There were the same countless number of calls, the same dashing equipages in the various avenues, the same universal testlylities among all classes of scolety, which from time imme-morial have stamped New Year's day as one of the "peculiar institutions," and though a terrific civil war has now raged during four long years, the astreets of New York, on that day, did not in the least show any want of population for want of wealth. There appeared to be everywhere as many gay and festive young men making their scores of calls as in the phing times. Of peace, and though they were all enthusiastic for calls, their number was *prime*. *facile* evidence that the numberous Predient's calls (for troope) had not affected them to any very great ex-tent. Then again, there were anong visitors an unsual number of complaints of tardiness in being ready for the reception of calls. The excuse on the one hand was the short days, the cold, toliettes, preparation of tables, &c., &c. The necessity on the other hand for early calls is the wide extent of the oity, distances, num-possible to make a large number of calls. As it is needing ready and short days also. Unless the pe-destrian begins early and continues late, it is im-possible to make a large number of calls. As it is New Year's calls are now divided into those of datys and those of pleaseure, and perhaps there are those of interest, profit, and speculation, as well as of public custom and personal Indifference. What-ier the motive, the time-honored custom is one of the most agreeable ever instituted, and the completeness. If the Yan-kees are not aware of the fact, it is because all hands in the blockading vessels were fast asleep when the steamers ran in. The Wilmington *Journal* says the works around Wilmington and at the mouth of the river are be-lieved to be strong, and no great fasts are enter-taines concerning the new of operations of the energy. A SINGULAR ACOIDENT.-A shocking accident, resulting in a loss of life, happened at the toil-gate about one mile vest of Middletown, Orange-county, N. Y., on the 18th. The roof of the shed which covers the road at that place, on account of the heavy pressure of snow upon it, fell through as Mrs. Toulon, wife of the gate keeper, was receiving the toil from Col. J. C. Holley. The beams of the falling building struck them both, and several beams fell across them, nearly crushing that that she died on Sunday morning. Col. Holley, although not fatally, was badly injured.
