TUESDAY, JUNE 13, 1865. We have aiready noticed "The Clever Woman of the Family," by Miss Yonge, author of "The Heir of Heddylfe," and "Family Failings," by Mrs. Grey. They are well written—but the first is particularly good. The character of the clever woman, who gradually distrusts her own great abilities,

nas been artistically drawn.
"On Guard," by Annie Thomas, is the last num-"On Guard," by Annie Thomas, is the last number of that admirable series, Harper's "Library of Select Novels," in which are included, at a very low price, the best works of fiction, original or translated, published in Europe during the last twenty years. "On Guard"—a novel by a writer, who though young has equal facility and fertility—is a story of domestic as well as of fashionable life in England, drawn by a fice and faithful hand, and, in various ways, highly interesting. Incident and character are equally good in this tale. The heroine, Bella are equally good in this tale. The heroine, Bella are of the story of the s Vane, is one make are better drawn than the most part, the female are better drawn than the male characters, which is unusual. Another new novel, published by Harper & Brothere, is "A Sn of the Soil." a quiet story of Scottleh life, without much incident, but fathful in local

coloring, and porrect in national character and "Only a Clc.," by Miss Braddon, has a somewhat more probable plot than that great sensation-novelist usually favoraber readers with. There is novelty, ist usually favoraber to the British army sudhowever, in a private soldier in the British army suddenly succeeding to an heritage of thirty thousand pounds a year, and entering society under the ausphes of his late captain, whose boots he, while a Servat, had blackened at the Antipodes. It is pub-Servent, and disckened at the Antipodes. It is published by Dick & Frizgerald.

Ar. Carlton, New York, has just published to White's Hand," a novel by Mr. J. Sheridan Lefrant, author of "Uncle Silss," one of the most

g stories of the season. This is very much in Wikie Collins' early style, and reminds us of "Basil, and "The Dead Secret." The mystery is worked out very adroitly to the penultimate chaptop and the leading characters are strongly indivi-dualized. The main incidents are not probable epecially the personation of Wylder by a man who is not even a distant relation, and therefore can conrolly possess a resemblance as though he were a The diamond-out-diamond vagabonds, Captain Lake and the subtle lawyer, are well con-

"Looking Around," by A. S. Roe, author of nearly a dozen popular novels, will add to his repu-tation. It is a well-written story, thoroughly American, and does not bring in "the war." It is not sepastional, in the ordinary sense, but its action is true, its characters well sustained, and its moral not strained. Every incident related here might ave occurred. Though complete as far as it goes the author proposes writing a sequel. Published by Carlton.

A third series of the Orpheus C. Kerr Papers,

also issued by Mr. Carlton, will be hailed with gradification by many readers. The Mackeral Brigad being "mustered out," by the collapse of the re-beillon, we may look on this volume as closing the Orpheus C. Kerr Papers. They are infinitely bet-ter, with proper orthography and real humor, than the forced fun and elaborated bad spelling of Ar-

Musical.-There can be no dispute about the musical inclination of the United States. The very large sale of plano-fortes and of all description of music may be received as ample evidence of this. No American household feels that it is com. plete until it possesses some musical instrument For this reason the plane-forte has always been a great desideratum. Its cost, however, has put it beyond the means of many, and another reason less apparent at first view, has operated in its disfavor. Dependent as is this instrument upon tones produced by percussion, and consequently evanescent e character, considerable skill in its manipulation is requisite to afford much pleasure to either per former or listener, and our people have neither the time nor the suppleness, acquired by long practice to become great in their digited dexterity. An inevitable consequence of this was that the melodeon notwithstanding its lifelessness, its lack of expression, and its monotony, became a great favorite with the public, although it falled to receive the endorsement of the musical profession or of connois

It is therefore not to be wondered at, that when the Mason & Hamlin CARINET ORGAN WAS SO DOFted as to eligit the approbation of the first artists it should at once have achieved a great popularity. Its sustained tones, enabling it to represent more faithfully operatic, orchestral, and vocal compositions, were what a singing people required. Its casion, supplied that which was lacking hitherto in reed instruments, and the melodeon, like the spin-not and harpsichord of former days, henceforth was to be recognized only as an avant courier, of some-thing which was to receive the seal of approbation. When nearly all of the leading musicians of our principal cities units in pronouncing the Cabinet Organs of Messrs. Mason & Hamilu the best reed instruments manufactured here or abroad, and in commending them as most valuable for the draw ing room and family, as well as for the chapel and attention of our readers to their merits. These who

will listen to them at the warercome, corner of Seventh and Chestnut streets, will, we doubt not, fully concur in the general estimate in which they are held by the profession and distinguished ama-MEETING OF METHODIST BISEOPS.—On the 14th 15th, and 16th of June next, the Bishops of the M E. No formal welcome or session is expected to official circles, and therefore private in every respect. No formal welcome or session is expected to take place. The gentlemen expected are among the leading churchmen of the country, and all eminant for their scholarly attainments and successful career. The senior state of Morris, and Bishops Simpson, Baker, Thômson, Clark, and Ames will be present with him. These are names well known both in religious and literary-circles.

