SKIRTS.

This invention consists of Duplex (or two) Elliptic Steel Springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most elastic, flexible, and durable spring ever used, enabling the wearer, in consequence of its great elasticity and flexibility, to place and fold the skirt when in use as easily and with the same convenience as a silk or muslin dress. It entirely obviates and silences the only objection to hoop skirts, viz: the as neyance to the wearer as well as the public, especially in crowded assemblies, carriages, railroad cars, church pews, or in any crowded place, from the difficulty of contracting them to occupying a small space. This entirely removes the difficulty, while giving the skirt the usual full and symmetrical form, and is the lightest and most stylich and graceful appearance for the street, opera, promenade, or house dress. A lady having enjoyed the pleasure, comfort, and great convenience of wearing the Duplex Elliptic Spring Skirt for a single day, will never afterward willingly dispense with the use of them. They are the best quality in every part, and by far the lightest, most durable, comfortable, and economical skirt made. Merchants will be supplied as above, and ladies in most first-class retail stores in this city and throughout the different States.

BRONCHITIS AND GENERAL DEBILITY.

St. Thomas Township, Frankein County, Pa., August 8, 1863. About five years ago I was taken with a severe cold,

which gradually passed away, leaving mythroat in an inflamed and irritable condition. I applied to an Allo-

patbic Physician, but without any relief. My genera health also failed, with symptoms of Consumption.

commenced taking medicine, and was under the medi-cal treatment of five different physicians (also used Pa-

tent Medicines), but received no relief. My throat con-

tinued growing worse, and my general health continued to fail. In April, 1863, I addressed a letter to a physi-

cian in New York, that I had been taking medicine

from, enclosing five collars for medicine. Soon after

dropping the letter in the office, I heard of Dr. Brown,

Electrical Physician, I concluded to call and after

hearing his explanation of my disease and mode of treating. I had the letter taken from the post office, and

concluded to go under his treatment; and can say, after going through his course of treatment, I am relieved of

disease. My general health is good, and, although! had not been able to work for nine months previous,

am now able to work as usual. I would say to the di

eased of all lelasses, throw away medicines, and avail yourselves of the benefits of the recent discoveries in

Electricity as applied by Dr. Brown, 1220 Walnut street, SOLOMON CRIDER.

DYSPEPSIA CURED.

This is a loss of balance of the two positive and negative forces of Electricity. The polarity of the nerves

going from the cerebellum to the stomach being lost, and the supply of Electricity from the brain being di-

minished, therefore the stomach is left minus or nega-tive. The organ cannot perform its legitimate function

properly, and Dyspepsia is the result. Read the fol-

In the spring of 1862, I was taken with constant pain

and uneasiness in my stomach; which gradually increased until November. At this time an eminent Allopathic

Physician was called in, who pronounced the disease Dyspepsia. Medicine was prescribed, but failed to cure the disease. I sent to Philadelphia and procured

a box of a celebrated Dyspepsia medicine, advertise

in the papers. After using that Lexperienced no relief.

The disease continued growing worse, until March, 1863, when hearing of the wonderful cures performed

by means of Electricity, I concluded to have it applied

by Dr. BROWN, was entirely cured, and continue s unto this day. M. BROWN.

PARALYSIS CURED.

DR. SHEDD-Dear Sir: For the benefit of suffering humanity, I would give a statement of my condition

when I came under your care and treatment. From the result of an injury my left side was totally paralyzed,

and had been for six months previous to calling on

get no rest only by the influence of opiates. Had been treated by several physicians without benefit. When

ready to give up all hope of ever regaining the use of my limbs, I was advised by Thomas Brown of our place

to put myself under your care. I did so, and the result is I am fully restored. After receiving fourteen of your Electrical treatments I have now the perfect use of my paralyzed side, and my seneral health was never better.

You are at liberty to make such use of this as you please. THOMAS C. WARD.

Prof. Bolles has qualified over one thoupaid in lawful money. These notes will be convertible at the option of the Dr. Brown employs the best Electrical talent in this holder, at maturity, linto six per cent. gold bearing bonds, payable not less than five nor more than twenty Read the following certificates of cures performed by years from their date, as the Government may elect. They will be issued in denominations of \$50, \$100, \$500, Astonishing cure of Chronic Bronchitis and General Debility, of five years' standing, at Dr. BROWN'S \$1,000, and \$5,000, and all subscriptions must be for fifty

dollars or some multiple of fifty dollars.

As the notes draw interest from August 15. Berson making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit. SPECIAL ADVANTAGES OF THIS LOAN. IT IS A NATIONAL SAVINGS BANK, offering higher rate of interest than any other, and the best se eurity. Any sayings bank which pays its depositors in U. S. Notes, considers that it is paying in the best

circulating medium of the country, and it cannot pay in anything better, for its own assets are either in Government securities or in notes or bonds payable in Government paper. Convertible into a Six per cent. 5-20

Gold Bond. In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than nine yen cent. premium, and befor he war the premium onsik percent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Taxation. But aside from all the advantages we have enume-Treasury notes from local taxation. On the average, this exemption is worth about two per cent per annum,

It is believed that no securities offer so great induce ments to leaders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States. Up to the 24th of September, the subscriptions to this loan amounted to over

\$40,000,000.
