ALLROED LAHORNY.

A pretly good-looking young woman, named Caroline Norman, allas Kinsley, was arratgued at the Central Station yesterday afternoon on the charge of the larceny of four cavalry coats and four infanity coats, to be made up for M. France, from whom the work was obtained. It was subsequently ascertained that the coats were cut into pieces and sold at a rag store, corner of Second and Christian streets, for the sum of 819. It was in evidence at the hearing that while on the way to the cars the defendant made a proposition to her sister to cut the coats up and sell the pieces. The defendant utterly denied the statement made by the sister. Air. France, the employer, produced a recommendation signed Penrson Young, giving a good character to the defendant. This was pronounced a forgery. The accused was bound over in the sum of \$1,000 to answer at court. A rich and lively seen occurred between half a dozen of persons present, all members of the same family. The defendant charged her sister with having ruined half a dozon families. This started the mildest kind of declanation and recrimination, during which one of the women, having an infant in her arms, made it cry all the louder in the attempt to pacify it. It was a refreshing scene to break the dull monotony of the Central. On. Resolved, That it be recommended by this Assembly the ministers and other members of the U. P. FIFTH DISTRICT.!

John Rico vs. George Howell, owner, or reputed owner and contractor. This was asci. fa. on a mechanic's claim to recover a balance alleged to be due and unpaid for work and labor done and materials furnished in the construction of the west house of the block of buildings recently erected at the southwest corner of Muth and Chestunt streets. Defendant contends that he is entitled, under the confract, to a deduction of twenty dollars perdeiny, caused, as he alleges, by the lackers of the plaintiff; and also to a deduction to the amount of the difference in cost between the two plates of glass for the sash of the show windows fronting Chestunt street, as provided for in the contract, and three plates which were put in. Plaintiff alleges in regard to the delay that it was the fault of the marble mason, and in regard to the rises that it was impossible then and now to procure plates of the large dimensions required. The jury were told if they agreed to send their verdict and bring it in this morning. The court then adjourned.