ITEMS IN MINIATURE.—The New York Methodist, referring to the effort of the Methodists of Newark to relieve all their otheroes of debt, says: "At the present rate of proceeding, they will soon have every church debt paid off, and then Newark will be the banner city of Methodism."

A Congregational church in San Francisco uses the Episcopal Murry, and the Boston Congregational churchs from committing suicide by slow polson?"

The resolutions of the Ohristian Commission to close its work when the necessity ceases has been understood in some quarters to mean that its work has closed. This is not to. It is still doing a large work, and will probably continue operations for two or three months more—during which time it will need moreay and stores.

The annual meeting of the Synod of the Church of Scotland took place on May 18th, in the Covent Garden Church, Engiand. No very important business was transacted.

OSTH REGIMENT PENNSYLVANIA VOLUNTEERS Soldiers:—One of your number has just placed in my hands, as a token of your esteem for me, an exculsitely wrought gold watch, with gold chain and flattese cross stached, manufactured to your order by Mesars. Gill & Grisslie, of this city, at a cost of \$350.

Durit g my connection with you as Chaplain of the 198th, I am proud to say that, in no one instance, has any one of your number done or said aught to intentionally wound my feelings, or east reprosch upon the sacred cause I represent. On the contrary, in my labors among you in the camp, on the march, on the battle field, in the hoshitals to which many of you have been carried, prostrated by wounds and disease. I have felt myself more than repaid for all my toil by the many expressions of gratitude that came from generous hearts. I had no right to expect a material declaration of your regard for ms.

Because your offering has come to me freely and spontaneously, I shall esteem it the more. I shall constantly have as my companion the evidence of your gratified, eliberality, and good taste. This parting gift is peculiarly sacred to me, from the fact that many of your comrades who contributed of their means to procure it, have tealed their devotion to our common cause with their heart's blood. It is a testimonial coming to me from the living and the doad. As such, soldiers, I receive it, and with an honeas print i shall carry it with me through all the days of my life.

With thanks to God that he sailed me to preach the generous and brave defenders of our Government, and with an honeas print i shall carry it with me through all the days of my life.

With thanks to God that he sailed me to preach the generous and brave defenders of our Government, and with an abone our propers of your temporal and apprint may will be continued by a sailed me to preach the generous and brave defenders of our Government, and with many and continuous prayers for your temporal and apprint may will be defended to the generous and brave defenders of our Government, and with many and

MONEOE SNYDER. TREASURER, E. H. HELFRICH. SECRETARY, JACOB R. KROUT.

This Association differs from all others, it being strictly an operating or working capital interest association. All the capital is used for the production of oil. The Association has a number of Lease on first class Oil Territory, and arrangements have been made for a number more, and it is designed at once to commence the development of oil. One of these Leases is on Cherry Run, in Veraugo county, about half-way between its month and the town of Plumer, close to the celebrated Reed Well, which now produces 500 barrels per day, on which this Association is taking 8 wells; the contract for which its taken at Hight Thousand Dollars each, including engines, derricks, tubing, &c. It is proposed to sell Interests in one or all of the A quarter working capital, or interest costing \$3,000 may, with favorable indications of oil, be sold for \$5.000 to five the well is completed, while beid and the well is completed the owner derives from his interest an income of from \$8.000 to \$10,000 per an name, if the well will only yield but twenty barrel per day. This is the greatest opportunity ever offered in the oil speculation. The capital required for eight wells is only sixty-four thousand collars: The office was opened on Monday, the 6th of June, and \$25,000 was taken the first day.

We call the attention of persons who may intend invasing in oil stock to take interest in these eight wells on Cherry Run, and the low capital required. Many emparies with tracts of far lets value have one or two millions of capital, and if no oil is struck all their sapital is anway should blis Association fall to strike oil, which is impossible in that section of country, there would only the kinfu dollar be lost—being the engines, derricks, and 12 tubs, would be worth \$2 out of \$3. This is the greatest speculation ever offered in oil peculation, without chest or trickery, with a small apital, and with such a trifling risg. The earnest and realous labors of a loyal people secured the great victory in 1844, and made the war, which our enemies denounced as a fainte, a glorious buccass in 1856.

