisburg. They came in a train of seventeen cars over the Pennsylvania Railroad, and proceeded to the Baltimore depot. The Fifth egiment was mustered into service on Sunday, at Harrisburg, and is composed of brave men from the interior counties who are eager for the tray, r, to use their own words, "spoiling for a fight." They were equipped at the State capital with muskets and blankets. They remained at the depot until seven o'clock last evening, when they marched to the Delaware and went on board the Eriosson steamers. They will proceed immediately to Washington. The following is a list of the different companies, with their officers: Col., R. P. McDowell; Lieut. Col., B. C. Christ; Major, R. Bruce Petriken. The United States Zouaves, Capt. C. Christ.

THE CLOTHING ARRANGEMENTS AT THE GIRARD HOUSE. The scene at the entrances of the Girard House on Chestnut and on Jayne street, yesterday, were curious and interesting beyond precedent. Thousands of women of all ages and descriptions thronged the doors and besieged the officers in com mand of the admittances. There were many needy women, already blind and feeble with stitching, and likewise many of competence, who came t volunteer their services at any department of bor-cutting, sewing, binding, or fitting. The officers in charge of the establishment were much perplexed by the applications of these, and the ce resembled for a time a species of Bediam, filled with confused noises, vociforations, shouts, and the sounds of tramping feet. and in one instance the wife of a million remarked sewing upon a stool, with her three daughters crouching around her. These were so busy that they had neither words nor looks for some curious persons, who looked surprisedly upon them. It was purely a labor of love with them needing not encouragement, adulation, or regard. With such fair blessings upon the volunteers, he must be indeed incredulous who could doubt their ultimate triumph. If the women thus labor, shall the men not fight? leave, and for our glorious Union: I feel honored in performing the duty which now devolves upon me. There is an elequence in the circumstances surrounding us which transcends any combination of words. The Constitution is threatened with subversion—the laws outraged—the Federal fortresses and arsenals seized—the public moneys stolen. Treason is rampant in the Southern States—treason against a Government the freest and most beneficent of any in all the world. Surely there is an elequence in these things that enters into the deepest recesses of our hearts.

Nou, my friends, are not going forth to fight the battles of a despot—you are not going to meet a foreign foe; but your enemies are rebels, dastardly, traitorous rebels, who have been base enough ly, transforms reseas, who have seen base enough to fire upon their country's flag—that beautiful, that glerious, that conquering flag, which has floated so proudly over every sea, the terror of tyrants, and the star of hope to the oppressed of all the carth