Our flag has been maintained, our enemies derivoyed, our Government preserved, and peace re-established. Let every friend who aided in this result take measures to be represented in that Convention. We must see to it that the fruits of our success are not lost to the nation. Business of vast importance will be presented for its consideration, and every district in the State should be represented.

One cent per day on a \$50 note. Two cents per day on a \$100 note. Ten sents per day on a \$500 note. Twenty cents per day on a \$1,000 note. One Dollar per day on a \$5,000 note. Notes of all the denominations named will be promptly furnished upon receipt of aubscriptions. The notes of this Third Series are precisely similar in orm and privileges to the Seven Thirties already sold, except that the Government reserves to itself the option f paying interest in gold coin at 6 per cent, instead of 8-10ths in currency. Subscribers will deduct the lu erest in currency up to July loth, at the time when they subscribe.

even-Thirties will commence on the 1st of June, and will be made promptly and continuously after that date. The slight change made in the conditions of this THIRD SERIES affects only the matter of interest.
The payment in gold, if made, will be equivalent to he currency interest of the higher rate. The return to specie payments, in the event of which only will the option to pay interest in gold be availed. f. Would so reduce and equalize prices as that purhases made with six per cent. in gold would be fully equal to those made with seven and three-ten nt, in currency. This is

NEW PUBLICATIONS. THE NATION.

A WEEKLY JOURNAL OF POLITICS, LITERATURE, ECIENOF, AND ART.

WILE BE PUBLISHED JULY 6, 1865.

ITS MAIN OBJECTS WILL BE First. The discussion of the topics of the day, and, above all, of legal, economical, and constitu questions, with greater accuracy and moderation are new to be found in the gally press. Second. The maintenance and diffusion of true demo-cratic principles in society and government, and the ad-voscey and illustration of whatever in legislation or in manners seem likely to promote a more equal distribu-tion of the fruits of progress and civilization.

Third. The earnest and persistent consideration of the condition of the laboring class at the South, as a matter of vital interest to the nation at large, with a view to the removal of all artificial distinctions between them and the rest of the population, and the securing to them, as far as education and justice can do it, of an equal chance in the race of life.

WANTED-IN A WHOLESALE
Motion House, a Young Man who is acquainted
with and can command a city and near trade, and to
sell goods by sample if necessary. Address Box 1939,
Phila P. O. 1939, 1948 61° Fourth. The enforcement and illustration of the doc-trine that the whole community has the strongest inte-rest, both moral, political, and material, in their ele-vation, and that there can be no real stability for the Fifth. The fixing of public attention upon the politi-cal importance of popular education, and the dangers which a system like ours runs from the neglect of it in any portion of our territory.

Sinth The collection and diffusion of trustworthy in-formation as to the condition and prospects of the Southern States, the openings they offer to capital, the supply and kind of labor which can be obtained in hem, and the progress made by the colored popular acquiring the habits and desires of civilized life. Seventh. Sound and impartial criticism of books and THE NATION will not be the organ of any party, sect, or body. It will, on the contrary, make an earnest effort to bring to the discussion of political and social questions a really critical spirit, and to wage war upon the vices of violence, exaggeration, and misrepresentation, by which so much of the political writing of the day is marred.

The criticism of books and works of art will form one cfits most prominent features; and pains will be taken to have this task performed in every case by writers possessing special qualifications for it. It is intended, in the interest of investors, as well as of the public generally, to have questions of trade and finance treated every week by a writer whose position and character will sive his articles an exceptional value, and render them a safe and trustworthy guide. A special correspondent, who has been selected for his work with some care, is about to start in a few days

for a journey through the South. His letters will ap-rear every week, and he is charged with the duty of simply reporting what he sees and hears, leaving the public as far as possible to draw its own inferences: The following writers, among others, have been secured, either as regular or occasional contributors: Henry W. Longfellow. Samuel Bliot (Bx-President Trin. College, Hartfo Prof. Torrey (Harvard),

Dr. Francis Lieber, Prof. Child (Harvard). Charles E. Morton, Judge Bond (Baltimore). Edmund Quincy. Prof. W. D. Whitney (Yale). Prof. D. C. Gilman (Yale) Judge Daly. Judge Daiy. Prof. Dwight (Columbia College). Judge Wayland. Frederick Law Olmsted. Rev. Dr. Thompson, Rev. Phillips Brooks.

Rev. Dr. Bellows. C. J. Stille. Henry T. Tuckerman. Bayard Taylor, C. A. Bristed. Richard Grant White, William Lloyd Garrison Sydney George Fisher,

A more extended list will be published in a few days. JOSEPH H. RICHARDS, Publisher,
